English Language

Q. 1

In the following passage, certain words have been omitted and replaced by blanks. Read the passage carefully and answer the questions that follow.

Honesty is one of the most **_(A)_** values a person can hold. When we are honest with others, we build trust and strengthen our relationships over time. A person who is known for telling the truth is always **_(B)_** by those around them, whether at home, at school, or at work. Being honest does not always mean saying everything that is on your mind - it means not saying things that are untrue or meant to **_(C)_** others. Sometimes, being honest takes great courage. It is not easy to admit a mistake or to say something others may not want to hear. However, a moment of honesty, even when it is difficult, can **_(D)_** a relationship far more than a comfortable lie ever could. People who choose honesty in their daily lives earn a reputation that is hard to **_(E)_** over time, making them trustworthy in both their personal and professional dealings.

Which of the following words can fit in the blank labelled (A)?

A) cherished 

B) decorative 

C) misunderstood 

D) outdated 

E) complicated 

Answer: A

Decorative: Decorative is an adjective meaning used for decoration. It can modify a noun but makes no logical sense when applied to an abstract value like honesty - values are not decorative objects.

Misunderstood: Misunderstood means incorrectly interpreted. Describing honesty as a misunderstood value would imply people fail to grasp it properly - but the passage presents honesty as something universally valued and admired, not a concept people get wrong.

Outdated: Outdated means no longer relevant or modern. The passage argues honesty is timeless and important - calling it outdated directly contradicts the message of the entire passage.

Complicated: While complicated is grammatically usable as an adjective here, it implies honesty is a difficult, tangled value - the exact opposite of the straightforward, positive framing the passage establishes from the very first sentence.

Cherished: Cherished means held as very dear and important. It is warm in tone, precisely positive in meaning, and fits the simple. "One of the most cherished values" is a natural, widely used expression in English for describing something deeply important to people.

The word that can fit is "cherished." Complete sentence: "Honesty is one of the most cherished values a person can hold."

Explanation:

Q. 2

In the following passage, certain words have been omitted and replaced by blanks. Read the passage carefully and answer the questions that follow.

Honesty is one of the most **_(A)_** values a person can hold. When we are honest with others, we build trust and strengthen our relationships over time. A person who is known for telling the truth is always **_(B)_** by those around them, whether at home, at school, or at work. Being honest does not always mean saying everything that is on your mind - it means not saying things that are untrue or meant to **_(C)_** others. Sometimes, being honest takes great courage. It is not easy to admit a mistake or to say something others may not want to hear. However, a moment of honesty, even when it is difficult, can **_(D)_** a relationship far more than a comfortable lie ever could. People who choose honesty in their daily lives earn a reputation that is hard to **_(E)_** over time, making them trustworthy in both their personal and professional dealings.

Which of the following words can fit in the blank labelled (B)?

A) doubted

B) feared

C) respected

D) avoided

E) questioned

Explanation:

Answer: C

Doubted: Doubted means not trusted or believed. If a truthful person is doubted by those around them, the sentence contradicts itself - an honest person would be trusted, not questioned. This reverses the meaning the passage intends.

Feared: Feared means regarded with fear or dread. While a very honest person might occasionally make others uncomfortable, describing them as always feared is too extreme and negative for the context - the passage presents honesty as something that earns positive regard.

Avoided: Avoided means deliberately kept away from. Saying an honest person is always avoided implies people stay away from them - again the opposite of the admirable quality the passage is describing.

Questioned: Questioned means challenged or asked to explain oneself. "A person known for telling the truth is always questioned" implies that honesty invites suspicion, which contradicts the passage's positive portrayal of honest people.

Respected: Respected means admired and held in high regard. It is the most natural and contextually appropriate word - a person known for honesty is naturally respected by those around them. It is positive in tone, consistent with the passage's message.

The word that can fit is "respected." Complete sentence: "A person who is known for telling the truth is always respected by those around them."

Q. 3

In the following passage, certain words have been omitted and replaced by blanks. Read the passage carefully and answer the questions that follow.

Honesty is one of the most **_(A)_** values a person can hold. When we are honest with others, we build trust and strengthen our relationships over time. A person who is known for telling the truth is always **_(B)_** by those around them, whether at home, at school, or at work. Being honest does not always mean saying everything that is on your mind - it means not saying things that are untrue or meant to **_(C)_** others. Sometimes, being honest takes great courage. It is not easy to admit a mistake or to say something others may not want to hear. However, a moment of honesty, even when it is difficult, can **_(D)_** a relationship far more than a comfortable lie ever could. People who choose honesty in their daily lives earn a reputation that is hard to **_(E)_** over time, making them trustworthy in both their personal and professional dealings.

Which of the following words can fit in the blank labelled (C)?

A) support 

B) mislead 

C) encourage 

D) comfort 

E) guide 

Answer: B

Support: Support means to help or encourage. "Not saying things meant to support others" implies honesty means avoiding helpful statements - this makes no logical sense. The blank clearly requires a word with a negative meaning that honesty helps us avoid.

Encourage: Encourage means to give confidence or support to someone. Saying honesty means not making statements meant to encourage others is illogical - the passage is describing avoiding harmful, not helpful, speech.

Comfort: (cannot fit - vocabulary) Comfort means to ease distress or make someone feel better. Avoiding statements meant to comfort others would suggest honesty requires being unkind - this distorts the meaning of the passage entirely.

Guide: Guide means to lead or direct someone. Like support, it is a positive verb. "Not saying things meant to guide others" implies honesty means avoiding helpful direction - which contradicts the common understanding of honest communication.

Mislead: Mislead means to cause someone to form a wrong impression or believe something untrue. "Not saying things meant to mislead others" is the precise meaning of honesty in the context of the passage - it is the only option with a negative meaning, which is what the blank logically requires.

The word that can fit is "mislead." Complete sentence: "it means not saying things that are untrue or meant to mislead others."

Explanation:

Q. 4

In the following passage, certain words have been omitted and replaced by blanks. Read the passage carefully and answer the questions that follow.

Honesty is one of the most **_(A)_** values a person can hold. When we are honest with others, we build trust and strengthen our relationships over time. A person who is known for telling the truth is always **_(B)_** by those around them, whether at home, at school, or at work. Being honest does not always mean saying everything that is on your mind - it means not saying things that are untrue or meant to **_(C)_** others. Sometimes, being honest takes great courage. It is not easy to admit a mistake or to say something others may not want to hear. However, a moment of honesty, even when it is difficult, can **_(D)_** a relationship far more than a comfortable lie ever could. People who choose honesty in their daily lives earn a reputation that is hard to **_(E)_** over time, making them trustworthy in both their personal and professional dealings.

Which of the following words can fit in the blank labelled (D)?

- A) damage 
- B) end 
- C) build 
- D) replace 
- E) strengthen 

Answer: E

Damage: Damage means to harm or weaken. "A moment of honesty can damage a relationship far more than a lie" would mean honesty is more harmful than lying - the complete opposite of what the passage argues. The entire sentence is structured to show honesty is better than lying.

End: End means to bring something to a close. "Honesty can end a relationship far more than a lie" implies honesty destroys relationships - again, the opposite of the passage's message and inconsistent with the comparison being made.

Build: Build is close in meaning but does not fit because of the comparative structure "far more than a comfortable lie ever could." Building a relationship slowly is not directly comparable to what a lie does - strengthen is the more precise word because a single moment of honesty can actively make an existing relationship more robust in a way that contrasts directly with a lie.

Replace: Replace means to take the place of something. "A moment of honesty can replace a relationship" makes no logical sense - honesty cannot substitute for a relationship itself.

Strengthen: Strengthen means to make more solid or robust. "A moment of honesty can strengthen a relationship far more than a comfortable lie" is a natural, complete, and meaningful sentence - a single act of honesty makes a bond stronger in a lasting way that a comforting lie cannot. It fits both the comparative structure of the sentence and the positive, encouraging tone of the passage.

The word that can fit is "strengthen." Complete sentence: "a moment of honesty, even when it is difficult, can strengthen a relationship far more than a comfortable lie ever could."

Explanation:

Q. 5

In the following passage, certain words have been omitted and replaced by blanks. Read the passage carefully and answer the questions that follow.

Honesty is one of the most **_(A)_** values a person can hold. When we are honest with others, we build trust and strengthen our relationships over time. A person who is known for telling the truth is always **_(B)_** by those around them, whether at home, at school, or at work. Being honest does not always mean saying everything that is on your mind - it means not saying things that are untrue or meant to **_(C)_** others. Sometimes, being honest takes great courage. It is not easy to admit a mistake or to say something others may not want to hear. However, a moment of honesty, even when it is difficult, can **_(D)_** a relationship far more than a comfortable lie ever could. People who choose honesty in their daily lives earn a reputation that is hard to **_(E)_** over time, making them trustworthy in both their personal and professional dealings.

Which of the following words can fit in the blank labelled (E)?

- A) build 
- B) forget 
- C) create 
- D) lose 
- E) obvious 

Answer: D

Build: Build means to create or develop. "A reputation that is hard to build" would mean an honest reputation is difficult to establish - but the sentence is about the value of a reputation once earned, not the difficulty of creating it in the first place.

Forget: A reputation is a collective public perception or standing, not a piece of information stored in memory; one does not "forget" a reputation in this context.

Create: Create carries the same problem as build - it refers to making something new. The sentence describes what happens after the reputation has already been earned through years of honest behaviour.

Explanation:

Obvious: It is an adjective meaning easy to see, understand, or recognise. The blank follows "hard to," which requires the base form of a verb. Therefore, "hard to obvious" is grammatically incorrect and cannot fit the sentence.

Lose: Lose means to cease to have something. "A reputation that is hard to lose" means an honest person builds a name for themselves that endures and is not easily undone. This is the most natural and contextually fitting completion - it conveys the lasting value of an honest reputation, which is the positive, encouraging conclusion the passage is building toward.

The word that can fit is "lose." Complete sentence: "People who choose honesty in their daily lives earn a reputation that is hard to lose over time."

Q. 6

In each of the following questions a sentence has been divided into five parts which may or may not be properly arranged. You are required to rearrange these parts in order to form a meaningful and coherent sentence. Choose the correct combination from the given options.

(A) essential nutrients and sufficient water

(B) strong roots to support healthy growth

(C) healthy soil provides plants with

(D) allowing them to develop

(E) throughout the changing seasons

A) CADEB 

B) CADBE 

C) EBCDA 

D) DCABE 

E) No rearrangement required 

Answer: B

Logic of arrangement:

(C) "healthy soil provides plants with" introduces the subject and the verb phrase (provides with).

(A) "essential nutrients and sufficient water" provides the objects supplied by the soil.

(D) "allowing them to develop" functions as a participial phrase indicating the resulting benefit.

(B) "strong roots to support healthy growth" serves as the direct object of the verb "develop."

(E) "throughout the changing seasons" forms the final adverbial time modifier.

Final Rearranged Sentence: "Healthy soil provides plants with essential nutrients and sufficient water allowing them to develop strong roots to support healthy growth throughout the changing seasons."

Explanation:

Q. 7

In each of the following questions a sentence has been divided into five parts which may or may not be properly arranged. You are required to rearrange these parts in order to form a meaningful and coherent sentence. Choose the correct combination from the given options.

- (A) modern digital payment apps have
 (B) made financial transactions quicker and
 (C) eliminating the constant need to
 (D) carry cash for daily purchases
 (E) significantly more convenient for consumers by

A) ABECD

B) AEDCB

C) BACDE

D) ABEDC

E) No rearrangement required

**Answer: A**

Logic of arrangement:

(A) "modern digital payment apps have" introduces the plural subject and auxiliary verb.

(B) "made financial transactions quicker and" forms the comparative structure (quicker and...).

(E) "significantly more convenient for consumers by" completes the comparative pair (more convenient) and introduces the instrument (by).

(C) "eliminating the constant need to" follows the preposition "by" with a gerund (eliminating).

(D) "carry cash for daily purchases" completes the infinitive phrase (need to carry).

Final Rearranged Sentence: "Modern digital payment apps have made financial transactions quicker and significantly more convenient for consumers by eliminating the constant need to carry cash for daily purchases."

Explanation:

Q. 8

In each of the following questions a sentence has been divided into five parts which may or may not be properly arranged. You are required to rearrange these parts in order to form a meaningful and coherent sentence. Choose the correct combination from the given options.

(A) by reducing the amount of

(B) single-use plastic waste generated daily

(C) carrying reusable cloth bags while

(D) shopping helps protect the environment

(E) and prevents unnecessary ocean pollution

A) CABED 

B) BDAEC 

C) CDABE 

D) CDEAB 

E) No rearrangement required 

Answer: C

Logic of arrangement:

(C) "carrying reusable cloth bags while" starts with the gerund phrase acting as the subject.

(D) "shopping helps protect the environment" completes the conditional action and introduces the main predicate.

(A) "by reducing the amount of" explains the method of environmental protection.

(B) "single-use plastic waste generated daily" serves as the noun phrase object of the preposition "of."

(E) "and prevents unnecessary ocean pollution" provides the parallel concluding consequence (helps... and prevents).

Final Rearranged Sentence: "Carrying reusable cloth bags while shopping helps protect the environment by reducing the amount of single-use plastic waste generated daily and prevents unnecessary ocean pollution."

Explanation:

Q. 9	In each of the following questions a sentence has been divided into five parts which may or may not be properly arranged. You are required to rearrange these parts in order to form a meaningful and coherent sentence. Choose the correct combination from the given options. (A) regular practice of gentle yoga (B) stretches can significantly improve (C) joint flexibility, enhance core (D) muscle strength, and encourage (E) proper daily body posture A) CDEBA  B) BDAEC  C) ECABD  D) CDAEB  E) No rearrangement required 
Explanation:	Answer: E The given sequence of parts forms a grammatically correct and coherent sentence without needing any rearrangement. • (A) introduces the subject: "<i>regular practice of gentle yoga</i>" • (B) provides the main verb phrase: "<i>stretches can significantly improve</i>" • (C) presents the first object and starts a parallel verb structure: "<i>joint flexibility, enhance core</i>" • (D) completes the second parallel phrase: "<i>muscle strength, and encourage</i>" • (E) finishes the sentence with the final object: "<i>proper daily body posture</i>" Final Rearranged Sentence: Regular practice of gentle yoga stretches can significantly improve joint flexibility, enhance core muscle strength, and encourage proper daily body posture.

Q. 10

In the following questions, two columns are given, containing three phrases each. A phrase from the first column may or may not connect with a phrase from the second column to make a grammatically and contextually correct sentence. There are five options, which display the sequence(s) in which the phrases can be joined to form a correct sentence.

Column I	Column II
(A) The forest department has planted	(D) to protect endangered one-horned rhinoceroses from poachers.
(B) Kaziranga National Park deployed new drones	(E) thousand of saplings across the river bank this monsoon.
(C) Solar energy projects in the desert	(F) helps in reducing carbon emissions significantly.

A) Only B-D ✓

B) Both A-E and B-D ✗

C) Both B-D and C-F ✗

D) All A-E, B-D and C-F ✗

E) None pair ✗

Answer: A

Matching the Columns

B-D: Kaziranga National Park deployed new drones to protect endangered one-horned rhinoceroses from poachers. This sentence uses a simple past main clause ("deployed new drones") followed by an infinitive phrase ("to protect...") that clearly states the purpose.

A-E: "The forest department has planted thousand of saplings across the river bank this monsoon." This sentence has a grammatical error related to noun forms with numerals. When denoting an indefinite large quantity followed by "of", the plural form thousands must be used.

Correct form: "...planted thousands of saplings..."

C-F: "Solar energy projects in the desert helps in reducing carbon emissions significantly." This sentence has a basic Subject-Verb Agreement error. The subject is "Solar energy projects" (plural), so it requires the plural base verb help, not the singular form "helps".

Correct form: "Solar energy projects in the desert help in reducing..."

The other combinations do not form a coherent sentence with a clear connection between the ideas presented in Column I and Column II.

Correct Answer: a) Only B-D

Explanation:

Q. 11

In the following questions, two columns are given, containing three phrases each. A phrase from the first column may or may not connect with a phrase from the second column to make a grammatically and contextually correct sentence. There are five options, which display the sequence(s) in which the phrases can be joined to form a correct sentence.

Column I	Column II
(A) The Reserve Bank of India decided to keep	(D) to reduce the risks of digital payment fraud.
(B) Digital transactions through UPI have grown rapidly	(E) the key policy repo rate unchanged at 5.25 percent.
(C) Commercial banks are advising their customers	(F) because more small merchants now accept online payments.

- A) Only A-E ☐
- B) Both A-E and B-F ☐
- C) Both B-F and C-D ☐
- D) All A-E, B-F and C-D ☒
- E) None pair ☐

Answer: D**Matching the Columns**

A-E: The Reserve Bank of India decided to keep the key policy repo rate unchanged at 5.25 percent.

The transitive verb "keep" is followed by its direct object ("the key policy repo rate") and the objective complement adjective ("unchanged").

A direct and simple reporting of the Monetary Policy Committee's interest rate decision.

B-F: Digital transactions through UPI have grown rapidly because more small merchants now accept online payments.

The plural subject "Digital transactions" correctly pairs with the plural present perfect verb "have grown," followed by the causal conjunction "because" introducing a simple subordinate clause.

A standard factual reason for the surge in retail digital payments in India.

C-D: Commercial banks are advising their customers to reduce the risks of digital payment fraud.

The reporting verb "advising" follows the standard pattern: [Subject] + [Verb] + [Object] + [to-infinitive clause] (advising + customers + to reduce).

Common cybersecurity advisory guidance issued by banks to retail account holders.

The other combinations do not form a coherent sentence with a clear connection between the ideas presented in Column I and Column II.

Correct Answer: d) All A-E, B-F and C-D

Explanation:

Q. 12

In the following questions, two columns are given, containing three phrases each. A phrase from the first column may or may not connect with a phrase from the second column to make a grammatically and contextually correct sentence. There are five options, which display the sequence(s) in which the phrases can be joined to form a correct sentence.

Column I	Column II
(A) The train was delayed by two hours	(D) he still reached the venue on time.
(B) Although Rahul woke up very late,	(E) because of heavy rainfall along the route.
(C) She is looking forward to visit	(F) her grandparents during the summer vacation.

A) Only A-E

B) Both A-E and B-D

C) Both B-D and C-F

D) All A-E, B-D and C-F

E) None pair

**Answer: B**

Matching the Columns

A-E: The train was delayed by two hours because of heavy rainfall along the route.

This sentence correctly uses the causal connector "because of" followed by a noun phrase ("heavy rainfall") to provide a clear, logical reason for the train delay.

B-D: Although Rahul woke up very late, he still reached the venue on time.

This is a grammatically precise concessive sentence. The subordinate clause introduced by "Although" is followed by a comma and the main clause without any redundant conjunction like "but".

C-F: "She is looking forward to visit her grandparents during the summer vacation."

This sentence has a grammatical error related to the verb form following a phrasal expression. In the idiom "look forward to", the word "to" is a preposition, not an infinitive marker. Therefore, it must be followed by a gerund (verb + -ing) or a noun.

Correct form: "She is looking forward to visiting her grandparents..."

The other combinations do not form a coherent sentence with a clear connection between the ideas presented in Column I and Column II.

Correct Answer: b) Both A-E and B-D

Explanation:

Q. 13

In the following questions, two columns are given, containing three phrases each. A phrase from the first column may or may not connect with a phrase from the second column to make a grammatically and contextually correct sentence. There are five options, which display the sequence(s) in which the phrases can be joined to form a correct sentence.

Column I	Column II
(A) The Reserve Bank of India announced	(D) a new framework to improve digital payment security.
(B) Many customers have registered complaints	(E) about the sudden delay in processing fund transfers.
(C) The branch manager prefers online banking	(F) than visiting the local bank branch in person.

- A) Only A-D 
- B) Both B-E and C-F 
- C) Both A-D and B-E 
- D) All A-D, B-E and C-F 
- E) None pair 

Answer: C

Matching the Columns

A-D: The Reserve Bank of India announced a new framework to improve digital payment security. This sentence follows a simple subject-verb-object structure where the transitive verb "announced" directly connects to its noun phrase object "a new framework."

B-E: Many customers have registered complaints about the sudden delay in processing fund transfers. The plural subject "Many customers" correctly agrees with the plural auxiliary verb "have registered," and the preposition "about" is idiomatically used after "complaints."

C-F: "The branch manager prefers online banking than visiting the local bank branch in person." This sentence has a grammatical error related to preposition usage with comparative verbs. The verb "prefer" is always followed by the preposition "to", never "than." Correct form: "...prefers online banking to visiting the local bank branch in person."

The other combinations do not form a coherent sentence with a clear connection between the ideas presented in Column I and Column II.

Correct Answer: c) Both A-D and B-E

Explanation:

Q. 14

In the following questions, a sentence is divided into four parts. Identify the part that contains error and mark it as your answer. If the sentence is free from error, choose option E as your answer.

The new branch of the bank (A)/ is more closer to the market (B)/ than the old one, making it (C)/ convenient for most customers to visit (D).

A) A 

B) B 

C) C 

D) D 

E) No Error 

Answer: B

Part (B) is incorrect.

(A) The new branch of the bank: Correct

This is a grammatically correct noun phrase functioning as the subject of the sentence.

(B) is more closer to the market: Incorrect

The error is the use of double comparison.

Closer is already the comparative form of close.

Adding more before closer is redundant and grammatically incorrect.

Correct forms:

close - closer - closest

closer (not more closer)

Examples:

Correct: This road is closer to the station.

Correct: The new ATM is closer than the old one.

Incorrect: The new ATM is more closer than the old one.

(C) than the old one, making it: Correct

than the old one correctly completes the comparison.

making it convenient is a participial phrase showing the result of the bank being closer.

(D) convenient for most customers to visit: Correct

The phrase is grammatically correct.

convenient = adjective.

for most customers to visit correctly explains who finds it convenient.

Explanation:

Q. 15

In the following questions, a sentence is divided into four parts. Identify the part that contains error and mark it as your answer. If the sentence is free from error, choose option E as your answer.

She always dreamed of travelling (A)/ across the Europe and experiencing (B)/ the diverse cultures and traditions (C)/ of the people living there (D).

A) A B) B C) C D) D E) No Error **Answer: B**

Part (B) is incorrect.

(A) She always dreamed of travelling: Correct

Dreamed of + gerund (travelling) is a correct structure.

Both dreamed and dreamt are acceptable.

(B) across the Europe and experiencing: Incorrect

The error is the use of "the Europe."

Europe is the name of a continent, and continents generally do not take the definite article "the."

Therefore, it should be across Europe, not across the Europe.

Correct: across Europe and experiencing

(C) the diverse cultures and traditions: Correct

The article "the" is appropriate because it refers to the specific cultures and traditions found in Europe.

(D) of the people living there: Correct

This prepositional phrase correctly modifies cultures and traditions.

Living there is a proper participial phrase describing the people.

Explanation:

Q. 16	In the following questions, a sentence is divided into four parts. Identify the part that contains error and mark it as your answer. If the sentence is free from error, choose option E as your answer. The government has been running (A)/ this welfare programme (B)/ since more than a decade (C)/ to support underprivileged families (D). A) A  B) B  C) C  D) D  E) No Error 
Explanation:	Answer: C Part (C) is incorrect. (A) The government has been running: Correct The Present Perfect Continuous tense is correctly used because the programme started in the past and continues into the present. (B) this welfare programme: Correct The object of the verb is grammatically correct. (C) since more than a decade: Incorrect Since is used with a starting point (e.g., since 2015, since Monday), whereas for is used with a duration (e.g., for ten years, for more than a decade). (D) to support underprivileged families: Correct This infinitive phrase correctly expresses the purpose of the programme.

Q. 17

In the following questions, a sentence is divided into four parts. Identify the part that contains error and mark it as your answer. If the sentence is free from error, choose option E as your answer.

Attached to the application form (A)/ were a photograph and (B)/ a copy of all the relevant (C)/ documents required for verification (D).

A) A B) B C) C D) D E) No Error **Answer: E**

There is no error in this sentence. All parts are correct.

(A) Attached to the application form: Correct

This is an introductory phrase modifying the subject that follows.

(B) were a photograph and: Correct

The sentence has an inverted structure. The actual subject is "a photograph and a copy" (a compound subject), so the plural verb were is correct.

(C) a copy of all the relevant: Correct

The head noun is copy (singular). The phrase "of all the relevant documents" simply describes what the copy is of.

(D) documents required for verification: Correct

"Required for verification" correctly modifies "documents."

This sentence uses subject-verb inversion, where the verb comes before the subject.

Normal order: A photograph and a copy were attached to the application form.

Inverted order: Attached to the application form were a photograph and a copy.

Explanation:

Q. 18	In the following questions, a sentence is divided into four parts. Identify the part that contains error and mark it as your answer. If the sentence is free from error, choose option E as your answer. All applicants who wish to (A)/ apply for the scholarship (B)/ must submitted their documents (C)/ before the end of this month (D). A) A  B) B  C) C  D) D  E) No Error 
Explanation:	Answer: C Part (C) is incorrect. (A) All applicants who wish to: Correct "Who wish to" correctly modifies the plural noun applicants, so the plural verb wish is appropriate. (B) apply for the scholarship: Correct "Wish to apply" is the correct verb pattern. (C) must submitted their documents: Incorrect After a modal verb like must, we use the base form (V1) of the verb, not the past participle (V3). Therefore, submitted should be submit. (D) before the end of this month: Correct This is a correct time expression indicating the deadline.

Q. 19

In each of the following questions, a highlighted word is given and used in the three statements. You have to identify in which of the following statements the word is correctly used, and mark it as your answer. If all sentences are correct, choose option E as your answer.

DISCERN

1. The sudden power failure made it easy to discern the entire building in complete darkness.

2. She tried to discern the noisy crowd by raising her voice above the chaos.

3. Even in the dim light, the detective could discern a faint footprint near the window.

A) Only 1 

B) Only 2 

C) Only 3 

D) Both 1 and 3 

E) All are correct 

Answer: C

Explanation:

Sentence 1: Incorrect. “**Discern**” means to perceive, recognise, or make out something that is not immediately obvious. Saying that the power failure “**made it easy to discern**” the entire building in “**complete darkness**” is logically contradictory, as darkness would make the building difficult to perceive rather than easy to discern. A phrase such as “**made it difficult to discern**” would be more appropriate.

Sentence 2: Incorrect. One does not “discern a crowd by raising one’s voice.” “**Discern**” is about perception or distinction, not about making oneself heard. A word like “overcome” or “rise above” would fit better.

Sentence 3: Correct. Here “**discern**” is used properly to mean recognising or making out a faint footprint that is not easily visible.

So, third sentence uses **discern** in a grammatically correct and contextually meaningful manner.

Therefore, option C) Only 3 is the correct choice.

Q. 20	In each of the following questions, a highlighted word is given and used in the three statements. You have to identify in which of the following statements the word is correctly used, and mark it as your answer. If all sentences are correct, choose option E as your answer. RESUMPTION 1. The resumption of diplomatic negotiations after months of silence raised hopes for a lasting agreement. 2. Following the power outage, the resumption of train services was delayed by several hours. 3. The board approved the resumption of the suspended project once the necessary funds were secured. A) Only 1  B) Only 2  C) Only 3  D) Both 2 and 3  E) All are correct 
Explanation:	Answer: E Sentence 1: The word “resumption” is correctly used to mean the restarting of diplomatic talks after an interruption. Sentence 2: The word “resumption” is correctly used to indicate the restarting of train services after a disruption. Sentence 3: The word “resumption” is correctly used to refer to the restarting of a previously suspended project. So, all sentences use resumption in a grammatically correct and contextually meaningful manner. Therefore, option E) All are correct is the correct choice.

Q. 21

In each of the following questions, a highlighted word is given and used in the three statements. You have to identify in which of the following statements the word is correctly used, and mark it as your answer. If all sentences are correct, choose option E as your answer.

ARTICULATE

1. The spokesperson was able to articulate the company's vision with remarkable clarity during the press conference.
2. The sudden articulate of the machinery caused the entire production line to halt unexpectedly.
3. She is an articulate speaker who presents complex ideas in a manner that is easy to follow.

A) Only 1 B) Only 2 C) Only 3 D) Both 1 and 3 E) All are correct **Explanation:****Answer: D**

Sentence 1: The word "**articulate**" is correctly used as a verb meaning to express clearly and effectively.

Sentence 2: The word "**articulate**" is incorrect. It does not refer to a sudden stoppage or breakdown of machinery. A word like "breakdown" or "failure" would be appropriate here.

Sentence 3: The word "**articulate**" is correctly used as an adjective to describe a person who expresses thoughts fluently and clearly.

So, first and third sentence use **articulate** in a grammatically correct and contextually meaningful manner.

Therefore, option D) Both 1 and 3 is the correct choice.

Q. 22

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

At what age did Malala Yousafzai become the youngest Nobel Peace Prize laureate in history?

- A) She was fifteen when she received the Nobel Peace Prize for her education campaign. 
- B) She became the youngest laureate at thirteen, soon after surviving the Taliban attack. 
- C) She received the Nobel Prize at sixteen, after launching her global education campaign. 
- D) She became the youngest Nobel Peace Prize laureate at the age of seventeen. 

E) She was awarded the Nobel Prize at eighteen, after a decade of global advocacy work.

Answer: D

Explanation:

- a) Incorrect. Fifteen was the age she was shot by the Taliban - not when she received the Nobel Prize.
- b) Incorrect. Thirteen is not mentioned in the passage. She was shot at fifteen and became a laureate at seventeen.
- c) Incorrect. Sixteen is not the age cited. The passage specifically states she became the youngest Nobel laureate at seventeen.
- d) Correct. The passage directly states: 'becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.'
- e) Incorrect. Eighteen is not the age cited. Seventeen is the specific age given in the passage.

Q. 23

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

What was the Cockroach Janta Party and what did it ultimately achieve?

- A) It was a registered political party that contested elections against the ruling government in India.** 
- B) It was a student union in Delhi that filed a legal petition against examination paper leaks nationally.** 
- C) It was a comedy show that mocked politicians and eventually led to parliamentary debates on education.** 
- D) It was an environmental campaign that forced the government to address climate change policy gaps.** 

E) It was a satirical social media movement against paper leaks that led to the Education Minister's resignation.

Answer: E

Explanation:

a) Incorrect. The Cockroach Janta Party was a social media page - not a registered political party contesting elections.

b) Incorrect. Filing a legal petition is not what the movement did. It was a leaderless social media campaign - not a legal action by a student union.

c) Incorrect. The Cockroach Janta Party was not a comedy show. It was a satirical social media page that became a nationwide protest movement.

d) Incorrect. The movement was against examination paper leaks - not climate change. Environmental concerns belong to Greta Thunberg's story in the passage.

e) Correct. The passage states it was a satirical social media page that grew into a nationwide movement against paper leaks, ending with the resignation of India's Union Education Minister

Q. 24

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

According to the passage, which of the following challenges does India's youth face?

- A) Lack of access to higher education due to inadequate university seats across all Indian states. ✗
- B) Absence of any digital infrastructure that could help young people connect and organise nationally. ✗
- C) A job market reshaped by AI, rote-focused exams, an inherited climate crisis, and monetised anxiety. ✓
- D) Discrimination from older generations who refuse to allow young people into corporate leadership. ✗

E) Excessive government control over social media that prevents youth from expressing their opinions.

Answer: C

Explanation:

- a) Incorrect. Inadequate university seats are not mentioned as a challenge in the passage. The challenges cited are structural and systemic - AI disruption, rote exams, climate, and digital anxiety.
- b) Incorrect. The passage actually describes India's youth as active digital participants - the Cockroach Janta Party grew on social media. Absence of digital infrastructure is contradicted by the passage.
- c) Correct. The passage directly lists: 'a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety.'
- d) Incorrect. Discrimination by older generations in corporate settings is not cited among the challenges the passage identifies.
- e) Incorrect. Government control over social media is not a challenge the passage mentions. The movement spread freely on social media, suggesting no such restriction is discussed.

Q. 25

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

The passage says India's youth are 'the authors of the national conversation.' What does this mean?

- A) Indian youth dominate journalism and control which stories the mainstream media chooses to publish. 
- B) Young Indians are increasingly shaping and leading public discourse rather than just participating in it. 
- C) India's youth write more books and articles than any other age group in the country currently. 
- D) Young people have been officially given decision-making roles in government policy committees. 

E) Indian youth set the agenda for international organisations like the UN through their activism globally.

Answer: B

Explanation:

a) Incorrect. Dominating journalism and controlling media is a literal reading - the phrase is metaphorical. 'Authors of the national conversation' means they shape public discourse - not that they control media organisations.

b) Correct. 'Authors of the national conversation' is a metaphor meaning young Indians are increasingly the initiators and drivers of public debate - not passive observers. The Cockroach Janta Party is a direct example of this.

c) Incorrect. Literal book and article authorship is not what the phrase means. It is a metaphor about shaping discourse - not about publishing output.

d) Incorrect. Official government policy committee roles for youth are not mentioned in the passage. The influence described is cultural and social - not formal institutional.

e) Incorrect. Setting the UN agenda globally is not what the phrase means in context. The phrase refers to the domestic national conversation - not international organisations.

Q. 26

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

What does the passage say the Cockroach Janta Party's name was in response to?

- A) It was a defiant rejoinder to a jibe that dismissed India's youth as parasites. 
- B) It mocked politicians who compared youth protesters to insects during rally speeches. 
- C) It was inspired by a famous satirical cockroach character in Indian political literature. 
- D) It responded to a government advertisement that used the cockroach as a pest metaphor. 

E) It was named after a derogatory term used by a minister for student activists online.

Answer: A

Explanation:

- a) Correct. The passage directly states: 'its name a defiant rejoinder to a jibe dismissing the country's youth as parasites.' The name reclaimed a dismissive insult and turned it into a symbol of resistance.
- b) Incorrect. Politicians comparing youth to insects in rally speeches is not cited. The passage says the jibe dismissed youth as parasites - not cockroaches specifically in speeches.
- c) Incorrect. A famous satirical cockroach character in Indian literature is not the origin cited in the passage.
- d) Incorrect. A government advertisement using a cockroach metaphor is not mentioned. The name responded to a jibe - not an official advertisement.
- e) Incorrect. A derogatory term used specifically by a minister online is not the precise explanation. The passage says it responded to a jibe dismissing youth as parasites - no specific minister is named for the naming origin.

Q. 27

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

According to the passage, what lesson do Malala, Greta, and the Cockroach Janta Party collectively teach?

- A) International fame and global recognition are necessary for youth movements to create lasting change. 
- B) Young people should rely on older mentors and institutions to achieve meaningful social transformation. 
- C) Social media is the most powerful tool available to youth activists working for political change today. 
- D) One should organise rather than despair, question while building, and treat setbacks as data not verdicts. 

E) Only youth movements that avoid violence and disruption can earn the respect of democratic governments.

Explanation:

Answer: D

- a) Incorrect. The passage does not say international fame is necessary. The Cockroach Janta Party was leaderless and domestic - not internationally recognised.
- b) Incorrect. The passage explicitly says institutions owe youth seriousness - not that youth should rely on institutions. The examples show self-directed, independent action.
- c) Incorrect. Social media is one tool used - but the lesson is broader. The passage identifies a mindset - organise, question, treat setbacks as data - not a specific tool.
- d) Correct. The passage directly states: 'organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts' - describing what all three examples instinctively understood.
- e) Incorrect. Non-violence as a prerequisite for respect is not the lesson drawn. The Cockroach Janta Party's disruptive social media tactics are presented approvingly - not with caveats about avoiding disruption.

Q. 28

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

Choose the word most similar in meaning to 'ABERRATIONS' as used in the passage?

A) Events that are well-planned and systematically organised by established social institutions

B) Incidents that are internationally recognised and celebrated by global human rights bodies

C) Occurrences that are frequent, predictable, and expected in any competitive democratic society

D) Movements that are financially supported by governments to promote youth civic engagement

E) Deviations from the norm; unusual or exceptional occurrences not representative of a pattern

Explanation:

Answer: E

- a) Incorrect. Planned and institutionally organised events are the opposite of aberrations. An aberration is unexpected and unusual - not systematically planned.
- b) Incorrect. International recognition has nothing to do with the meaning of aberration. An aberration refers to deviation from normal - not to recognition status.
- c) Incorrect. Frequent and predictable events are the opposite of aberrations. By definition, an aberration is uncommon and deviates from expected patterns.
- d) Incorrect. Government-funded movements are not what aberrations mean. Aberration refers to deviation from the norm - not funding source.
- e) Correct. 'Aberrations' means deviations from what is expected or normal - unusual exceptions. The author says these youth movements 'are not aberrations' - meaning they are not one-off exceptions but part of a real pattern of young people driving change.

Q. 29

Read the following passage carefully and answer the questions that follow:

Every year on August 12, the world pauses to mark International Youth Day, and this year's UN theme, "Different Contexts, Common Aspirations," could not be more apt. From the Swedish schoolgirl's solitary protest to the dusty protest grounds of Jantar Mantar, young people keep proving that age is no barrier to conscience, and conscience, once lit, becomes a torch that others follow. Consider Malala Yousafzai. Shot by the Taliban at fifteen for daring to demand an education, she turned near-death into a global campaign, becoming, at seventeen, the youngest Nobel Peace Prize laureate in history.

More than a decade on, she still travels the world to education forums, insisting that a girl's right to a classroom is non-negotiable, whatever her country or circumstance. Then you have another torchbearer, Greta Thunberg, who at fifteen sat alone outside the Swedish parliament with a hand-painted sign, and within a year had inspired millions of students worldwide to walk out of classrooms under the banner of Fridays for Future, forcing climate change onto the agenda of governments that had long treated it as tomorrow's problem.

India needs no borrowed examples. This July, a satirical social media page named the Cockroach Janta Party, its name a defiant rejoinder to a jibe dismissing the country's youth as parasites, grew within weeks into a nationwide movement against examination paper leaks that had shaken millions of students' faith in fairness. It ended with the resignation of India's Union Education Minister, a rare instance of a **leaderless** youth movement altering the calculus of the world's largest democracy. These are not **aberrations**. With nearly two-thirds of Indians under thirty-five, and roughly one in five of the world's under-25 population living here, India's youth are not a demographic statistic waiting to be harvested. They are increasingly the authors of the national conversation, and a growing presence well beyond it too, building start-ups, staffing research labs, and filling classrooms and boardrooms. Yet the environment they must navigate is unforgiving: a job market reshaped overnight by automation and AI, examinations that too often reward rote memory over reasoning, a climate crisis they did not create but must inherit, and a digital world that monetises their anxiety as readily as their attention.

Mental health strain among the young, in India and abroad, is no longer a private matter but a public one. Coping with this is not about grim endurance. It is what Malala, Greta and the Cockroach Janta Party all understood instinctively: organise instead of despairing, question loudly but build carefully, and treat setbacks as data, not verdicts. Institutions, schools, employers, governments, owe young people the same seriousness they demand of them. Torchbearers do not merely carry light; they choose where to walk.

Choose the word most similar in meaning to 'LEADERLESS' as used in the passage?

- A) A movement that is illegal and therefore lacks any official governmental or institutional recognition 
- B) A movement that has failed to attract any prominent public figures or celebrities to its cause 
- C) A movement with no single identified head or commander, driven collectively by many participants 
- D) A movement that operates without any formal funding, relying entirely on volunteer participation 

E) A movement that was started anonymously online and has never been traced to its original creators

Explanation:

Answer: C

- a) Incorrect. Illegal status and lack of recognition are not what leaderless means. A leaderless movement can be entirely legal - the word refers to its internal structure, not its legal standing.
- b) Incorrect. Absence of celebrities or public figures is not what leaderless means. A movement can have celebrity support and still be leaderless in its internal organisation.
- c) Correct. 'Leaderless' means having no single designated leader or commander at its head - the group collectively drives the movement without a central authoritative figure giving direction. The Cockroach Janta Party had no identified leader yet changed national politics.
- d) Incorrect. Absence of formal funding describes a movement's financial model - not its leadership structure. Leaderless refers to governance and direction - not resource sourcing.
- e) Incorrect. Anonymous online origins and untraceability describe secrecy - not the absence of leadership. A leaderless movement may be fully public and traceable - it simply has no single leader.

Q. 30	In the following question, a sentence is given with a blank. Below each sentence, five phrasal verbs are given as options (A), (B), (C), (D) and (E). Choose the phrasal verb that fits the blank most appropriately in terms of meaning and grammatical correctness and mark the correct option as your answer. Ravi promised his mother that he would _____ smoking after his doctor advised him to improve his health. A) give up  B) give in  C) give out  D) give away  E) give off 
Explanation:	Answer: A A. give up - Give up - to stop doing something, especially a habit. 'Give up smoking' is one of the most common and natural collocations in everyday English. Fits the context perfectly. B. give in - Give in - to surrender or yield to pressure. ('She finally gave in to their demands.') Means to stop resisting, not to quit a habit. C. give out - Give out - to distribute, or to stop functioning. ('The engine gave out on the highway.') Cannot mean to quit a habit like smoking. D. give away - Give away - to donate or reveal something. ('He gave away all his old books.') Refers to distributing or disclosing, not quitting a habit. E. give off - Give off - to emit or release something such as heat, light, or smell. ('The fire gave off thick smoke.') Relates to emission, not to stopping a habit.

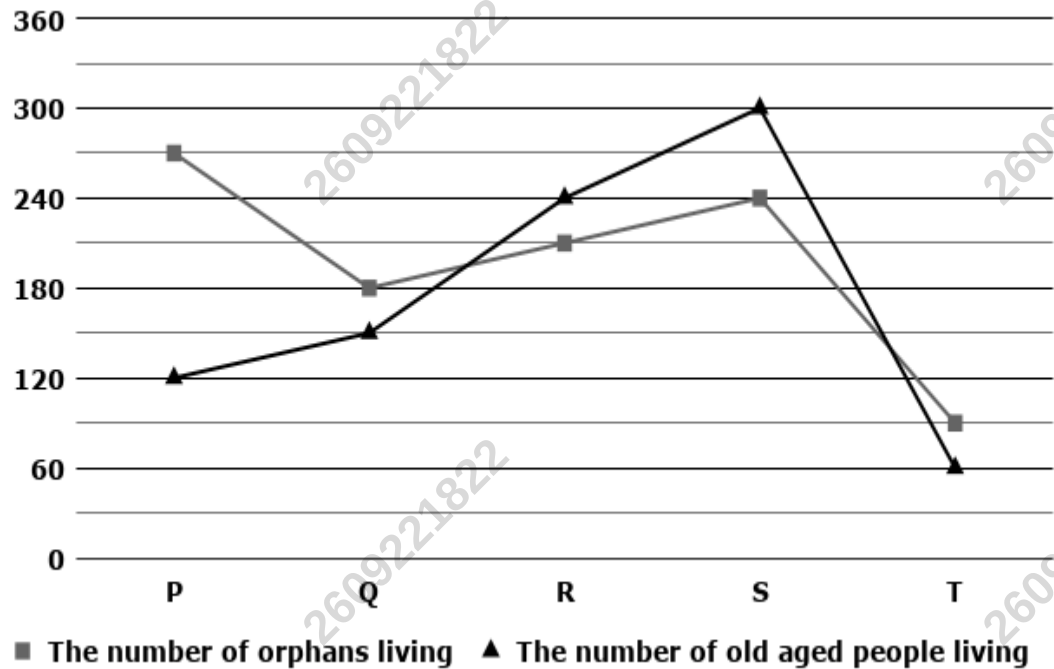

Numerical Ability

Q. 31

Study the following information carefully and answer the following questions.

The given line graph shows the total number of orphan people in five different homes namely P, Q, R, S and T respectively and also the total number of old-aged people living in these five different homes.

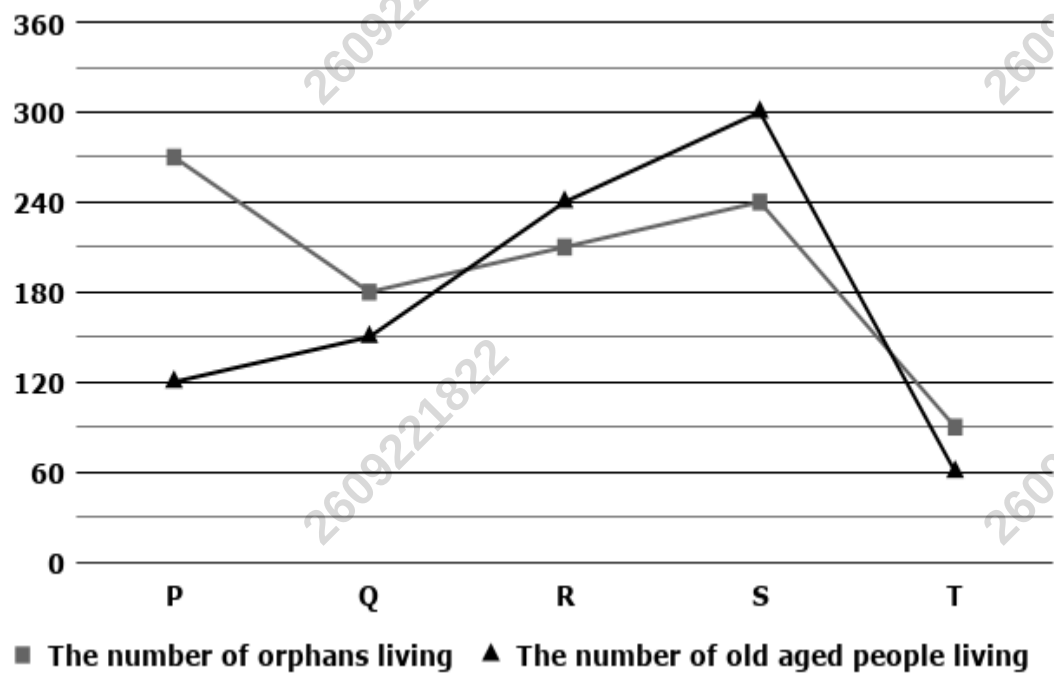

Note: The total number of people living in each home = The number of orphan people living in each home + The number of old-aged people living in each home.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया लाइन ग्राफ पाँच अलग-अलग घर P, Q, R, S और T में रहने वाले अनाथ लोगों की कुल संख्या तथा इन पाँचों घर में रहने वाले वृद्ध लोगों की कुल संख्या को दर्शाता है ।

नोट: प्रत्येक घर में रहने वाले लोगों की कुल संख्या = प्रत्येक घर में रहने वाले अनाथ लोगों की संख्या + प्रत्येक घर में रहने वाले वृद्ध लोगों की संख्या ।

The number of orphan people living in Home U is thrice that in Home T and the sum of the number of old-aged people living in Homes U and S together is 420. Find the total number of people living in Home U.

घर U में रहने वाले अनाथ लोगों की संख्या, घर T में रहने वाले अनाथ लोगों की संख्या की तीन गुनी है तथा एकसाथ घर U और S में रहने वाले वृद्ध लोगों की संख्या का योग 420 है। घर U में रहने वाले लोगों की कुल संख्या ज्ञात कीजिए।

- A) 330 330 ✗
- B) 420 420 ✗
- C) 390 390 ✓
- D) 360 360 ✗
- E) 300 300 ✗

Homes	The number of orphan people living	The number of old-aged people living	The total number of people living
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

Answer: C

The number of orphans living in Home U = $90 \times 3 = 270$

The number of old-aged people living in Home U = $420 - 300 = 120$

Required sum = $(270 + 120) = 390$

Hence, the correct answer is option C

Explanation:

घर	रहने वाले अनाथ लोगों की संख्या	रहने वाले वृद्ध लोगों की संख्या	रहने वाले लोगों की कुल संख्या
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

उत्तर: C

घर U में रहने वाले अनाथ लोगों की संख्या = $90 \times 3 = 270$

घर U में रहने वाले वृद्ध लोगों की संख्या = $420 - 300 = 120$

आवश्यक योग = $(270 + 120) = 390$

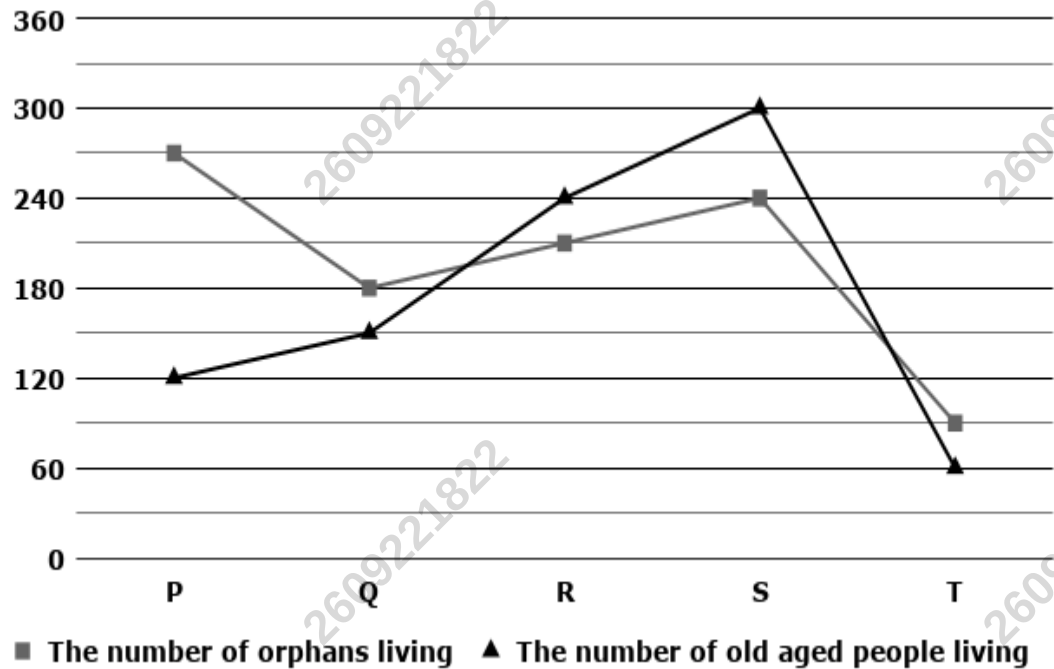

अतः सही उत्तर विकल्प C है।

Q. 32

Study the following information carefully and answer the following questions.

The given line graph shows the total number of orphan people in five different homes namely P, Q, R, S and T respectively and also the total number of old-aged people living in these five different homes.

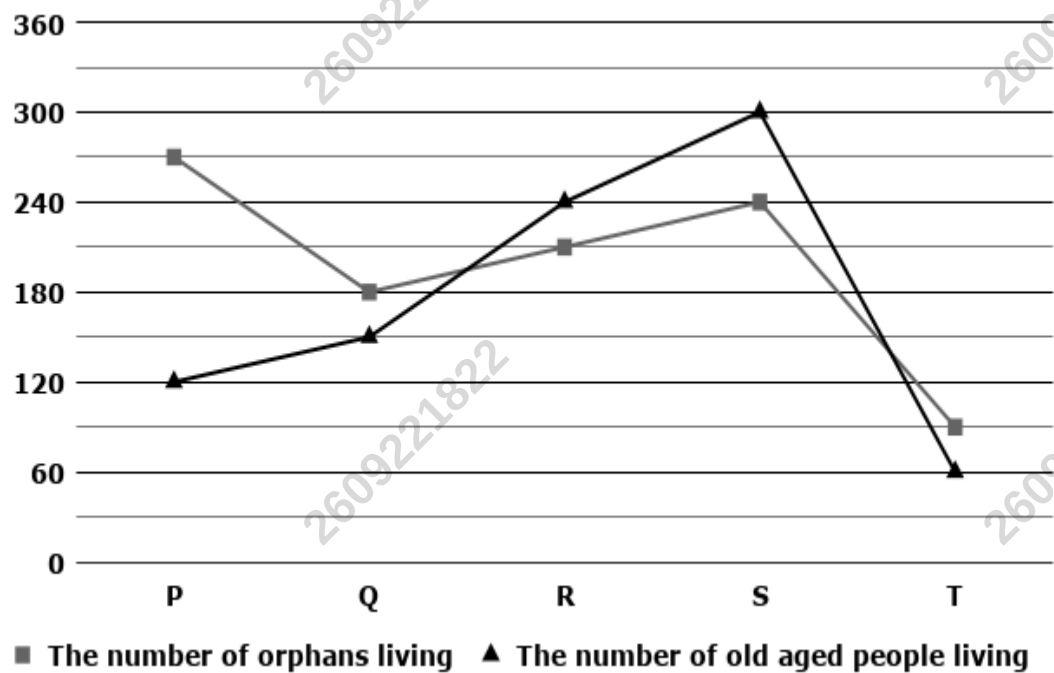

Note: The total number of people living in each home = The number of orphan people living in each home + The number of old-aged people living in each home.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया लाइन ग्राफ पाँच अलग-अलग घर P, Q, R, S और T में रहने वाले अनाथ लोगों की कुल संख्या तथा इन पाँचों घर में रहने वाले वृद्ध लोगों की कुल संख्या को दर्शाता है ।

नोट: प्रत्येक घर में रहने वाले लोगों की कुल संख्या = प्रत्येक घर में रहने वाले अनाथ लोगों की संख्या + प्रत्येक घर में रहने वाले वृद्ध लोगों की संख्या ।

Find the ratio of the sum of the number of orphan people living in Homes Q and R together to the number of old-aged people living in Home R.

एकसाथ घर Q और R में रहने वाले अनाथ लोगों की संख्या के योग से, घर R में रहने वाले वृद्ध लोगों की संख्या का अनुपात ज्ञात कीजिए।

A) 11: 8 11: 8 ✗

B) 12: 13 12: 13 ✗

C) 13: 8 13: 8 ✓

D) 9: 7 9: 7 ✗

E) 4: 5 4: 5 ✗

Homes	The number of orphan people living	The number of old-aged people living	The total number of people living
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

Answer: C

The sum of the number of orphan people living in Homes Q and R together = $(180 + 210) = 390$

The number of old-aged people living in Home R = 240

Required ratio = $390 : 240 = 13 : 8$

Explanation:

Hence, the correct answer is option C

घर	रहने वाले अनाथ लोगों की संख्या	रहने वाले वृद्ध लोगों की संख्या	रहने वाले लोगों की कुल संख्या
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

उत्तर: C

घर Q और R में रहने वाले अनाथ लोगों की संख्या का योग = $(180 + 210) = 390$

घर R में रहने वाले वृद्ध लोगों की संख्या = 240

आवश्यक अनुपात = $390 : 240 = 13 : 8$

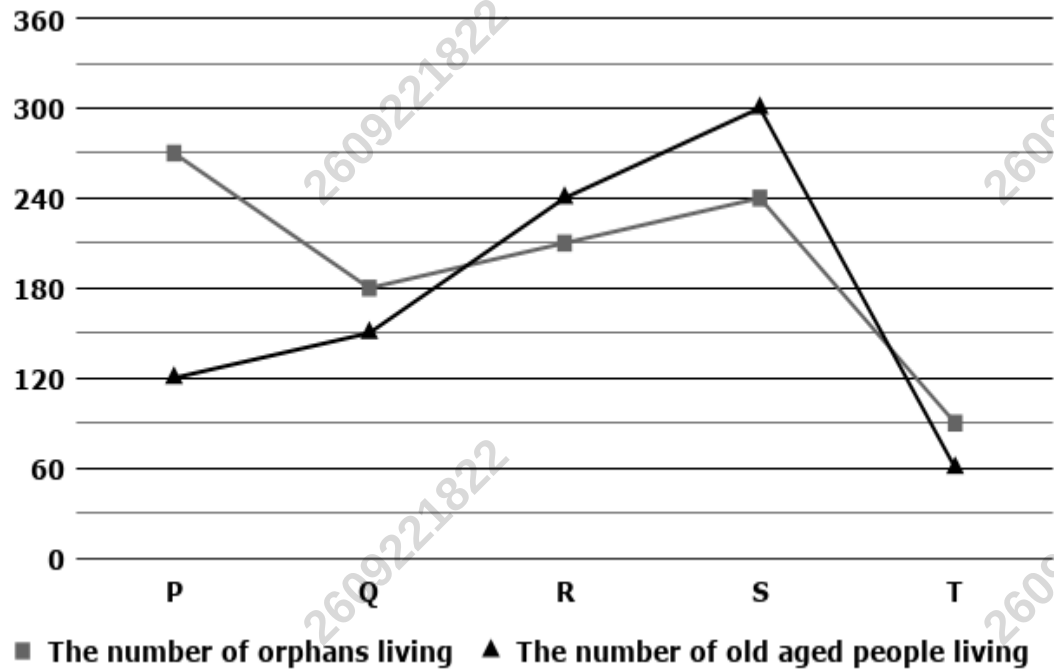

अतः सही उत्तर विकल्प C है।

Q. 33

Study the following information carefully and answer the following questions.

The given line graph shows the total number of orphan people in five different homes namely P, Q, R, S and T respectively and also the total number of old-aged people living in these five different homes.

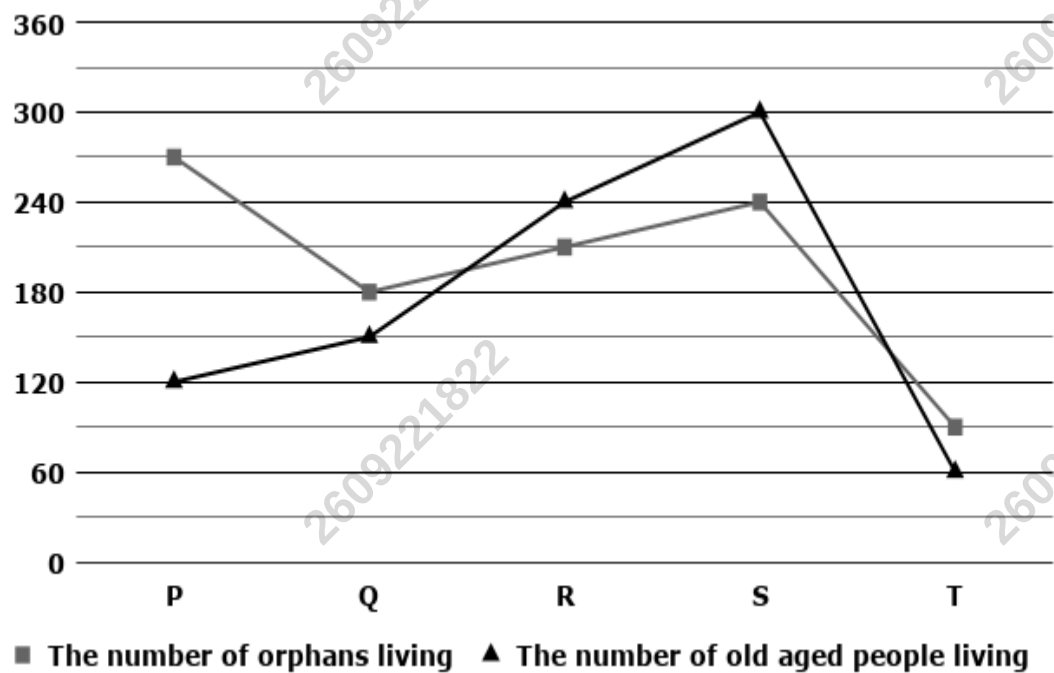

Note: The total number of people living in each home = The number of orphan people living in each home + The number of old-aged people living in each home.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया लाइन ग्राफ पाँच अलग-अलग घर P, Q, R, S और T में रहने वाले अनाथ लोगों की कुल संख्या तथा इन पाँचों घर में रहने वाले वृद्ध लोगों की कुल संख्या को दर्शाता है ।

नोट: प्रत्येक घर में रहने वाले लोगों की कुल संख्या = प्रत्येक घर में रहने वाले अनाथ लोगों की संख्या + प्रत्येक घर में रहने वाले वृद्ध लोगों की संख्या ।

Out of the total number of orphan people living in Home S, $\frac{3}{8}$ th are boys, and the remaining orphan people are girls. Find the number of orphan girls living in Home S.

घर S में रहने वाले कुल अनाथ लोगों में से $\frac{3}{8}$ लड़के हैं और शेष अनाथ लोग लड़कियाँ हैं। घर S में रहने वाली अनाथ लड़कियों की संख्या ज्ञात कीजिए।

A) 150 150 ✓

B) 90 90 ✗

C) 120 120 ✗

D) 60 60 ✗

E) 180 180 ✗

Homes	The number of orphan people living	The number of old-aged people living	The total number of people living
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

Answer: A

The number of orphan girls living in Home S = $240 \times \frac{5}{8} = 150$

Explanation:

Hence, the correct answer is option A

घर	रहने वाले अनाथ लोगों की संख्या	रहने वाले वृद्ध लोगों की संख्या	रहने वाले लोगों की कुल संख्या
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

उत्तर: A

घर S में रहने वाली अनाथ लड़कियों की संख्या = $240 \times \frac{5}{8} = 150$

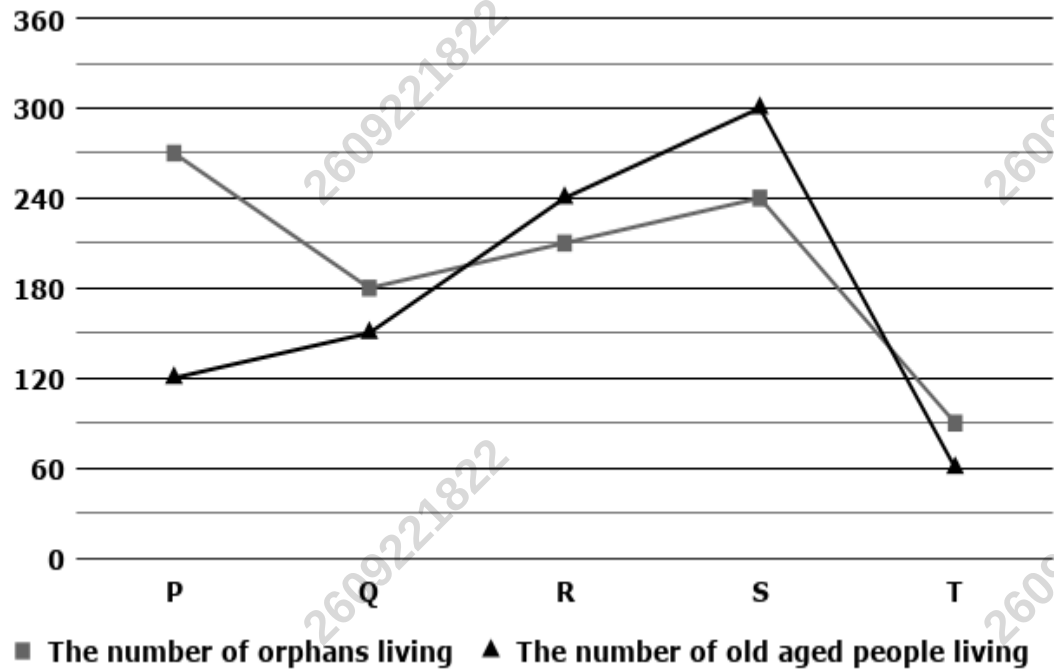

अतः सही उत्तर विकल्प A है।

Q. 34

Study the following information carefully and answer the following questions.

The given line graph shows the total number of orphan people in five different homes namely P, Q, R, S and T respectively and also the total number of old-aged people living in these five different homes.

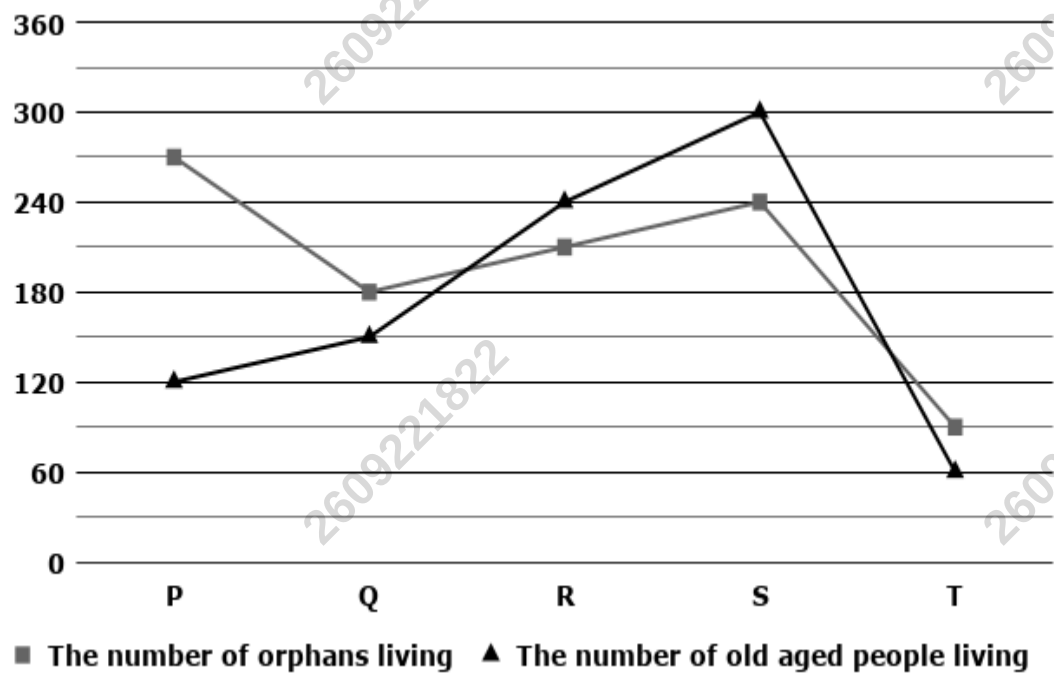

Note: The total number of people living in each home = The number of orphan people living in each home + The number of old-aged people living in each home.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया लाइन ग्राफ पाँच अलग-अलग घर P, Q, R, S और T में रहने वाले अनाथ लोगों की कुल संख्या तथा इन पाँचों घर में रहने वाले वृद्ध लोगों की कुल संख्या को दर्शाता है ।

नोट: प्रत्येक घर में रहने वाले लोगों की कुल संख्या = प्रत्येक घर में रहने वाले अनाथ लोगों की संख्या + प्रत्येक घर में रहने वाले वृद्ध लोगों की संख्या ।

The number of orphan people living in Home P is what percentage of the number of old-aged people living in Home S?

घर P में रहने वाले अनाथ लोगों की संख्या, घर S में रहने वाले वृद्ध लोगों की संख्या का कितने प्रतिशत है?

- A) 80% 80% ✗
- B) 65% 65% ✗
- C) 90% 90% ✓
- D) 70% 70% ✗
- E) 40% 40% ✗

Homes	The number of orphan people living	The number of old-aged people living	The total number of people living
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

Answer: C

The number of orphan people living in Home P = 270

The number of old-aged people living in Home S = 300

Required percentage = $(270/300) \times 100 = 90\%$

Explanation:

Hence, the correct answer is option C

घर	रहने वाले अनाथ लोगों की संख्या	रहने वाले वृद्ध लोगों की संख्या	रहने वाले लोगों की कुल संख्या
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

उत्तर: C

घर P में रहने वाले अनाथ लोगों की संख्या = 270

घर S में रहने वाले वृद्ध लोगों की संख्या = 300

आवश्यक प्रतिशत = $(270/300) \times 100 = 90\%$

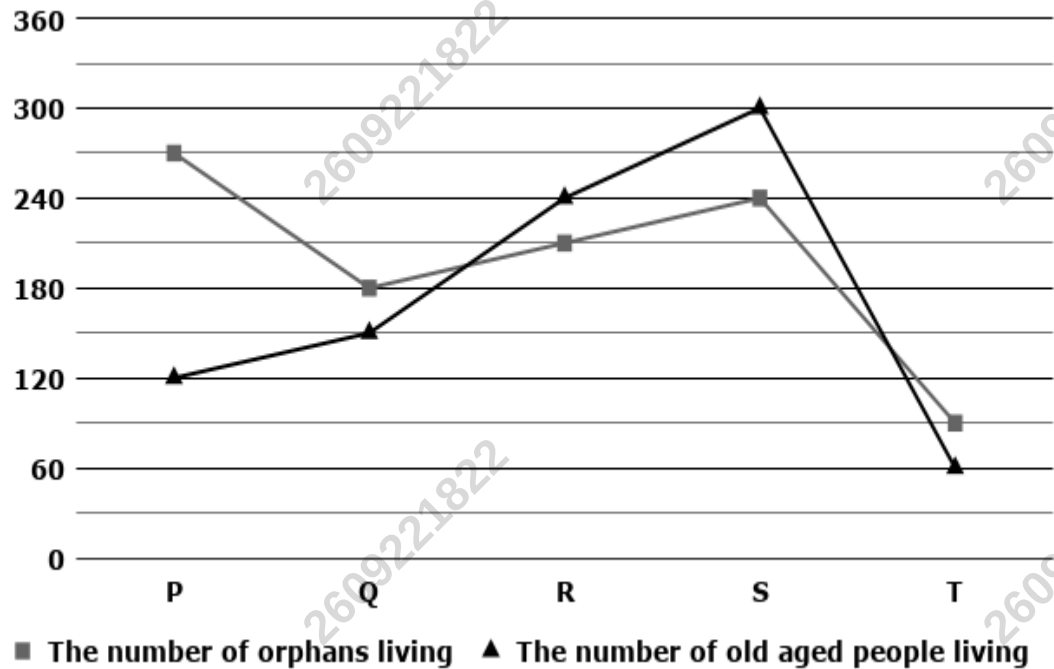

अतः सही उत्तर विकल्प C है।

Q. 35

Study the following information carefully and answer the following questions.

The given line graph shows the total number of orphan people in five different homes namely P, Q, R, S and T respectively and also the total number of old-aged people living in these five different homes.

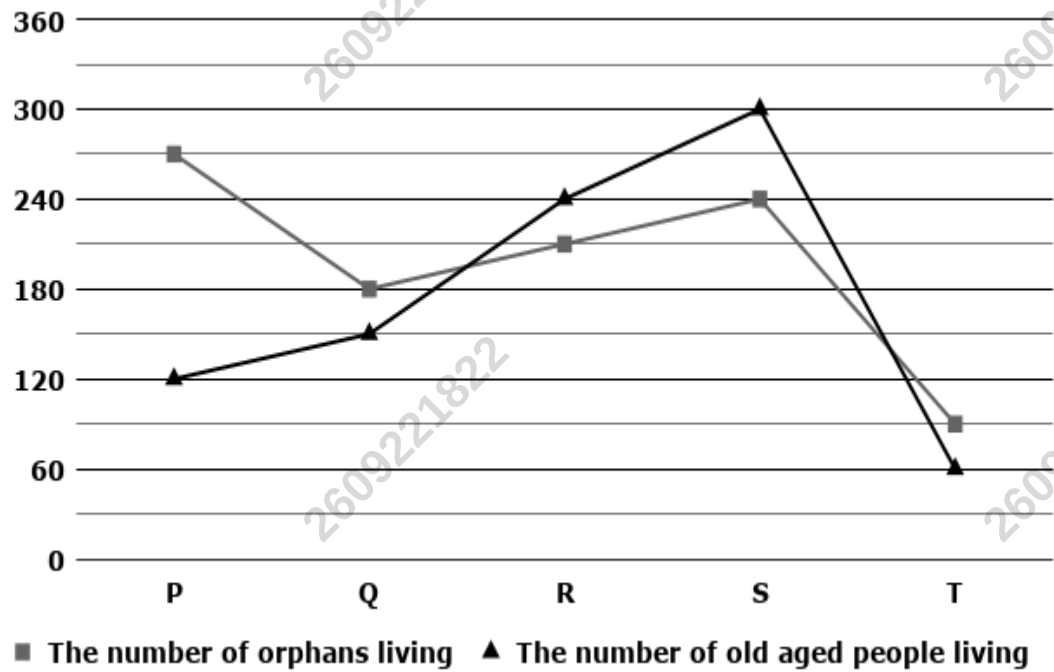

Note: The total number of people living in each home = The number of orphan people living in each home + The number of old-aged people living in each home.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया लाइन ग्राफ पाँच अलग-अलग घर P, Q, R, S और T में रहने वाले अनाथ लोगों की कुल संख्या तथा इन पाँचों घर में रहने वाले वृद्ध लोगों की कुल संख्या को दर्शाता है ।

नोट: प्रत्येक घर में रहने वाले लोगों की कुल संख्या = प्रत्येक घर में रहने वाले अनाथ लोगों की संख्या + प्रत्येक घर में रहने वाले वृद्ध लोगों की संख्या ।

Find the sum of the number of old-aged people living in Homes P, Q and R together.

एकसाथ घर P, Q और R में रहने वाले वृद्ध लोगों की संख्या का योग ज्ञात कीजिए।

- A) 480 480 ✗
- B) 510 510 ✓
- C) 400 400 ✗
- D) 550 550 ✗
- E) 280 280 ✗

Homes	The number of orphan people living	The number of old-aged people living	The total number of people living
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

Answer: B

The sum of the number of old-aged people living in Homes P, Q and R together = $(120 + 150 + 240) = 510$

Explanation:

Hence, the correct answer is option B

घर	रहने वाले अनाथ लोगों की संख्या	रहने वाले वृद्ध लोगों की संख्या	रहने वाले लोगों की कुल संख्या
P	270	120	390
Q	180	150	330
R	210	240	450
S	240	300	540
T	90	60	150

उत्तर: B

घर P, Q और R में रहने वाले वृद्ध लोगों की संख्या का योग = $(120 + 150 + 240) = 510$

अतः सही उत्तर विकल्प B है।

Q. 36

Mani and Rani entered into a business by investing Rs. 3200 and Rs. 4500, respectively, for 6 months and 'n' months, respectively. If the ratio of the profit share of Mani to Rani is 8: 15, then find the value of n.

मणि और रानी क्रमशः ₹3200 और ₹4500 , क्रमशः 6 महीने के लिए और 'n' महीनों के लिए निवेश करके एक व्यवसाय में शामिल हुए । यदि मणि से रानी के लाभ के हिस्से का अनुपात 8:15 है, तो n का मान ज्ञात कीजिए ।

A) 5 5 B) 8 8 C) 10 10 D) 4 4 E) 3 3 **Answer: B**

The ratio of the profit share of Mani to Rani = $(3200 \times 6) : (4500 \times n)$

 $= 192 : 45n$ $= 64 : 15n$ $64/15n = 8/15$ $64 = 8n$ $n = 8$

Hence, the correct answer is option B

Explanation:**उत्तर: B**

मणि से रानी के लाभ के हिस्से का अनुपात = $(3200 \times 6) : (4500 \times n)$

 $= 192 : 45n$ $= 64 : 15n$ $64/15n = 8/15$ $64 = 8n$ $n = 8$

अतः सही उत्तर विकल्प B है ।

Q. 37

The number of books sold in shop A is 30% more than that in shop B, and the number of books sold in shop C is 25% less than that in shop B. If the difference between the number of books sold in shops A and C is 55, then find the number of books sold in shop B.

दुकान A में बेची गई पुस्तकों की संख्या, दुकान B में बेची गई पुस्तकों की संख्या से 30% अधिक है और दुकान C में बेची गई पुस्तकों की संख्या, दुकान B में बेची गई पुस्तकों की संख्या से 25% कम है। यदि दुकान A और C में बेची गई पुस्तकों की संख्या के बीच का अंतर 55 है, तो दुकान B में बेची गई पुस्तकों की संख्या ज्ञात कीजिए।

A) 120 120 ✗

B) 80 80 ✗

C) 60 60 ✗

D) 100 100 ✓

E) 150 150 ✗

Answer: D

The ratio of the number of books sold in shops A, B and C = 130: 100: 75 = 26: 20: 15

Let, the number of books sold in shop A, shop B and shop C be 26x, 20x and 15x respectively.

$$26x - 15x = 55$$

$$11x = 55$$

$$x = 5$$

$$\text{The number of books sold in shop B} = 20 \times 5 = 100$$

Hence, the correct answer is option D

Explanation:**उत्तर: D**

दुकान A, B और C में बेची गई पुस्तकों की संख्या का अनुपात = 130: 100: 75 = 26: 20: 15

मान लीजिए, दुकान A, दुकान B और दुकान C में बेची गई पुस्तकों की संख्या क्रमशः 26x, 20x और 15x है।

$$26x - 15x = 55$$

$$11x = 55$$

$$x = 5$$

$$\text{दुकान B में बेची गई पुस्तकों की संख्या} = 20 \times 5 = 100$$

अतः सही उत्तर विकल्प D है।

Q. 38

Rs. 32000 is invested in simple interest at the rate of R% per annum for 2 years, then the interest received is Rs. 15360. Find the value of R.

₹32000 को R% प्रति वर्ष की दर से 2 वर्षों के लिए साधारण ब्याज पर निवेश किया जाता है, तो प्राप्त ब्याज ₹15360 है। R का मान ज्ञात कीजिए।

A) 28 28 ✗

B) 32 32 ✗

C) 30 30 ✗

D) 16 16 ✗

E) 24 24 ✓

Answer: E

$$SI = PNR/100$$

$$15360 = (32000 \times 2 \times R/100)$$

$$15360 = 640R$$

$$R = 24$$

Hence, the correct answer is option E

Explanation:

उत्तर: E

$$\text{साधारण ब्याज} = PNR/100$$

$$15360 = (32000 \times 2 \times R/100)$$

$$15360 = 640R$$

$$R = 24$$

अतः सही उत्तर विकल्प E है।

Q. 39

Two trains of equal length are running on parallel tracks in the same direction. The speeds of the faster train and slower train are 55 km/hr and x km/hr, respectively. The faster train passes the slower train in 36 seconds. If the length of each train is 200 metres, then find the value of x.

समान लंबाई वाली दो ट्रेनें समानांतर पटरियों पर एक ही दिशा में चल रही हैं। तेज ट्रेन और धीमी ट्रेन की गति क्रमशः 55 किमी/घंटा और x किमी/घंटा है। तेज ट्रेन धीमी ट्रेन को 36 सेकंड में पार करती है। यदि प्रत्येक ट्रेन की लंबाई 200 मीटर है, तो x का मान ज्ञात कीजिए।

A) 20 20 B) 25 25 C) 16 16 D) 10 10 E) 15 15 **Answer: E**Same direction means speed minus $D = S \times T \times 5/18$

$$D = (D_1 + D_2) = 200 + 200 = 400$$

$$400 = (55 - x) \times 36 \times 5/18$$

$$(55 - x) \times 10 = 400$$

$$55 - x = 40$$

$$x = 15$$

Hence, the correct answer is option E

Explanation:**उत्तर: E**एक ही दिशा का मतलब है गति माइनस $D = S \times T \times 5/18$

$$D = (D_1 + D_2) = 200 + 200 = 400$$

$$400 = (55 - x) \times 36 \times 5/18$$

$$(55 - x) \times 10 = 400$$

$$55 - x = 40$$

$$x = 15$$

अतः सही उत्तर विकल्प E है।

Q. 40

The marked price of the article is 10% more than that of the cost price. If the article is sold at a profit of 20% and sold for Rs. 43200, then find the marked price of the article.

किसी वस्तु का अंकित मूल्य उसके क्रय मूल्य से 10% अधिक है। यदि वस्तु को 20% के लाभ पर बेचा जाता है और उसका विक्रय मूल्य ₹43200 है, तो वस्तु का अंकित मूल्य ज्ञात कीजिए।

A) Rs. 39600 ₹ 39600 ✓

B) Rs. 42500 ₹ 42500 ✗

C) Rs. 28890 ₹ 28890 ✗

D) Rs. 41560 ₹ 41560 ✗

E) Rs. 43500 ₹ 43500 ✗

Answer: A

Let, the cost price of the article = Rs. $100x$

The marked price of the article = $100x \times 110/100 = \text{Rs. } 110x$

$100x \times 120/100 = 43200$

$120x = 43200$

$x = 360$

The marked price of the article = $110 \times 360 = \text{Rs. } 39600$

Hence, the correct answer is option A

Explanation:

उत्तर: A

मान लीजिए, वस्तु का क्रय मूल्य = ₹ $100x$

वस्तु का अंकित मूल्य = $100x \times 110/100 = ₹110x$

$100x \times 120/100 = 43200$

$120x = 43200$

$x = 360$

वस्तु का अंकित मूल्य = $110 \times 360 = ₹39600$

अतः सही उत्तर विकल्प A है।

Q. 41

The ratio of the length to breadth of the rectangle is 5:3 and the side of the square is $\frac{4}{5}$ of the breadth of the rectangle. If the perimeter of the square is 144 cm, then find the perimeter of the rectangle.

एक आयत की लंबाई से चौड़ाई का अनुपात 5:3 है तथा वर्ग की भुजा, आयत की चौड़ाई की $\frac{4}{5}$ है। यदि वर्ग का परिमाप 144 सेमी है, तो आयत का परिमाप ज्ञात कीजिए।

A) 180 cm 180 सेमी ✗

B) 240 cm 240 सेमी ✓

C) 200 cm 200 सेमी ✗

D) 250 cm 250 सेमी ✗

E) 160 cm 160 सेमी ✗

Answer: B

Perimeter of the square = $4a$

Perimeter of the rectangle = $2 * (l + b)$

The side of the square = $144/4 = 36$ cm

The breadth of the rectangle = $36 * \frac{5}{4} = 45$ cm

The length of the rectangle = $45 * \frac{5}{3} = 75$ cm

The perimeter of the rectangle = $2 * (75 + 45) = 2 * 120 = 240$ cm

Explanation:

उत्तर: B

वर्ग का परिमाप = $4a$

आयत का परिमाप = $2 * (l + b)$

वर्ग की भुजा = $144/4 = 36$ सेमी

आयत की चौड़ाई = $36 * \frac{5}{4} = 45$ सेमी

आयत की लंबाई = $45 * \frac{5}{3} = 75$ सेमी

आयत का परिमाप = $2 * (75 + 45) = 2 * 120 = 240$ सेमी

Q. 42

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$35\% \text{ of } 1200 - 17 * 8 = ?/3$$

$$1200 \text{ का } 35\% - 17 * 8 = ?/3$$

A) 712 712 

B) 852 852 

C) 890 890 

D) 425 425 

E) 615 615 

Answer: B

$$35\% \text{ of } 1200 - 17 * 8 = ?/3$$

$$420 - 136 = ?/3$$

$$284 * 3 = ?$$

$$? = 852$$

Hence, the correct answer is option B

Explanation:**उत्तर: B**

$$1200 \text{ का } 35\% - 17 * 8 = ?/3$$

$$420 - 136 = ?/3$$

$$284 * 3 = ?$$

$$? = 852$$

इसलिए, सही उत्तर विकल्प है B

Q. 43

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$25\% \text{ of } 300 + 16 * \frac{3}{8} - ? = 50$$

$$300 \text{ का } 25\% + 16 * \frac{3}{8} - ? = 50$$

A) 24 24 ✗

B) 31 31 ✓

C) 30 30 ✗

D) 26 26 ✗

E) 44 44 ✗

Answer: B

$$25\% \text{ of } 300 + 16 * \frac{3}{8} - ? = 50$$

$$75 + 6 - ? = 50$$

$$81 - ? = 50$$

$$? = 31$$

Hence, the correct answer is option B

Explanation:**उत्तर: B**

$$300 \text{ का } 25\% + 16 * \frac{3}{8} - ? = 50$$

$$75 + 6 - ? = 50$$

$$81 - ? = 50$$

$$? = 31$$

इसलिए, सही उत्तर विकल्प है B

Q. 44

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$6^2 - 31\% \text{ of } 200 + 19 * 2 = ?$$

$$6^2 - 200 \text{ का } 31\% + 19 * 2 = ?$$

A) 18 18 ✗

B) 9 9 ✗

C) 8 8 ✗

D) 12 12 ✓

E) 20 20 ✗

Answer: D

$$6^2 - 31\% \text{ of } 200 + 19 * 2 = ?$$

$$36 - 62 + 38 = ?$$

$$? = 12$$

Hence, the correct answer is option D

Explanation:**उत्तर: D**

$$6^2 - 200 \text{ का } 31\% + 19 * 2 = ?$$

$$36 - 62 + 38 = ?$$

$$? = 12$$

इसलिए, सही उत्तर विकल्प है D

Q. 45

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$82 * 7/2 - 15 * 4/5 = ?^2 + 50$$

$$82 * 7/2 - 15 * 4/5 = ?^2 + 50$$

A) 16 16 

B) 18 18 

C) 24 24 

D) 22 22 

E) 15 15 

Answer: E

$$82 * 7/2 - 15 * 4/5 = ?^2 + 50$$

$$41 * 7 - 3 * 4 = ?^2 + 50$$

$$287 - 12 = ?^2 + 50$$

$$275 - 50 = ?^2$$

$$?^2 = 225$$

$$? = 15$$

Hence, the correct answer is option E

Explanation:**उत्तर: E**

$$82 * 7/2 - 15 * 4/5 = ?^2 + 50$$

$$41 * 7 - 3 * 4 = ?^2 + 50$$

$$287 - 12 = ?^2 + 50$$

$$275 - 50 = ?^2$$

$$?^2 = 225$$

$$? = 15$$

इसलिए, सही उत्तर विकल्प है E

Q. 46

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$5^2 + 3^3 - 45 * 3 = ? - 60\% \text{ of } 800$$

$$5^2 + 3^3 - 45 * 3 = ? - 800 \text{ का } 60\%$$

A) 397 397 ✓

B) 425 425 ✗

C) 198 198 ✗

D) 202 202 ✗

E) 325 325 ✗

Answer: A

$$5^2 + 3^3 - 45 * 3 = ? - 60\% \text{ of } 800$$

$$25 + 27 - 135 = ? - 480$$

$$-83 + 480 = ?$$

$$? = 397$$

Hence, the correct answer is option A

Explanation:**उत्तर: A**

$$5^2 + 3^3 - 45 * 3 = ? - 800 \text{ का } 60\%$$

$$25 + 27 - 135 = ? - 480$$

$$-83 + 480 = ?$$

$$? = 397$$

इसलिए, सही उत्तर विकल्प है A

Q. 47

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$198 + 215 - 6^3 = ? * 3 - 103$$

$$198 + 215 - 6^3 = ? * 3 - 103$$

A) 80 80 

B) 65 65 

C) 100 100 

D) 113 113 

E) 78 78 

Answer: C

$$198 + 215 - 6^3 = ? * 3 - 103$$

$$198 + 215 - 216 = ? * 3 - 103$$

$$197 + 103 = ? * 3$$

$$? = 300/3$$

$$? = 100$$

Hence, the correct answer is option C

Explanation:**उत्तर: C**

$$198 + 215 - 6^3 = ? * 3 - 103$$

$$198 + 215 - 216 = ? * 3 - 103$$

$$197 + 103 = ? * 3$$

$$? = 300/3$$

$$? = 100$$

इसलिए, सही उत्तर विकल्प है C

Q. 48

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$62\% \text{ of } 1300 - 42\% \text{ of } 300 = ?^3 + 464$$

$$1300 \text{ का } 62\% - 300 \text{ का } 42\% = ?^3 + 464$$

A) 8 8 

B) 5 5 

C) 11 11 

D) 6 6 

E) 2 2 

Answer: D

$$62\% \text{ of } 1300 - 42\% \text{ of } 300 = ?^3 + 464$$

$$806 - 126 = ?^3 + 464$$

$$680 - 464 = ?^3$$

$$?^3 = 216$$

$$? = 6$$

Hence, the correct answer is option D

Explanation:**उत्तर: D**

$$1300 \text{ का } 62\% - 300 \text{ का } 42\% = ?^3 + 464$$

$$806 - 126 = ?^3 + 464$$

$$680 - 464 = ?^3$$

$$?^3 = 216$$

$$? = 6$$

इसलिए, सही उत्तर विकल्प है D

Q. 49

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$75\% \text{ of } 240 + ? - 17 * \frac{5}{34} * 300 = 210$$

$$240 \text{ का } 75\% + ? - 17 * \frac{5}{34} * 300 = 210$$

A) 680 680 

B) 720 720 

C) 1001 1001 

D) 560 560 

E) 780 780 

Answer: E

$$75\% \text{ of } 240 + ? - 17 * \frac{5}{34} * 300 = 210$$

$$180 + ? - 750 = 210$$

$$-570 + ? = 210$$

$$? = 780$$

Hence, the correct answer is option E

Explanation:**उत्तर: E**

$$240 \text{ का } 75\% + ? - 17 * \frac{5}{34} * 300 = 210$$

$$180 + ? - 750 = 210$$

$$-570 + ? = 210$$

$$? = 780$$

इसलिए, सही उत्तर विकल्प है E

Q. 50

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$54 * 3 - 12 * 8 + ? = 66\% \text{ of } 1200$$

$$54 * 3 - 12 * 8 + ? = 1200 \text{ का } 66\%$$

A) 856 856 ✗

B) 812 812 ✗

C) 726 726 ✓

D) 980 980 ✗

E) 345 345 ✗

Answer: C

$$54 * 3 - 12 * 8 + ? = 66\% \text{ of } 1200$$

$$162 - 96 + ? = 792$$

$$66 + ? = 792$$

$$? = 726$$

Hence, the correct answer is option C

Explanation:**उत्तर: C**

$$54 * 3 - 12 * 8 + ? = 1200 \text{ का } 66\%$$

$$162 - 96 + ? = 792$$

$$66 + ? = 792$$

$$? = 726$$

इसलिए, सही उत्तर विकल्प है C

Q. 51

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$44 * 3/4 + (256)^{1/2} * 3 = ? * 3$$

$$44 * 3/4 + (256)^{1/2} * 3 = ? * 3$$

A) 34 34 ✗

B) 27 27 ✓

C) 18 18 ✗

D) 32 32 ✗

E) 15 15 ✗

Answer: B

$$44 * 3/4 + (256)^{1/2} * 3 = ? * 3$$

$$11 * 3 + 16 * 3 = ? * 3$$

$$33 + 48 = ? * 3$$

$$81/3 = ?$$

$$? = 27$$

Hence, the correct answer is option B.

Explanation:**उत्तर: B**

$$44 * 3/4 + (256)^{1/2} * 3 = ? * 3$$

$$11 * 3 + 16 * 3 = ? * 3$$

$$33 + 48 = ? * 3$$

$$81/3 = ?$$

$$? = 27$$

इसलिए, सही उत्तर विकल्प है B.

Q. 52

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$(1225)^{1/2} - 30\% \text{ of } 500 = ? - 156$$

$$(1225)^{1/2} - 500 \text{ का } 30\% = ? - 156$$

A) 38 38 

B) 52 52 

C) 41 41 

D) 80 80 

E) 55 55 

Answer: C

$$(1225)^{1/2} - 30\% \text{ of } 500 = ? - 156$$

$$35 - 150 = ? - 156$$

$$? = 41$$

Hence, the correct answer is option C

Explanation:**उत्तर: C**

$$(1225)^{1/2} - 500 \text{ का } 30\% = ? - 156$$

$$35 - 150 = ? - 156$$

$$? = 41$$

इसलिए, सही उत्तर विकल्प है C

Q. 53

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$(180 + 120)/3 - 15\% \text{ of } 400 = ? - 5^3$$

$$(180 + 120)/3 - 400 \text{ का } 15\% = ? - 5^3$$

A) 215 215 ✗

B) 190 190 ✗

C) 155 155 ✗

D) 165 165 ✓

E) 200 200 ✗

Answer: D

$$(180 + 120)/3 - 15\% \text{ of } 400 = ? - 5^3$$

$$300/3 - 60 = ? - 125$$

$$100 - 60 = ? - 125$$

$$40 + 125 = ?$$

$$? = 165$$

Hence, the correct answer is option D

Explanation:**उत्तर: D**

$$(180 + 120)/3 - 400 \text{ का } 15\% = ? - 5^3$$

$$300/3 - 60 = ? - 125$$

$$100 - 60 = ? - 125$$

$$40 + 125 = ?$$

$$? = 165$$

इसलिए, सही उत्तर विकल्प है D

Q. 54

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$80\% \text{ of } 520 - 19 * 3 + ? = 65\% \text{ of } 200$$

$$520 \text{ का } 80\% - 19 * 3 + ? = 200 \text{ का } 65\%$$

A) -215 -215 ✗

B) -229 -229 ✓

C) -325 -325 ✗

D) -300 -300 ✗

E) -188 -188 ✗

Answer: B

$$80\% \text{ of } 520 - 19 * 3 + ? = 65\% \text{ of } 200$$

$$416 - 57 + ? = 130$$

$$359 + ? = 130$$

$$? = -229$$

Hence, the correct answer is option B

Explanation:**उत्तर: B**

$$520 \text{ का } 80\% - 19 * 3 + ? = 200 \text{ का } 65\%$$

$$416 - 57 + ? = 130$$

$$359 + ? = 130$$

$$? = -229$$

इसलिए, सही उत्तर विकल्प है B

Q. 55

What value should come in the place of (?) in the following questions.

निम्नलिखित प्रश्नों में (?) के स्थान पर क्या मान आना चाहिए।

$$14 * \frac{3}{7} - 17 * 2 + 60\% \text{ of } 600 = ?^3 + 324$$

$$14 * \frac{3}{7} - 17 * 2 + 600 \text{ का } 60\% = ?^3 + 324$$

A) 4 4 ✗

B) 2 2 ✓

C) 8 8 ✗

D) 3 3 ✗

E) 1 1 ✗

Answer: B

$$14 * \frac{3}{7} - 17 * 2 + 60\% \text{ of } 600 = ?^3 + 324$$

$$2 * 3 - 34 + 360 = ?^3 + 324$$

$$6 - 34 + 360 = ?^3 + 324$$

$$?^3 = 8$$

$$? = 2$$

Hence, the correct answer is option B

Explanation:**उत्तर: B**

$$14 * \frac{3}{7} - 17 * 2 + 600 \text{ का } 60\% = ?^3 + 324$$

$$2 * 3 - 34 + 360 = ?^3 + 324$$

$$6 - 34 + 360 = ?^3 + 324$$

$$?^3 = 8$$

$$? = 2$$

इसलिए, सही उत्तर विकल्प है B

Q. 56

350 litres of mixture contain milk and water in the ratio 4:3. If x litres of milk and 50 litres of water are added to the mixture, then the ratio of the quantity of milk to water becomes 3:2. Find the value of x.

350 लीटर मिश्रण में दूध और पानी का अनुपात 4:3 है। यदि मिश्रण में x लीटर दूध और 50 लीटर पानी मिलाया जाता है, तो दूध से पानी की मात्रा का अनुपात 3:2 हो जाता है। x का मान ज्ञात कीजिए।

A) 180 180 ✗

B) 200 200 ✗

C) 210 210 ✗

D) 100 100 ✓

E) 90 90 ✗

Answer: D

The quantity of milk in the mixture = $350 \times \frac{4}{7} = 200$ litres

The quantity of water in the mixture = $350 \times \frac{3}{7} = 150$ litres

$$(200 + x) / (150 + 50) = 3/2$$

$$400 + 2x = 600$$

$$2x = 200$$

$$x = 100$$

Hence, the correct answer is option D

Explanation:**उत्तर: D**

मिश्रण में दूध की मात्रा = $350 \times \frac{4}{7} = 200$ लीटर

मिश्रण में पानी की मात्रा = $350 \times \frac{3}{7} = 150$ लीटर

$$(200 + x) / (150 + 50) = 3/2$$

$$400 + 2x = 600$$

$$2x = 200$$

$$x = 100$$

अतः, सही उत्तर विकल्प D है।

Q. 57

The ratio of the present age of A to B is 7:2, and the sum of the age of A 5 years ago and B after 10 years is 95 years. If the present age of C is 20 years more than that of B, then find the present age of C.

A से B की वर्तमान आयु का अनुपात 7:2 है तथा 5 वर्ष पहले A की आयु और 10 वर्ष बाद B की आयु का योग 95 वर्ष है। यदि C की वर्तमान आयु, B की वर्तमान आयु से 20 वर्ष अधिक है, तो C की वर्तमान आयु ज्ञात कीजिए।

A) 35 years 35 वर्ष 

B) 45 years 45 वर्ष 

C) 40 years 40 वर्ष 

D) 20 years 20 वर्ष 

E) 70 years 70 वर्ष 

Answer: C

Let, the present age of A and B be $7x$ years and $2x$ years respectively.

$$7x - 5 + 2x + 10 = 95$$

$$9x + 5 = 95$$

$$9x = 90$$

$$x = 10$$

The present age of B = $2 \times 10 = 20$ years

The present age of C = $20 + 20 = 40$ years

Hence, the correct answer is option C

Explanation:

उत्तर: C

मान लीजिए, A और B की वर्तमान आयु क्रमशः $7x$ वर्ष और $2x$ वर्ष है।

$$7x - 5 + 2x + 10 = 95$$

$$9x + 5 = 95$$

$$9x = 90$$

$$x = 10$$

B की वर्तमान आयु = $2 \times 10 = 20$ वर्ष

C की वर्तमान आयु = $20 + 20 = 40$ वर्ष

अतः, सही उत्तर विकल्प C है।

Q. 58

A alone can complete 25% of a work in 4 days, while B alone can complete 50% of the same work in 2 days. In how many days A and B together can complete the work?

A अकेले किसी कार्य का 25%, 4 दिनों में पूरा कर सकता है, जबकि B अकेले उसी कार्य का 50%, 2 दिनों में पूरा कर सकता है। एकसाथ A और B पूरा कार्य कितने दिनों में पूरा कर सकते हैं?

A) 3.3 days 3.3 दिन ✗

B) 2.8 days 2.8 दिन ✗

C) 4.5 days 4.5 दिन ✗

D) 3.2 days 3.2 दिन ✓

E) 4 days 4 दिन ✗

Answer: D

The time taken by A alone to complete the work = $4 \times 4 = 16$ days

The time taken by B alone to complete the work = $2 \times 2 = 4$ days

$A + B = 1/16 + 1/4$

$= 5/16$

Required time taken = $16/5 = 3.2$ days

Hence, the correct answer is option D

Explanation:

उत्तर: D

A द्वारा अकेले पूरे कार्य को पूरा करने में लगने वाले समय = $4 \times 4 = 16$ दिन

B द्वारा अकेले पूरे कार्य को पूरा करने में लगने वाले समय = $2 \times 2 = 4$ दिन

$A + B$ की 1 दिन की कार्य-दर = $1/16 + 1/4 = 5/16$

आवश्यक समय = $16/5 = 3.2$ दिन

अतः, सही उत्तर विकल्प D है।

Q. 59

The speed of the boat in still water is 15 km/hr. If the time taken by the boat to travel 45 km downstream is 2.5 hours, then find the time taken by boat to travel 24 km upstream.

स्थिर जल में नाव की गति 15 किमी/घंटा है। यदि नाव को धारा के अनुकूल 45 किमी तय करने में 2.5 घंटे लगते हैं, तो नाव द्वारा धारा के प्रतिकूल 24 किमी तय करने में लिया गया समय ज्ञात कीजिये।

A) 6 hours 6 घंटे 

B) 2 hours 2 घंटे 

C) 11 hours 11 घंटे 

D) 3 hours 3 घंटे 

E) 9 hours 9 घंटे 

Answer: B

The speed of the boat in still water = 15 km/hr

Let, the speed of the stream = x km/hr

$$(15 + x) = 45/2.5$$

$$15 + x = 18$$

$$x = 3$$

The upstream speed of the boat = $(15 - 3) = 12$ km/hr

Required time taken = $24/12 = 2$ hours

Hence, the correct answer is option B

Explanation:

उत्तर: B

स्थिर जल में नाव की गति = 15 किमी/घंटा

मान लीजिए, धारा की गति = x किमी/घंटा

$$(15 + x) = 45/2.5$$

$$15 + x = 18$$

$$x = 3$$

धारा के प्रतिकूल नाव की गति = $(15 - 3) = 12$ किमी/घंटा

आवश्यक लिया गया समयसमय = $24/12 = 2$ घंटे

अतः, सही उत्तर विकल्प B है।

Q. 60

The average age of 25 students in a class is 15 years. If one student aged 10 years left the class and 8 new students joined the class, the average age of the class remains the same. Find the total age of the 8 new students.

एक कक्षा में 25 छात्रों की औसत आयु 15 वर्ष है। यदि 10 वर्ष की आयु वाला एक छात्र कक्षा छोड़ देता है और 8 नए छात्र कक्षा में शामिल होते हैं, तो कक्षा की औसत आयु समान रहती है। 8 नए छात्रों की कुल आयु ज्ञात कीजिए।

A) 115 years 115 वर्ष ✓

B) 98 years 98 वर्ष ✗

C) 108 years 108 वर्ष ✗

D) 86 years 86 वर्ष ✗

E) 56 years 56 वर्ष ✗

Answer: A

The total age of 25 students = $25 \times 15 = 375$ years

Age of 24 students after one student aged 10 years left = $375 - 10 = 365$ years

After 1 student left and 8 new students joined the class.

The total number of students in the class becomes 32 and the average age in the class remains the same i.e. 15 years.

Now, the total age of 32 students = $32 \times 15 = 480$ yrs

The total age of 8 new students = $480 - 365 = 115$ years

Hence, the correct answer is option A

Explanation:

उत्तर: A

25 छात्रों की कुल आयु = $25 \times 15 = 375$ वर्ष

10 वर्ष की आयु वाले एक छात्र के कक्षा छोड़ने के बाद 24 छात्रों की कुल आयु = $375 - 10 = 365$ वर्ष

1 छात्र के कक्षा छोड़ने और 8 नए छात्रों के कक्षा में शामिल होने के बाद कक्षा में छात्रों की कुल संख्या 32 हो जाती है और कक्षा की औसत आयु समान अर्थात 15 वर्ष रहती है।

अब, 32 छात्रों की कुल आयु = $32 \times 15 = 480$ वर्ष

8 नए छात्रों की कुल आयु = $480 - 365 = 115$ वर्ष

अतः, सही उत्तर विकल्प A है।

Q. 61

Study the following information carefully and answer the following questions.

The given table chart shows the total number of ice-creams sold in five different shops namely A, B, C, D and E respectively and also the difference between the number of vanilla and chocolate ice-creams sold in these five different shops.

Notes:

- i). The total number of ice-creams sold = The number of vanilla ice-creams sold + The number of chocolate ice-creams sold.
- ii). The number of vanilla ice-cream sold in each shop is more than the number of Chocolate ice-cream sold

Shops	The total number of ice-creams sold	The difference between the number of vanilla and chocolate ice-creams sold
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया तालिका चार्ट पाँच अलग-अलग दुकानों, अर्थात् A, B, C, D और E में बेची गई कुल आइसक्रीम की संख्या तथा इन पाँच अलग-अलग दुकानों में बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच का अंतर दर्शाता है ।

नोट:

- i). बेची गई आइसक्रीम की कुल संख्या = बेची गई वनीला आइसक्रीम की संख्या + बेची गई चॉकलेट आइसक्रीम की संख्या ।
- ii). प्रत्येक दुकान में बेची गई वनीला आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या से अधिक है ।

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच अंतर
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

The total number of ice-creams sold in shop D is 60% less than that in shop F. Find the number of ice-creams sold in shop F.

दुकान D में बेची गई आइसक्रीम की कुल संख्या, दुकान F में बेची गई आइसक्रीम की कुल संख्या से 60% कम है ।
दुकान F में बेची गई आइसक्रीम की संख्या ज्ञात कीजिए ।

- | | | | |
|----|-----|-----|---|
| A) | 380 | 380 | ✗ |
| B) | 420 | 420 | ✗ |
| C) | 400 | 400 | ✗ |
| D) | 550 | 550 | ✗ |
| E) | 600 | 600 | ✓ |

Explanation:**In shop A:**

The total number of ice-creams sold = 245

The number of vanilla ice-creams sold = $(245 + 55)/2 = 150$

The number of chocolate ice-creams sold = $(245 - 150) = 95$

In shop B:

The total number of ice-creams sold = 380

The number of vanilla ice-creams sold = $(380 + 120)/2 = 250$

The number of chocolate ice-creams sold = $(380 - 250) = 130$

In shop C:

The total number of ice-creams sold = 420

The number of vanilla ice-creams sold = $(420 + 60)/2 = 240$

The number of chocolate ice-creams sold = $(420 - 240) = 180$

In shop D:

The total number of ice-creams sold = 240

The number of vanilla ice-creams sold = $(240 + 80)/2 = 160$

The number of chocolate ice-creams sold = $(240 - 160) = 80$

In shop E:

The total number of ice-creams sold = 360

The number of vanilla ice-creams sold = $(360 + 100)/2 = 230$

The number of chocolate ice-creams sold = $(360 - 230) = 130$

Shops	The total number of ice-creams sold	The number of vanilla ice-creams sold	The number of chocolate ice-creams sold
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

Answer: E

The total number of ice-creams sold in shop D = $(40/100) \times$ The total number of ice-creams sold in shop F

$240 = (40/100) \times$ The total number of ice-creams sold in shop F

The total number of ice-creams sold in shop F = 600

Hence, the correct answer is option E

दुकान A में:

बेची गई आइसक्रीम की कुल संख्या = 245

बेची गई वनीला आइसक्रीम की संख्या = $(245 + 55)/2 = 150$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(245 - 150) = 95$

दुकान B में:

बेची गई आइसक्रीम की कुल संख्या = 380

बेची गई वनीला आइसक्रीम की संख्या = $(380 + 120)/2 = 250$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(380 - 250) = 130$

दुकान C में:

बेची गई आइसक्रीम की कुल संख्या = 420

बेची गई वनीला आइसक्रीम की संख्या = $(420 + 60)/2 = 240$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(420 - 240) = 180$

दुकान D में:

बेची गई आइसक्रीम की कुल संख्या = 240

बेची गई वनीला आइसक्रीम की संख्या = $(240 + 80)/2 = 160$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(240 - 160) = 80$

दुकान E में:

बेची गई आइसक्रीम की कुल संख्या = 360

बेची गई वनीला आइसक्रीम की संख्या = $(360 + 100)/2 = 230$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(360 - 230) = 130$

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला आइसक्रीम की संख्या	बेची गई चॉकलेट आइसक्रीम की संख्या
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

उत्तर: E

दुकान D में बेची गई आइसक्रीम की कुल संख्या = $(40/100) \times$ दुकान F में बेची गई आइसक्रीम की कुल संख्या

$240 = (40/100) \times$ दुकान F में बेची गई आइसक्रीम की कुल संख्या

दुकान F में बेची गई आइसक्रीम की कुल संख्या = 600

अतः, सही उत्तर विकल्प E है।

Q. 62

Study the following information carefully and answer the following questions.

The given table chart shows the total number of ice-creams sold in five different shops namely A, B, C, D and E respectively and also the difference between the number of vanilla and chocolate ice-creams sold in these five different shops.

Notes:

- i). The total number of ice-creams sold = The number of vanilla ice-creams sold + The number of chocolate ice-creams sold.
- ii). The number of vanilla ice-cream sold in each shop is more than the number of Chocolate ice-cream sold

Shops	The total number of ice-creams sold	The difference between the number of vanilla and chocolate ice-creams sold
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया तालिका चार्ट पाँच अलग-अलग दुकानों, अर्थात् A, B, C, D और E में बेची गई कुल आइसक्रीम की संख्या तथा इन पाँच अलग-अलग दुकानों में बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच का अंतर दर्शाता है ।

नोट:

- i). बेची गई आइसक्रीम की कुल संख्या = बेची गई वनीला आइसक्रीम की संख्या + बेची गई चॉकलेट आइसक्रीम की संख्या ।
- ii). प्रत्येक दुकान में बेची गई वनीला आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या से अधिक है ।

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच अंतर
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

In shop C, the ratio of the number of vanilla ice-creams sold to unsold is 6:11. Find the number of vanilla ice-creams unsold.

दुकान C में, बेची गई से नहीं बिकी हुई वनीला आइसक्रीम की संख्या का अनुपात 6:11 है । नहीं बिकी हुई वनीला आइसक्रीम की संख्या ज्ञात कीजिए ।

A) 330 330 

B) 550 550 

C) 440 440 

D) 990 990 

E) 660 660 

Explanation:**In shop A:**

The total number of ice-creams sold = 245

The number of vanilla ice-creams sold = $(245 + 55)/2 = 150$

The number of chocolate ice-creams sold = $(245 - 150) = 95$

In shop B:

The total number of ice-creams sold = 380

The number of vanilla ice-creams sold = $(380 + 120)/2 = 250$

The number of chocolate ice-creams sold = $(380 - 250) = 130$

In shop C:

The total number of ice-creams sold = 420

The number of vanilla ice-creams sold = $(420 + 60)/2 = 240$

The number of chocolate ice-creams sold = $(420 - 240) = 180$

In shop D:

The total number of ice-creams sold = 240

The number of vanilla ice-creams sold = $(240 + 80)/2 = 160$

The number of chocolate ice-creams sold = $(240 - 160) = 80$

In shop E:

The total number of ice-creams sold = 360

The number of vanilla ice-creams sold = $(360 + 100)/2 = 230$

The number of chocolate ice-creams sold = $(360 - 230) = 130$

Shops	The total number of ice-creams sold	The number of vanilla ice-creams sold	The number of chocolate ice-creams sold
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

Answer: C

The number of vanilla ice-creams unsold in shop C = $240 * 11/6 = 440$

Hence, the correct answer is option C

दुकान A में:

बेची गई आइसक्रीम की कुल संख्या = 245

बेची गई वनीला आइसक्रीम की संख्या = $(245 + 55)/2 = 150$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(245 - 150) = 95$

दुकान B में:

बेची गई आइसक्रीम की कुल संख्या = 380

बेची गई वनीला आइसक्रीम की संख्या = $(380 + 120)/2 = 250$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(380 - 250) = 130$

दुकान C में:

बेची गई आइसक्रीम की कुल संख्या = 420

बेची गई वनीला आइसक्रीम की संख्या = $(420 + 60)/2 = 240$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(420 - 240) = 180$

दुकान D में:

बेची गई आइसक्रीम की कुल संख्या = 240

बेची गई वनीला आइसक्रीम की संख्या = $(240 + 80)/2 = 160$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(240 - 160) = 80$

दुकान E में:

बेची गई आइसक्रीम की कुल संख्या = 360

बेची गई वनीला आइसक्रीम की संख्या = $(360 + 100)/2 = 230$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(360 - 230) = 130$

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला आइसक्रीम की संख्या	बेची गई चॉकलेट आइसक्रीम की संख्या
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

उत्तर: C

दुकान C में नहीं बिकी हुई वनीला आइसक्रीम की संख्या = $240 \times 11/6 = 440$

अतः, सही उत्तर विकल्प C है।

Q. 63

Study the following information carefully and answer the following questions.

The given table chart shows the total number of ice-creams sold in five different shops namely A, B, C, D and E respectively and also the difference between the number of vanilla and chocolate ice-creams sold in these five different shops.

Notes:

- i). The total number of ice-creams sold = The number of vanilla ice-creams sold + The number of chocolate ice-creams sold.
- ii). The number of vanilla ice-cream sold in each shop is more than the number of Chocolate ice-cream sold

Shops	The total number of ice-creams sold	The difference between the number of vanilla and chocolate ice-creams sold
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया तालिका चार्ट पाँच अलग-अलग दुकानों, अर्थात् A, B, C, D और E में बेची गई कुल आइसक्रीम की संख्या तथा इन पाँच अलग-अलग दुकानों में बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच का अंतर दर्शाता है ।

नोट:

- i). बेची गई आइसक्रीम की कुल संख्या = बेची गई वनीला आइसक्रीम की संख्या + बेची गई चॉकलेट आइसक्रीम की संख्या ।
- ii). प्रत्येक दुकान में बेची गई वनीला आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या से अधिक है ।

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच अंतर
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

If the number of strawberry ice-creams in shop D is $\frac{5}{2}$ times that of chocolate ice-creams sold, then find the number of strawberry ice-creams sold in shop D.

यदि दुकान D में स्ट्रॉबेरी आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या की $\frac{5}{2}$ गुना है, तो दुकान D में बेची गई स्ट्रॉबेरी आइसक्रीम की संख्या ज्ञात कीजिए ।

A) 100 100 

B) 160 160 

C) 200 200 

D) 300 300 

E) 400 400 

Explanation:**In shop A:**

The total number of ice-creams sold = 245

The number of vanilla ice-creams sold = $(245 + 55)/2 = 150$

The number of chocolate ice-creams sold = $(245 - 150) = 95$

In shop B:

The total number of ice-creams sold = 380

The number of vanilla ice-creams sold = $(380 + 120)/2 = 250$

The number of chocolate ice-creams sold = $(380 - 250) = 130$

In shop C:

The total number of ice-creams sold = 420

The number of vanilla ice-creams sold = $(420 + 60)/2 = 240$

The number of chocolate ice-creams sold = $(420 - 240) = 180$

In shop D:

The total number of ice-creams sold = 240

The number of vanilla ice-creams sold = $(240 + 80)/2 = 160$

The number of chocolate ice-creams sold = $(240 - 160) = 80$

In shop E:

The total number of ice-creams sold = 360

The number of vanilla ice-creams sold = $(360 + 100)/2 = 230$

The number of chocolate ice-creams sold = $(360 - 230) = 130$

Shops	The total number of ice-creams sold	The number of vanilla ice-creams sold	The number of chocolate ice-creams sold
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

Answer: C

The number of strawberry ice-creams sold in shop D = $80 * 5/2 = 200$

Hence, the correct answer is option C

दुकान A में:

बेची गई आइसक्रीम की कुल संख्या = 245

बेची गई वनीला आइसक्रीम की संख्या = $(245 + 55)/2 = 150$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(245 - 150) = 95$

दुकान B में:

बेची गई आइसक्रीम की कुल संख्या = 380

बेची गई वनीला आइसक्रीम की संख्या = $(380 + 120)/2 = 250$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(380 - 250) = 130$

दुकान C में:

बेची गई आइसक्रीम की कुल संख्या = 420

बेची गई वनीला आइसक्रीम की संख्या = $(420 + 60)/2 = 240$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(420 - 240) = 180$

दुकान D में:

बेची गई आइसक्रीम की कुल संख्या = 240

बेची गई वनीला आइसक्रीम की संख्या = $(240 + 80)/2 = 160$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(240 - 160) = 80$

दुकान E में:

बेची गई आइसक्रीम की कुल संख्या = 360

बेची गई वनीला आइसक्रीम की संख्या = $(360 + 100)/2 = 230$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(360 - 230) = 130$

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला आइसक्रीम की संख्या	बेची गई चॉकलेट आइसक्रीम की संख्या
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

उत्तर: C

दुकान D में बेची गई स्ट्रॉबेरी आइसक्रीम की संख्या = $80 \times 5/2 = 200$

अतः, सही उत्तर विकल्प C है।

Q. 64

Study the following information carefully and answer the following questions.

The given table chart shows the total number of ice-creams sold in five different shops namely A, B, C, D and E respectively and also the difference between the number of vanilla and chocolate ice-creams sold in these five different shops.

Notes:

- i). The total number of ice-creams sold = The number of vanilla ice-creams sold + The number of chocolate ice-creams sold.
- ii). The number of vanilla ice-cream sold in each shop is more than the number of Chocolate ice-cream sold

Shops	The total number of ice-creams sold	The difference between the number of vanilla and chocolate ice-creams sold
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया तालिका चार्ट पाँच अलग-अलग दुकानों, अर्थात् A, B, C, D और E में बेची गई कुल आइसक्रीम की संख्या तथा इन पाँच अलग-अलग दुकानों में बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच का अंतर दर्शाता है ।

नोट:

- i). बेची गई आइसक्रीम की कुल संख्या = बेची गई वनीला आइसक्रीम की संख्या + बेची गई चॉकलेट आइसक्रीम की संख्या ।
- ii). प्रत्येक दुकान में बेची गई वनीला आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या से अधिक है ।

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच अंतर
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

Find the difference between the number of vanilla ice-creams sold in shops A and B together and the number of chocolate ice-creams sold in shop C.

एकसाथ दुकानों A और B में बेची गई वनीला आइसक्रीम की कुल संख्या तथा दुकान C में बेची गई चॉकलेट आइसक्रीम की संख्या के बीच का अंतर ज्ञात कीजिए ।

- | | | | |
|----|-----|-----|---|
| A) | 220 | 220 | ✓ |
| B) | 145 | 145 | ✗ |
| C) | 165 | 165 | ✗ |
| D) | 160 | 160 | ✗ |
| E) | 200 | 200 | ✗ |

Explanation:**In shop A:**

The total number of ice-creams sold = 245

The number of vanilla ice-creams sold = $(245 + 55)/2 = 150$

The number of chocolate ice-creams sold = $(245 - 150) = 95$

In shop B:

The total number of ice-creams sold = 380

The number of vanilla ice-creams sold = $(380 + 120)/2 = 250$

The number of chocolate ice-creams sold = $(380 - 250) = 130$

In shop C:

The total number of ice-creams sold = 420

The number of vanilla ice-creams sold = $(420 + 60)/2 = 240$

The number of chocolate ice-creams sold = $(420 - 240) = 180$

In shop D:

The total number of ice-creams sold = 240

The number of vanilla ice-creams sold = $(240 + 80)/2 = 160$

The number of chocolate ice-creams sold = $(240 - 160) = 80$

In shop E:

The total number of ice-creams sold = 360

The number of vanilla ice-creams sold = $(360 + 100)/2 = 230$

The number of chocolate ice-creams sold = $(360 - 230) = 130$

Shops	The total number of ice-creams sold	The number of vanilla ice-creams sold	The number of chocolate ice-creams sold
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

Answer: A

The sum of the number of vanilla ice-creams sold in shops A and B together = $(150 + 250) = 400$

The number of chocolate ice-creams sold in shop C = 180

Required difference = $(400 - 180) = 220$

Hence, the correct answer is option A

दुकान A में:

बेची गई आइसक्रीम की कुल संख्या = 245

बेची गई वनीला आइसक्रीम की संख्या = $(245 + 55)/2 = 150$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(245 - 150) = 95$

दुकान B में:

बेची गई आइसक्रीम की कुल संख्या = 380

बेची गई वनीला आइसक्रीम की संख्या = $(380 + 120)/2 = 250$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(380 - 250) = 130$

दुकान C में:

बेची गई आइसक्रीम की कुल संख्या = 420

बेची गई वनीला आइसक्रीम की संख्या = $(420 + 60)/2 = 240$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(420 - 240) = 180$

दुकान D में:

बेची गई आइसक्रीम की कुल संख्या = 240

बेची गई वनीला आइसक्रीम की संख्या = $(240 + 80)/2 = 160$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(240 - 160) = 80$

दुकान E में:

बेची गई आइसक्रीम की कुल संख्या = 360

बेची गई वनीला आइसक्रीम की संख्या = $(360 + 100)/2 = 230$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(360 - 230) = 130$

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला आइसक्रीम की संख्या	बेची गई चॉकलेट आइसक्रीम की संख्या
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

उत्तर: A

एकसाथ दुकानों A और B में बेची गई वनीला आइसक्रीम की कुल संख्या = $(150 + 250) = 400$

दुकान C में बेची गई चॉकलेट आइसक्रीम की संख्या = 180

आवश्यक अंतर = $(400 - 180) = 220$

अतः, सही उत्तर विकल्प A है।

Q. 65

Study the following information carefully and answer the following questions.

The given table chart shows the total number of ice-creams sold in five different shops namely A, B, C, D and E respectively and also the difference between the number of vanilla and chocolate ice-creams sold in these five different shops.

Notes:

- i). The total number of ice-creams sold = The number of vanilla ice-creams sold + The number of chocolate ice-creams sold.
- ii). The number of vanilla ice-cream sold in each shop is more than the number of Chocolate ice-cream sold

Shops	The total number of ice-creams sold	The difference between the number of vanilla and chocolate ice-creams sold
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन कीजिए और उसके आधार पर निम्नलिखित प्रश्नों के उत्तर दीजिए ।

दिया गया तालिका चार्ट पाँच अलग-अलग दुकानों, अर्थात् A, B, C, D और E में बेची गई कुल आइसक्रीम की संख्या तथा इन पाँच अलग-अलग दुकानों में बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच का अंतर दर्शाता है ।

नोट:

- i). बेची गई आइसक्रीम की कुल संख्या = बेची गई वनीला आइसक्रीम की संख्या + बेची गई चॉकलेट आइसक्रीम की संख्या ।
- ii). प्रत्येक दुकान में बेची गई वनीला आइसक्रीम की संख्या, बेची गई चॉकलेट आइसक्रीम की संख्या से अधिक है ।

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला और चॉकलेट आइसक्रीम की संख्या के बीच अंतर
A	245	55
B	380	120
C	420	60
D	240	80
E	360	100

Find the ratio of the number of vanilla ice-creams sold in shop D to the number of chocolate ice-creams sold in shop E.

दुकान D में बेची गई वनीला आइसक्रीम की संख्या से दुकान E में बेची गई चॉकलेट आइसक्रीम की संख्या का अनुपात ज्ञात कीजिए ।

A) 16: 13 16: 13 

B) 19: 11 19: 11 

C) 17: 13 17: 13 

D) 8: 9 8: 9 

E) 3: 4 3: 4 

Explanation:**In shop A:**

The total number of ice-creams sold = 245

The number of vanilla ice-creams sold = $(245 + 55)/2 = 150$

The number of chocolate ice-creams sold = $(245 - 150) = 95$

In shop B:

The total number of ice-creams sold = 380

The number of vanilla ice-creams sold = $(380 + 120)/2 = 250$

The number of chocolate ice-creams sold = $(380 - 250) = 130$

In shop C:

The total number of ice-creams sold = 420

The number of vanilla ice-creams sold = $(420 + 60)/2 = 240$

The number of chocolate ice-creams sold = $(420 - 240) = 180$

In shop D:

The total number of ice-creams sold = 240

The number of vanilla ice-creams sold = $(240 + 80)/2 = 160$

The number of chocolate ice-creams sold = $(240 - 160) = 80$

In shop E:

The total number of ice-creams sold = 360

The number of vanilla ice-creams sold = $(360 + 100)/2 = 230$

The number of chocolate ice-creams sold = $(360 - 230) = 130$

Shops	The total number of ice-creams sold	The number of vanilla ice-creams sold	The number of chocolate ice-creams sold
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

Answer: A

The number of vanilla ice-creams sold in shop D = 160

The number of chocolate ice-creams sold in shop E = 130

Required ratio = 160: 130 = 16: 13

Hence, the correct answer is option A

दुकान A में:

बेची गई आइसक्रीम की कुल संख्या = 245

बेची गई वनीला आइसक्रीम की संख्या = $(245 + 55)/2 = 150$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(245 - 150) = 95$

दुकान B में:

बेची गई आइसक्रीम की कुल संख्या = 380

बेची गई वनीला आइसक्रीम की संख्या = $(380 + 120)/2 = 250$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(380 - 250) = 130$

दुकान C में:

बेची गई आइसक्रीम की कुल संख्या = 420

बेची गई वनीला आइसक्रीम की संख्या = $(420 + 60)/2 = 240$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(420 - 240) = 180$

दुकान D में:

बेची गई आइसक्रीम की कुल संख्या = 240

बेची गई वनीला आइसक्रीम की संख्या = $(240 + 80)/2 = 160$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(240 - 160) = 80$

दुकान E में:

बेची गई आइसक्रीम की कुल संख्या = 360

बेची गई वनीला आइसक्रीम की संख्या = $(360 + 100)/2 = 230$

बेची गई चॉकलेट आइसक्रीम की संख्या = $(360 - 230) = 130$

दुकान	बेची गई आइसक्रीम की कुल संख्या	बेची गई वनीला आइसक्रीम की संख्या	बेची गई चॉकलेट आइसक्रीम की संख्या
A	245	150	95
B	380	250	130
C	420	240	180
D	240	160	80
E	360	230	130

उत्तर: A

दुकान D में बेची गई वनीला आइसक्रीम की संख्या = 160

दुकान E में बेची गई चॉकलेट आइसक्रीम की संख्या = 130

आवश्यक अनुपात = $160:130 = 16:13$

अतः, सही उत्तर विकल्प A है।

Q. 66

Study the following information carefully and answer the given questions.

Six persons — A, B, C, D, E and F — are sitting around a circular table, facing the centre with equal distance between adjacent persons.

Only two persons sit between B and C. D sits two persons away from C. As many persons sit between D and B as between D and E. A sits to the immediate right of F who does not sit adjacent to C.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

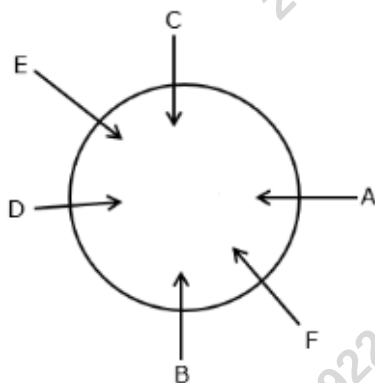

छह व्यक्ति — A, B, C, D, E और F — एक वृत्ताकार मेज के चारों ओर केंद्र की ओर मुख करके बैठे हैं, और आसन्न व्यक्तियों के बीच समान दूरी है।

B और C के बीच केवल दो व्यक्ति बैठे हैं। D, C से दो व्यक्ति दूर बैठा है। जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं। A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

What is the position of B with respect to F?

F के संबंध में B की स्थिति क्या है?

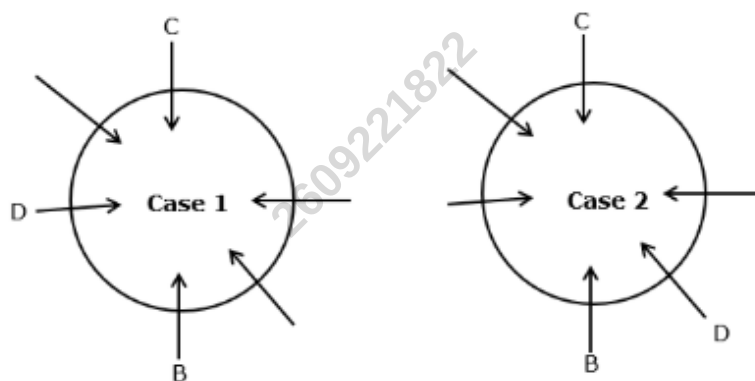

- A) Third to the left बाएं से तीसरा ✗
- B) Third to the right दाएं से तीसरा ✗
- C) Immediate left तत्काल बाईं ओर ✓
- D) Second to the left बाएं से दूसरा ✗
- E) None of these इनमें से कोई नहीं ✗

Explanation:**Final arrangement:**

We have,

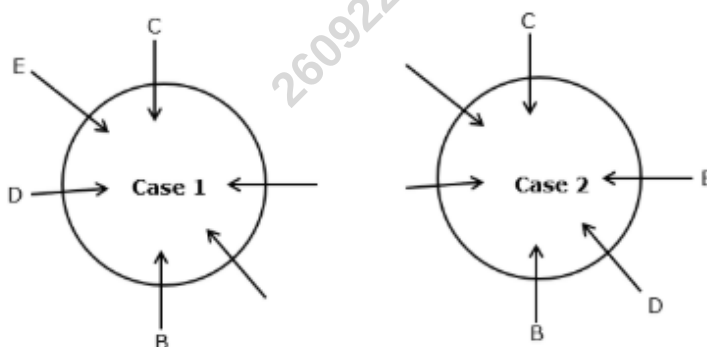

- Only two persons sit between B and C.
- D sits two persons away from C.

From the above conditions, there are two possibilities.

Again, we have

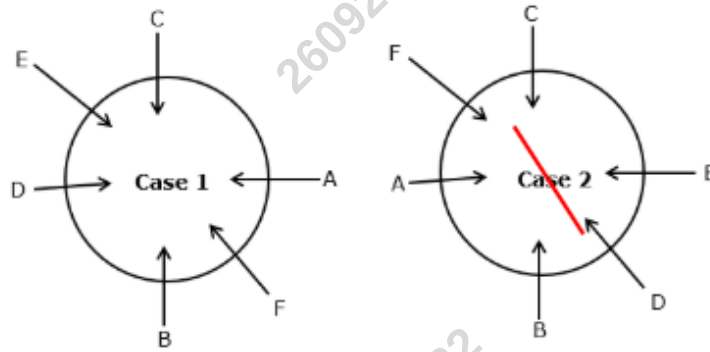

- As many persons sit between D and B as between D and E.

Again, we have

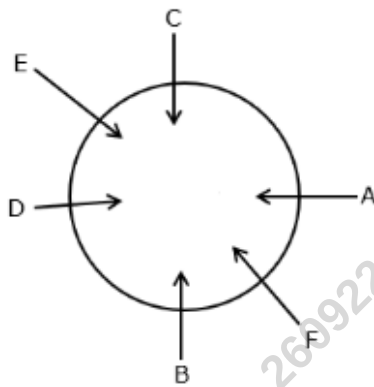

- A sits to the immediate right of F who does not sit adjacent to C.

From the above condition, Case-2 gets eliminated because A sits to the immediate right of F who does not sit adjacent to C, which is not satisfied. Hence, Case-1 shows the final arrangement.

Answer: C

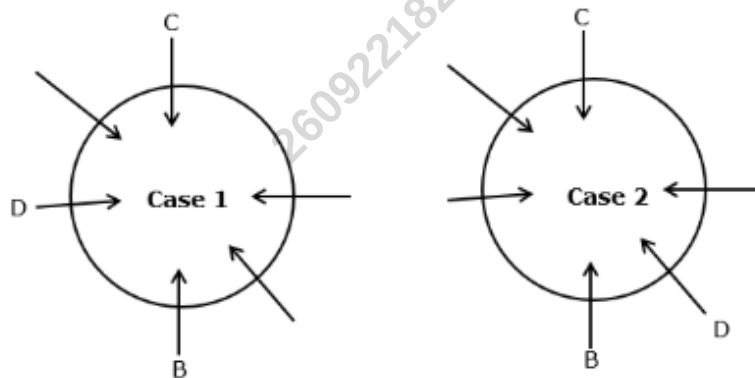

अंतिम व्यवस्था:

हमारे पास है,

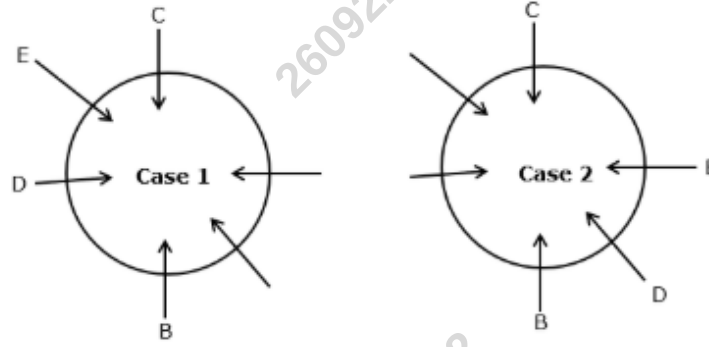

- B और C के बीच केवल दो व्यक्ति बैठे हैं ।
- D, C से दो व्यक्ति दूर बैठा है ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

फिर से, हमारे पास है

- जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं ।

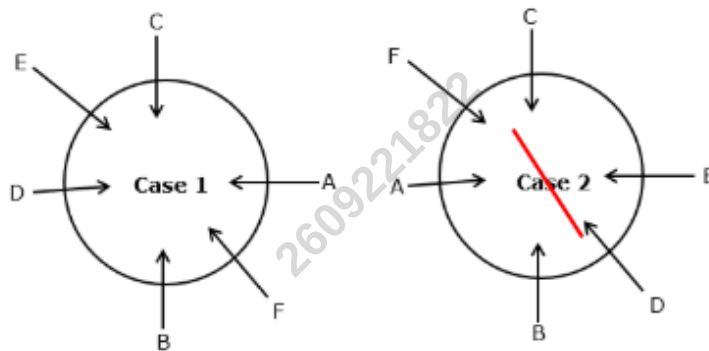

फिर से, हमारे पास है

- A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

उपरोक्त शर्त से, केस-2 समाप्त हो जाती है क्योंकि A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है, जो संतुष्ट नहीं है।

इसलिए, केस -1 अंतिम व्यवस्था को दर्शाती है।

उत्तर: C

Q. 67

Study the following information carefully and answer the given questions.

Six persons — A, B, C, D, E and F — are sitting around a circular table, facing the centre with equal distance between adjacent persons.

Only two persons sit between B and C. D sits two persons away from C. As many persons sit between D and B as between D and E. A sits to the immediate right of F who does not sit adjacent to C.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

छह व्यक्ति — A, B, C, D, E और F — एक वृत्ताकार मेज के चारों ओर केंद्र की ओर मुख करके बैठे हैं, और आसन्न व्यक्तियों के बीच समान दूरी है।

B और C के बीच केवल दो व्यक्ति बैठे हैं। D, C से दो व्यक्ति दूर बैठा है। जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं। A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

How many persons are sitting between D and A?

D और A के बीच कितने व्यक्ति बैठे हैं?

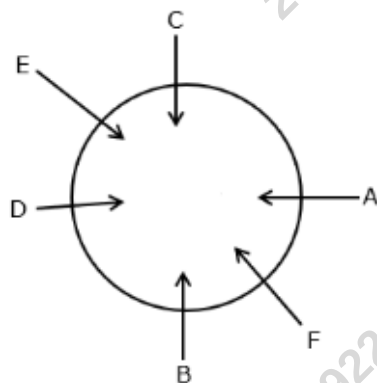

A) Two दो 

B) Three तीन 

C) One एक 

D) More than three तीन से अधिक 

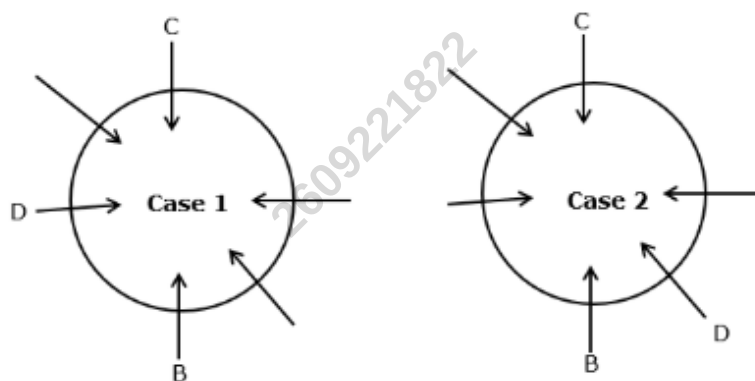

E) None कोई नहीं 

Explanation:**Final arrangement:**

We have,

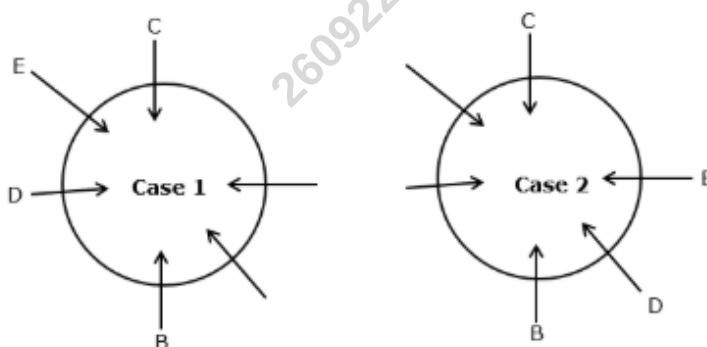

- Only two persons sit between B and C.
- D sits two persons away from C.

From the above conditions, there are two possibilities.

Again, we have

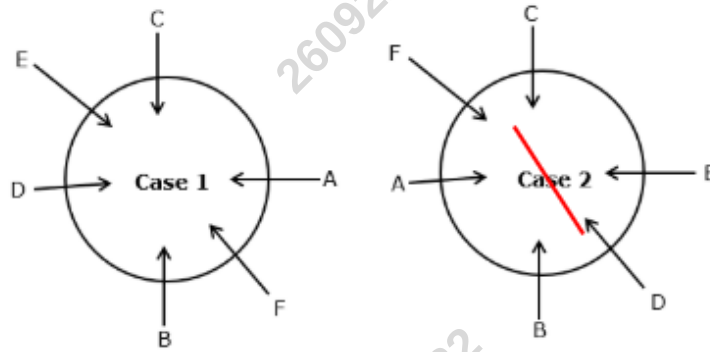

- As many persons sit between D and B as between D and E.

Again, we have

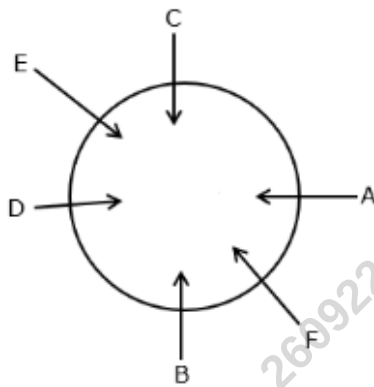

- A sits to the immediate right of F who does not sit adjacent to C.

From the above condition, Case-2 gets eliminated because A sits to the immediate right of F who does not sit adjacent to C, which is not satisfied. Hence, Case-1 shows the final arrangement.

Answer: A

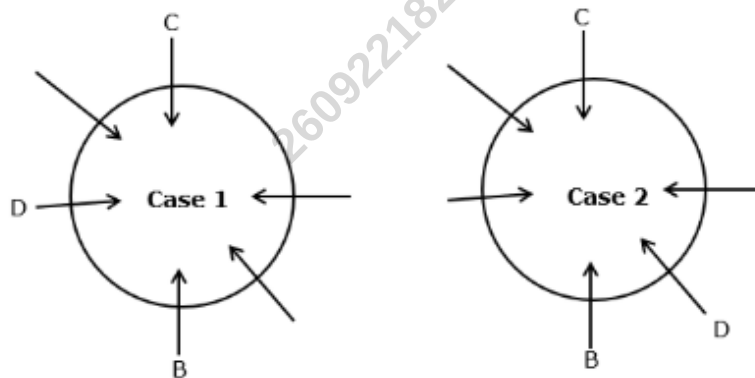

अंतिम व्यवस्था:

हमारे पास है,

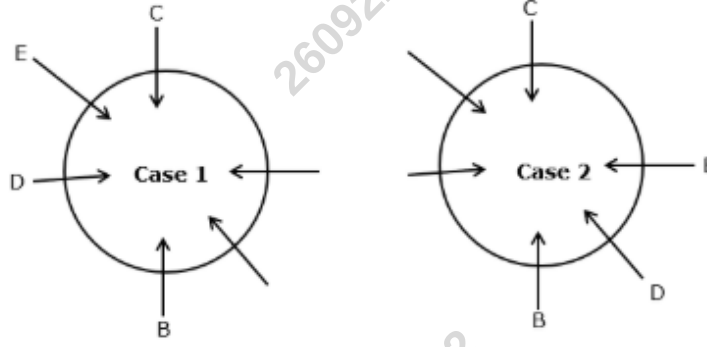

- B और C के बीच केवल दो व्यक्ति बैठे हैं ।
- D, C से दो व्यक्ति दूर बैठा है ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

फिर से, हमारे पास है

- जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं ।

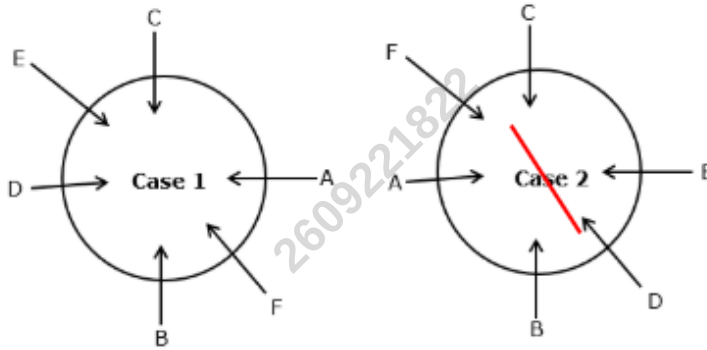

फिर से, हमारे पास है

- A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

उपरोक्त शर्त से, केस-2 समाप्त हो जाती है क्योंकि A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है, जो संतुष्ट नहीं है।

इसलिए, केस -1 अंतिम व्यवस्था को दर्शाती है।

उत्तर: A

Q. 68

Study the following information carefully and answer the given questions.

Six persons — A, B, C, D, E and F — are sitting around a circular table, facing the centre with equal distance between adjacent persons.

Only two persons sit between B and C. D sits two persons away from C. As many persons sit between D and B as between D and E. A sits to the immediate right of F who does not sit adjacent to C.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

छह व्यक्ति — A, B, C, D, E और F — एक वृत्ताकार मेज के चारों ओर केंद्र की ओर मुख करके बैठे हैं, और आसन्न व्यक्तियों के बीच समान दूरी है।

B और C के बीच केवल दो व्यक्ति बैठे हैं। D, C से दो व्यक्ति दूर बैठा है। जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं। A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

If D is related to A and B is related to C in a certain way, then who among the following persons is related to E?

यदि किसी निश्चित प्रकार से D, A से संबंधित है और B, C से संबंधित है, तो निम्नलिखित में से कौन E से संबंधित है?

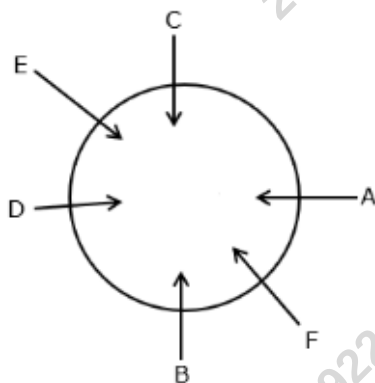

A) D D 

B) B B 

C) F F 

D) C C 

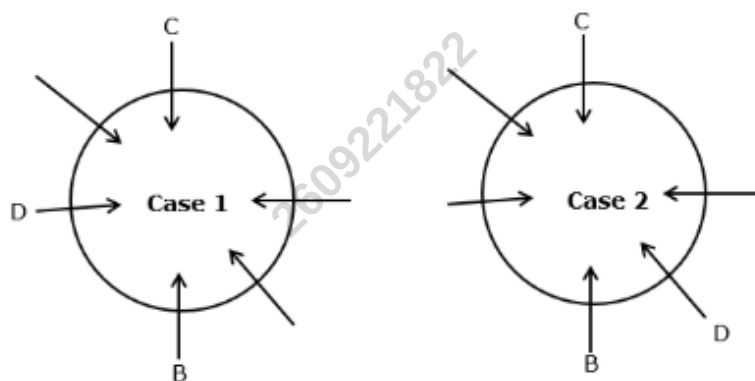

E) None of these इनमें से कोई नहीं 

Explanation:**Final arrangement:**

We have,

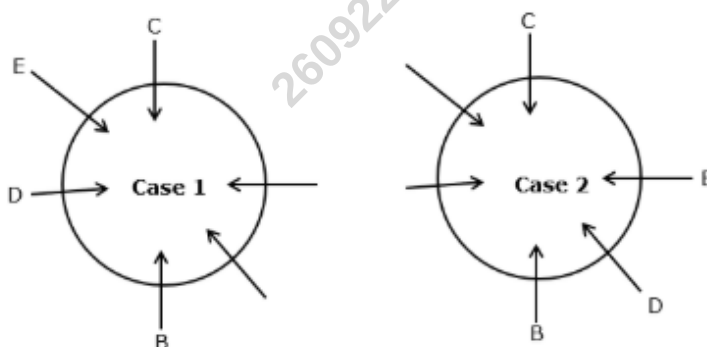

- Only two persons sit between B and C.
- D sits two persons away from C.

From the above conditions, there are two possibilities.

Again, we have

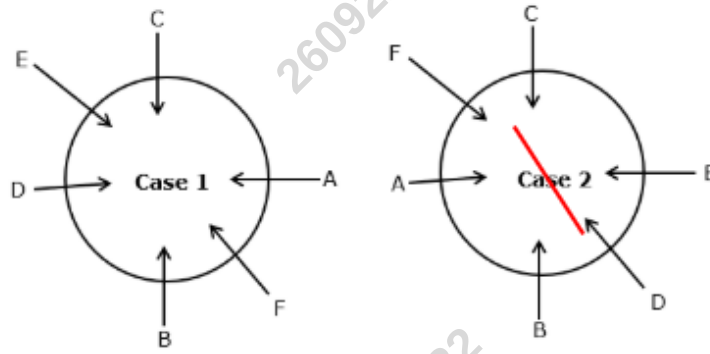

- As many persons sit between D and B as between D and E.

Again, we have

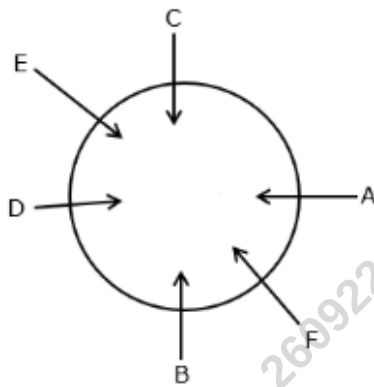

- A sits to the immediate right of F who does not sit adjacent to C.

From the above condition, Case-2 gets eliminated because A sits to the immediate right of F who does not sit adjacent to C, which is not satisfied. Hence, Case-1 shows the final arrangement.

Answer: C (Only two persons are sit between the two mentioned persons)

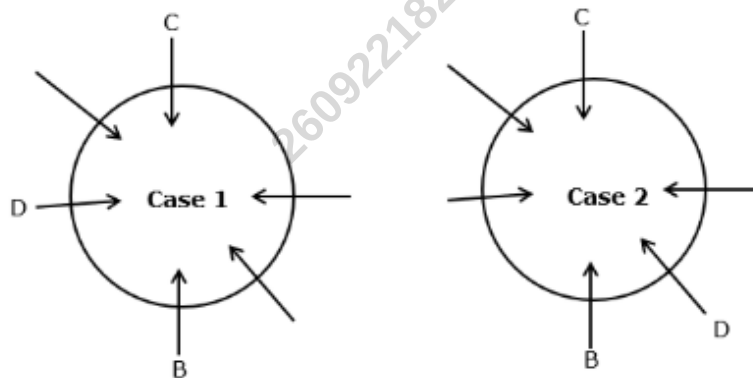

अंतिम व्यवस्था:

हमारे पास है,

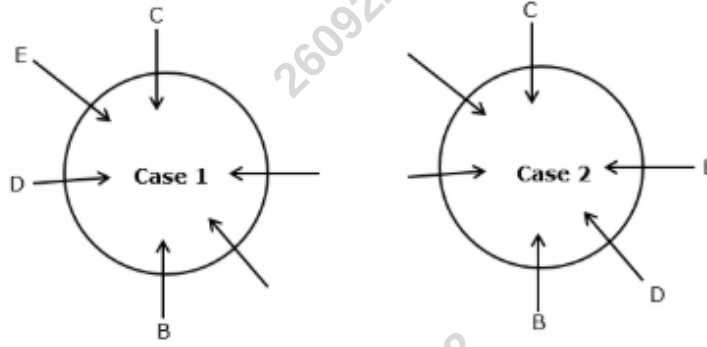

- B और C के बीच केवल दो व्यक्ति बैठे हैं।
- D, C से दो व्यक्ति दूर बैठा है।

उपरोक्त शर्तों से, दो संभावनाएं हैं।

फिर से, हमारे पास है

- जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं।

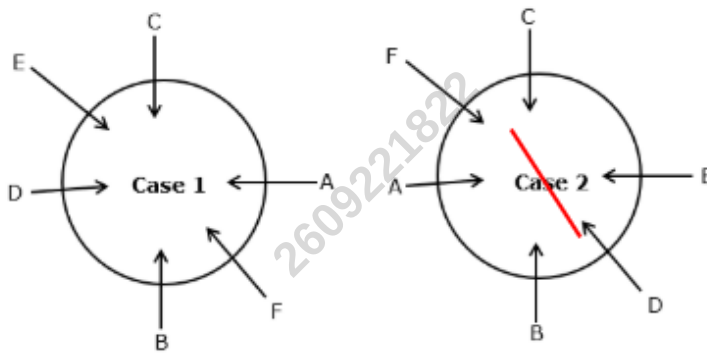

फिर से, हमारे पास है

- A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

उपरोक्त शर्त से, केस-2 समाप्त हो जाती है क्योंकि A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है, जो संतुष्ट नहीं है।

इसलिए, केस -1 अंतिम व्यवस्था को दर्शाती है।

उत्तर: C (उल्लिखित दो व्यक्तियों के बीच केवल दो व्यक्ति बैठे हैं)

Q. 69

Study the following information carefully and answer the given questions.

Six persons — A, B, C, D, E and F — are sitting around a circular table, facing the centre with equal distance between adjacent persons.

Only two persons sit between B and C. D sits two persons away from C. As many persons sit between D and B as between D and E. A sits to the immediate right of F who does not sit adjacent to C.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

छह व्यक्ति — A, B, C, D, E और F — एक वृत्ताकार मेज के चारों ओर केंद्र की ओर मुख करके बैठे हैं, और आसन्न व्यक्तियों के बीच समान दूरी है।

B और C के बीच केवल दो व्यक्ति बैठे हैं। D, C से दो व्यक्ति दूर बैठा है। जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं। A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

Who among the following persons sits third to the right of the one who sits to the immediate right of B?

निम्नलिखित में से कौन सा व्यक्ति B के तत्काल दाईं ओर बैठे व्यक्ति के दाईं ओर तीसरे स्थान पर बैठा है?

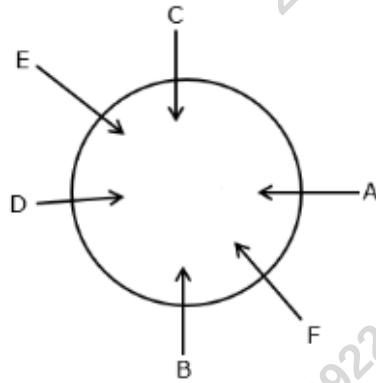

A) A A 

B) E E 

C) D D 

D) C C 

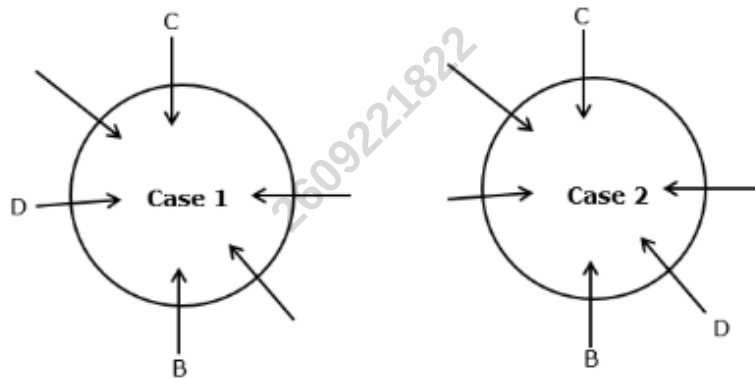

E) F F 

Explanation:**Final arrangement:**

We have,

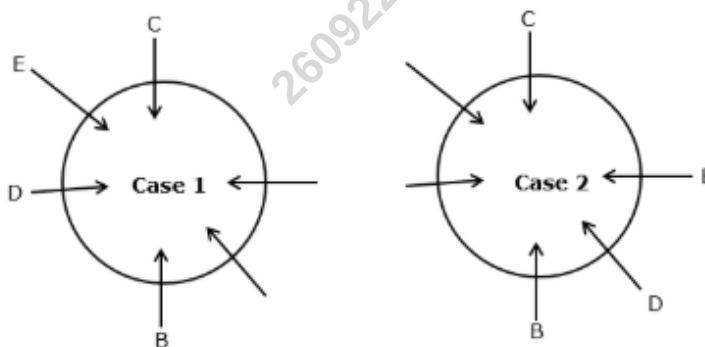

- Only two persons sit between B and C.
- D sits two persons away from C.

From the above conditions, there are two possibilities.

Again, we have

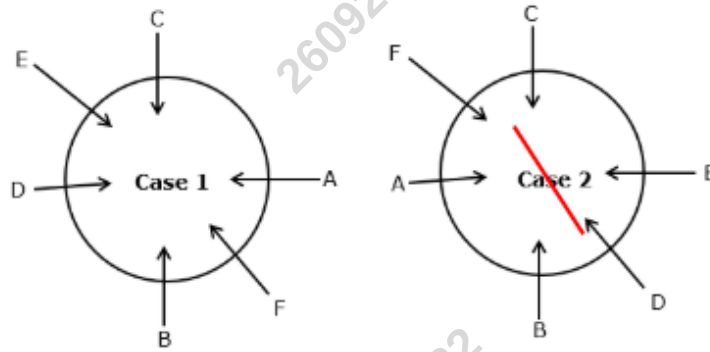

- As many persons sit between D and B as between D and E.

Again, we have

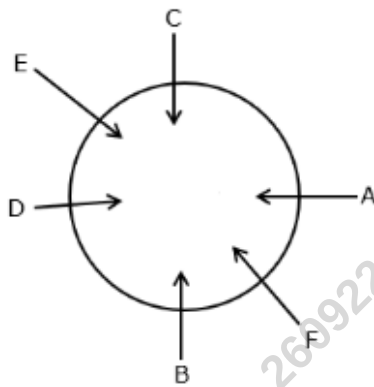

- A sits to the immediate right of F who does not sit adjacent to C.

From the above condition, Case-2 gets eliminated because A sits to the immediate right of F who does not sit adjacent to C, which is not satisfied. Hence, Case-1 shows the final arrangement.

Answer: B

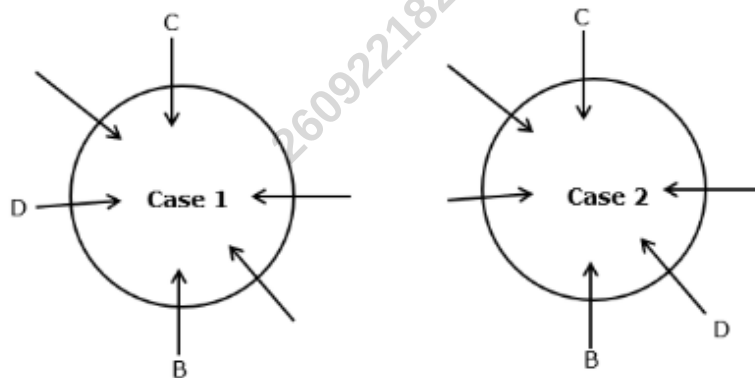

अंतिम व्यवस्था:

हमारे पास है,

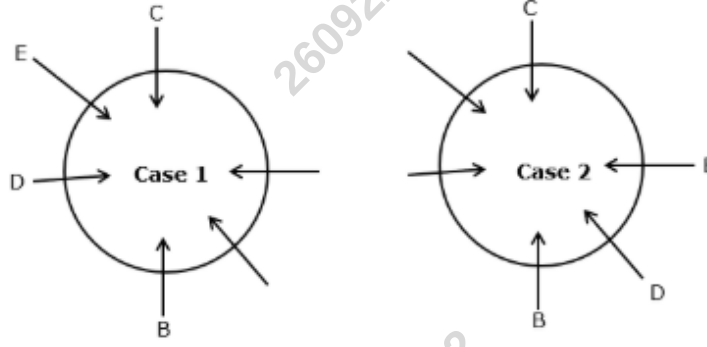

- B और C के बीच केवल दो व्यक्ति बैठे हैं ।
- D, C से दो व्यक्ति दूर बैठा है ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

फिर से, हमारे पास है

- जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं ।

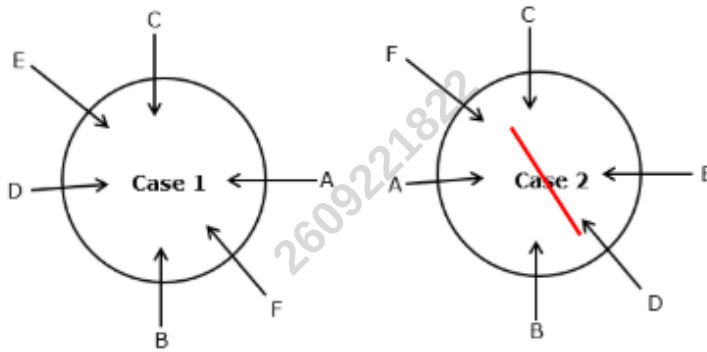

फिर से, हमारे पास है

- A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

उपरोक्त शर्त से, केस-2 समाप्त हो जाती है क्योंकि A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है, जो संतुष्ट नहीं है।

इसलिए, केस -1 अंतिम व्यवस्था को दर्शाती है।

उत्तर: B

Q. 70

Study the following information carefully and answer the given questions.

Six persons — A, B, C, D, E and F — are sitting around a circular table, facing the centre with equal distance between adjacent persons.

Only two persons sit between B and C. D sits two persons away from C. As many persons sit between D and B as between D and E. A sits to the immediate right of F who does not sit adjacent to C.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

छह व्यक्ति — A, B, C, D, E और F — एक वृत्ताकार मेज के चारों ओर केंद्र की ओर मुख करके बैठे हैं, और आसन्न व्यक्तियों के बीच समान दूरी है।

B और C के बीच केवल दो व्यक्ति बैठे हैं। D, C से दो व्यक्ति दूर बैठा है। जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं। A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

If all persons are made to sit in alphabetical order in a clockwise direction starting from A, then how many person's positions will remain unchanged (excluding A)?

यदि सभी व्यक्तियों को A से शुरू करते हुए दक्षिणावर्त दिशा में वर्णानुक्रम में बैठाया जाए, तो कितने व्यक्तियों की स्थिति अपरिवर्तित रहेगी (A को छोड़कर)?

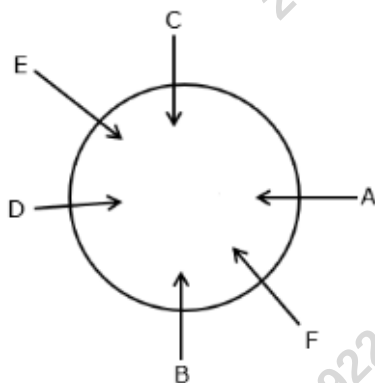

A) Two दो 

B) Three तीन 

C) More than three तीन से अधिक 

D) No one कोई नहीं 

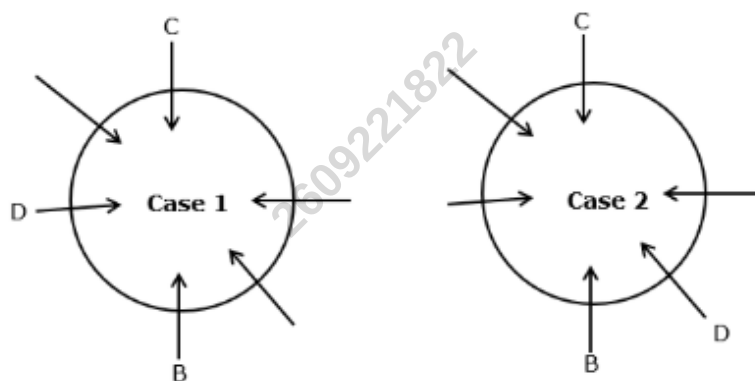

E) One एक 

Explanation:**Final arrangement:**

We have,

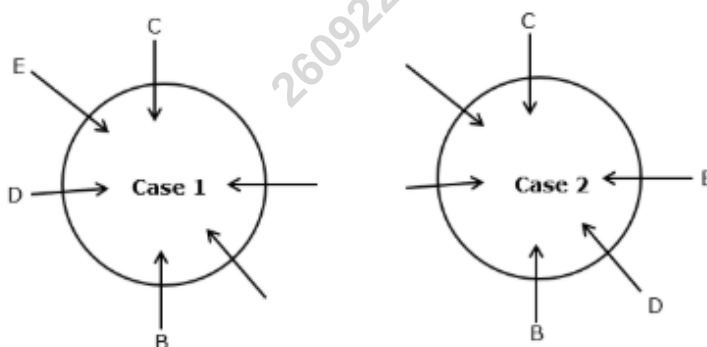

- Only two persons sit between B and C.
- D sits two persons away from C.

From the above conditions, there are two possibilities.

Again, we have

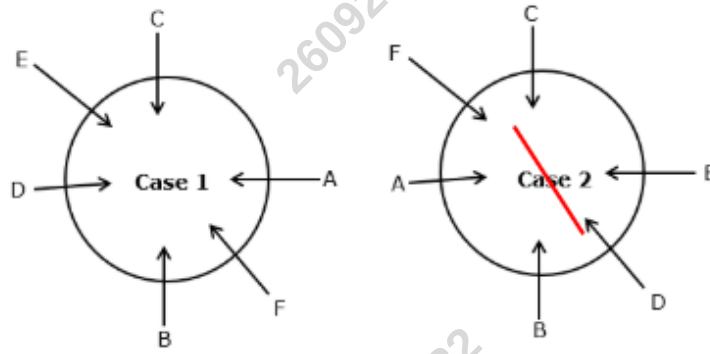

- As many persons sit between D and B as between D and E.

Again, we have

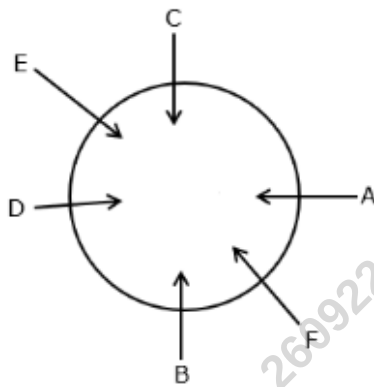

- A sits to the immediate right of F who does not sit adjacent to C.

From the above condition, Case-2 gets eliminated because A sits to the immediate right of F who does not sit adjacent to C, which is not satisfied. Hence, Case-1 shows the final arrangement.

Answer: A (Only D and E remains unchanged in their position)

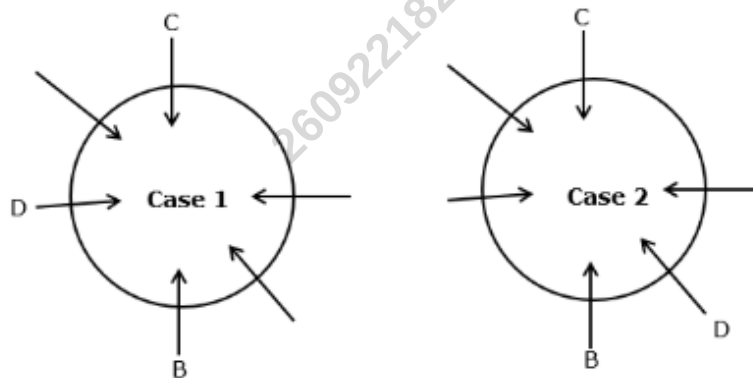

अंतिम व्यवस्था:

हमारे पास है,

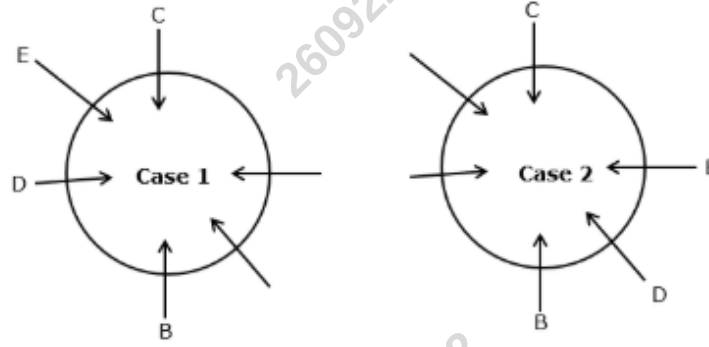

- B और C के बीच केवल दो व्यक्ति बैठे हैं।
- D, C से दो व्यक्ति दूर बैठा है।

उपरोक्त शर्तों से, दो संभावनाएं हैं।

फिर से, हमारे पास है

- जितने व्यक्ति D और B के बीच बैठे हैं उतने ही व्यक्ति D और E के बीच बैठे हैं।

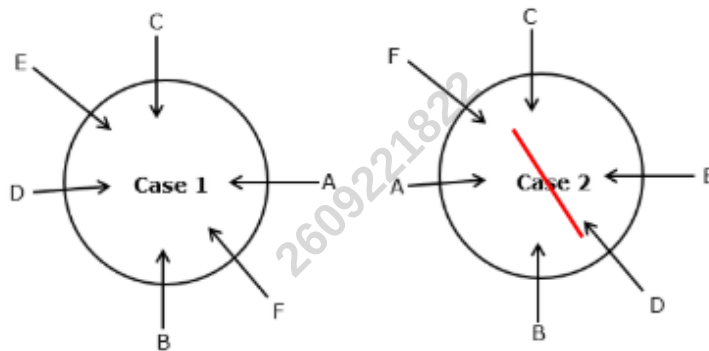

फिर से, हमारे पास है

- A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है।

उपरोक्त शर्त से, केस-2 समाप्त हो जाती है क्योंकि A, F के तत्काल दाईं ओर बैठा है, जो C के आसन्न नहीं बैठा है, जो संतुष्ट नहीं है।

इसलिए, केस -1 अंतिम व्यवस्था को दर्शाती है।

उत्तर: A (केवल D और E अपनी स्थिति में अपरिवर्तित रहते हैं)

Q. 71

Study the following statements and then decide which of the given conclusions logically follows from the given statements, disregarding the commonly known facts.

निम्नलिखित कथनों का अध्ययन करें और फिर निर्णय लें कि दिए गए निष्कर्षों में से कौन सा सामान्य ज्ञात तथ्यों को नजरअंदाज करते हुए दी गए कथनों का तार्किक रूप से अनुसरण करता है।

Statements:

Some ears are nose.

No nose is a mouth.

Conclusions:

I. Some mouths are ears

II. No mouth is an ears.

कथन:

कुछ ईयर(ear) नोज(nose) हैं।

कोई नोज(nose) माउथ(mouth) नहीं है।

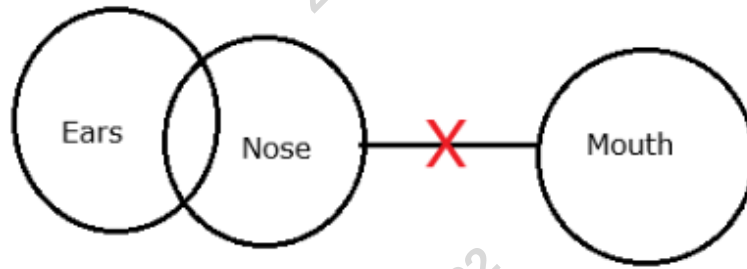

निष्कर्ष:

I. कुछ माउथ(mouth) ईयर(ear) हैं।

II. कोई माउथ(mouth) ईयर(ear) नहीं है।

- A) Only conclusion I follows केवल निष्कर्ष I अनुसरण करता है। 
- B) Either conclusion I or II follows या तो निष्कर्ष I या II अनुसरण करता है। 
- C) Both conclusions I and II follow दोनों निष्कर्ष I और II अनुसरण करते हैं। 
- D) Neither conclusion I nor II follows न तो निष्कर्ष I और ना ही II अनुसरण करता है। 
- E) Only conclusion II follows केवल निष्कर्ष II अनुसरण करता है। 

Answer: B

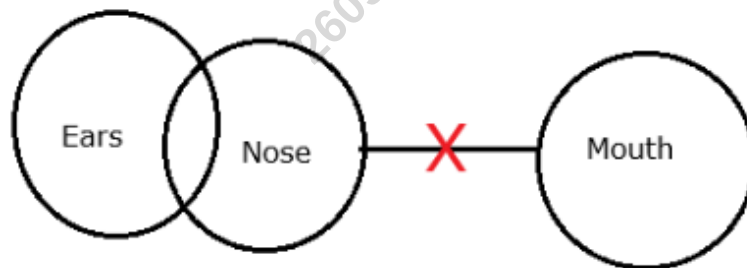

I. Some mouths are ears– Here, there is no direct relation between Ears and Mouth. So all the definite conclusions between them are not true. Hence, the conclusion does not follow.

II. No mouth is an ears– Here, there is no direct relation between Ears and Mouth. So all the definite conclusions between them are not true. Hence, the conclusion does not follow.

But by combining the conclusions I and II make the complementary pair. Hence, either I or II follows.

Explanation:

उत्तर: B

I. कुछ माउथ(mouth) ईयर(ear) हैं – यहाँ, ईयर(ear) और माउथ(mouth) के बीच कोई सीधा संबंध नहीं है। इसलिए उनके बीच सभी निश्चित निष्कर्ष सत्य नहीं हैं। अतः, निष्कर्ष अनुसरण नहीं करता है।

II. कोई माउथ(mouth) ईयर(ear) नहीं है – यहाँ, ईयर(ear) और माउथ(mouth) के बीच कोई सीधा संबंध नहीं है। इसलिए उनके बीच सभी निश्चित निष्कर्ष सत्य नहीं हैं। अतः, निष्कर्ष अनुसरण नहीं करता है।

लेकिन निष्कर्ष I और II के संयोजन से पूरक युग्म बनता है। इसलिए, या तो I या II अनुसरण करता है।

Q. 72

Study the following statements and then decide which of the given conclusions logically follows from the given statements, disregarding the commonly known facts.

निम्नलिखित कथनों का अध्ययन करें और फिर निर्णय लें कि दिए गए निष्कर्षों में से कौन सा सामान्य ज्ञात तथ्यों को नजरअंदाज करते हुए दी गए कथनों का तार्किक रूप से अनुसरण करता है।

Statements:

All pens are books.

All books are tablets.

Conclusions:

I. All pens are tablets.

II. Some tablets are pens.

कथन:

सभी पेन(pen) बुक(book) हैं।

सभी बुक(book) टैबलेट(tablet) हैं।

निष्कर्ष:

I. सभी पेन(pen) टैबलेट(tablet) हैं।

II. कुछ टैबलेट(tablet) पेन(pen) हैं।

A) Neither conclusion I nor II follows न तो निष्कर्ष I और ना ही II अनुसरण करता है।

B) Only conclusion II follows केवल निष्कर्ष II अनुसरण करता है।

C) Either conclusion I or II follows या तो निष्कर्ष I या II अनुसरण करता है।

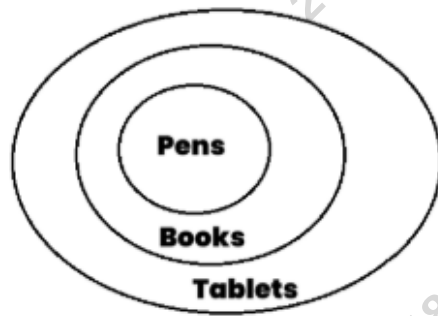

D) Only conclusion I follows केवल निष्कर्ष I अनुसरण करता है।

E) Both conclusions I and II follow दोनों निष्कर्ष I और II अनुसरण करते हैं।

Answer: E

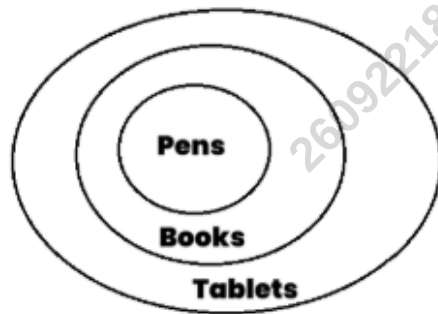

I. All pens are tablets– Here, Pens are inside Books and Books are inside tablets. All Pens are inside the tablets, which is true. Hence, the conclusion follows.

II. Some tablets are pens– Here, All Pens are inside Tablets, the portion of Tablets associated with Pens guarantees that some Tablets are Pens. Hence, the conclusion follows.

Explanation:

उत्तर: E

I. सभी पेन(pen) टैबलेट(tablet) हैं – यहाँ, पेन(pen) बुक(book) के अंदर हैं और बुक(book) टैबलेट(tablet) के अंदर हैं। सभी पेन टैबलेट(tablet) के अंदर हैं, जो सत्य है। इसलिए, निष्कर्ष अनुसरण करता है।

II. कुछ टैबलेट(tablet) पेन(pen) हैं – यहाँ, सभी पेन(pen) टैबलेट(tablet) के अंदर हैं, टैबलेट(tablet) का वह भाग जो पेन(pen) से जुड़ा है, यह सुनिश्चित करता है कि कुछ टैबलेट(tablet) पेन(pen) हैं। इसलिए, निष्कर्ष अनुसरण करता है।

Q. 73

Study the following statements and then decide which of the given conclusions logically follows from the given statements, disregarding the commonly known facts.

निम्नलिखित कथनों का अध्ययन करें और फिर निर्णय लें कि दिए गए निष्कर्षों में से कौन सा सामान्य ज्ञात तथ्यों को नजरअंदाज करते हुए दी गए कथनों का तार्किक रूप से अनुसरण करता है।

Statements:

All apples are fruits.

No fruit is a vegetables.

Conclusions:

I. Some vegetables being apples is a possibility.

II. No apple is a vegetable.

कथन:

सभी अपल(apple) फ्रूट(fruit) हैं।

कोई फ्रूट(fruit) व्हेजिटेबल(vegetable) नहीं है।

निष्कर्ष:

I. कुछ व्हेजिटेबल(vegetable) का अपल(apple) होना एक संभावना है।

II. कोई अपल(apple) व्हेजिटेबल(vegetable) नहीं है।

A) Only conclusion II follows केवल निष्कर्ष II अनुसरण करता है। 

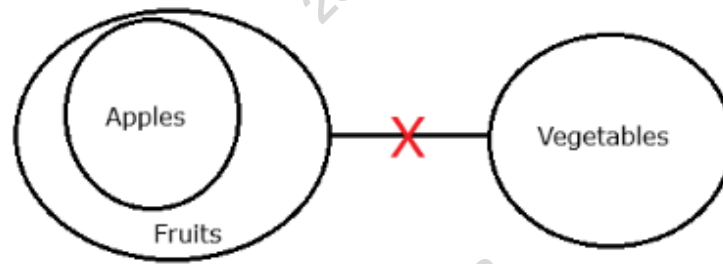

B) Neither conclusion I nor II follows न तो निष्कर्ष I और ना ही II अनुसरण करता है। 

C) Either conclusion I or II follows या तो निष्कर्ष I या II अनुसरण करता है। 

D) Only conclusion I follows केवल निष्कर्ष I अनुसरण करता है। 

E) Both conclusions I and II follow दोनों निष्कर्ष I और II अनुसरण करते हैं। 

Answer: A

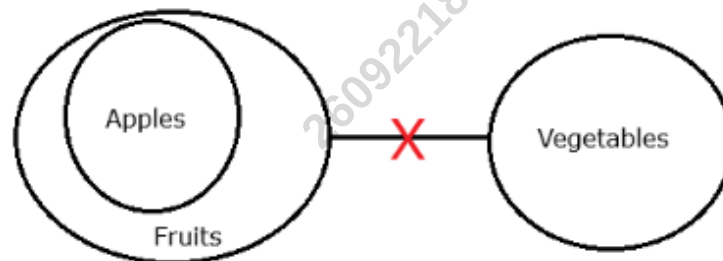

I. Some vegetables being apples is a possibility – Here, all apples are fruits and no fruits is vegetables which means apples are also restricted with vegetables. So, it is a definite case; thus, all the possible conclusions between them are not true. Hence, the conclusion does not follow.

II. No apple is a vegetable– Here, there is a negative restriction between Apples and Vegetables. So all the definite conclusions between them are true. Hence, the conclusion follows.

Explanation:

उत्तर: A

I. कुछ व्हेजिटेबल(vegetable) का अॅपल(apple) होना एक संभावना है – यहाँ, सभी अॅपल(apple) फ्रूट(fruit) हैं और कोई फ्रूट(fruit) व्हेजिटेबल(vegetable) नहीं है, जिसका अर्थ है कि अॅपल(apple) भी व्हेजिटेबल(vegetable) के साथ सीमित हैं। इसलिए, यह एक निश्चित केस है; इस प्रकार, उनके बीच सभी संभावित निष्कर्ष सत्य नहीं हैं। इसलिए, निष्कर्ष अनुसरण नहीं करता है।

II. कोई अॅपल(apple) व्हेजिटेबल(vegetable) नहीं है – यहाँ, अॅपल(apple) और व्हेजिटेबल(vegetable) के बीच एक नकारात्मक प्रतिबंध है। इसलिए उनके बीच सभी निश्चित निष्कर्ष सत्य हैं। इसलिए, निष्कर्ष अनुसरण करता है।

Q. 74

Study the following statements and then decide which of the given conclusions logically follows from the given statements, disregarding the commonly known facts.

निम्नलिखित कथनों का अध्ययन करें और फिर निर्णय लें कि दिए गए निष्कर्षों में से कौन सा सामान्य ज्ञात तथ्यों को नजरअंदाज करते हुए दी गए कथनों का तार्किक रूप से अनुसरण करता है।

Statements:

Only a few cars are bus.

No bus is a train.

Conclusions:

I. Some trains being cars is a possibility.

II. Some cars are trains.

कथन:

केवल कुछ कार(car) बस(bus) हैं।

कोई बस(bus) ट्रेन(train) नहीं है।

निष्कर्ष:

I. कुछ ट्रेन(train) का कार(car) होना एक संभावना है।

II. कुछ कार(car) ट्रेन(train) हैं।

A) Only conclusion II follows केवल निष्कर्ष II अनुसरण करता है।

B) Either conclusion I or II follows या तो निष्कर्ष I या II अनुसरण करता है।

C) Both conclusions I and II follow दोनों निष्कर्ष I और II अनुसरण करते हैं।

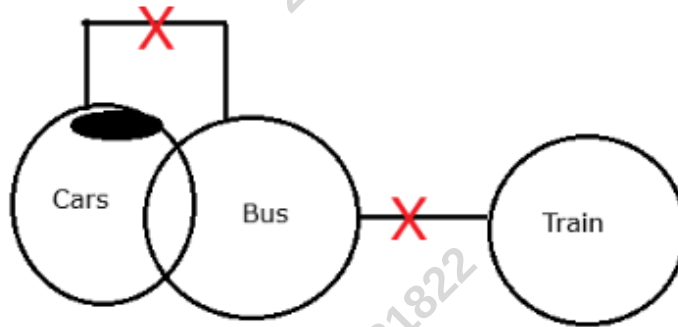

D) Neither conclusion I nor II follows न तो निष्कर्ष I और ना ही II अनुसरण करता है।

E) Only conclusion I follows केवल निष्कर्ष I अनुसरण करता है।

Answer: E

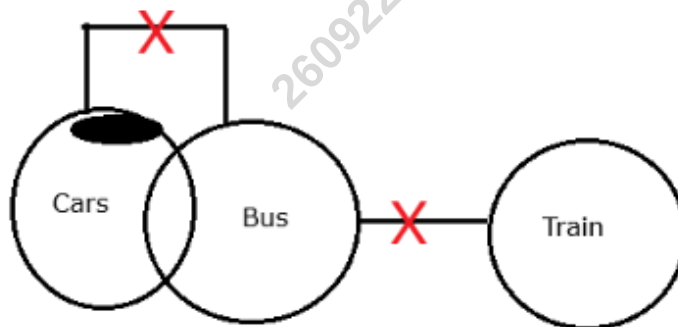

I. Some trains being cars is a possibility –Here, there is no direct relation between Trains and Cars. So all the possible conclusions between them are true. Hence, the conclusion follows.

II. Some cars are trains– Here, there is no direct relation between Cars and Trains. So all the definite conclusions between them are not true. Hence, the conclusion does not follow.

Explanation:

उत्तर: E

I. कुछ ट्रेन(train) का कार(car) होना एक संभावना है – यहाँ, ट्रेन(train) और कार(car) के बीच कोई सीधा संबंध नहीं है। इसलिए उनके बीच सभी संभावित निष्कर्ष सत्य हैं। अतः, निष्कर्ष अनुसरण करता है।

II. कुछ कार(car) ट्रेन(train) हैं – यहाँ, कार(car) और ट्रेन(train) के बीच कोई सीधा संबंध नहीं है। इसलिए उनके बीच सभी निश्चित निष्कर्ष सत्य नहीं हैं। अतः, निष्कर्ष अनुसरण नहीं करता है।

Q. 75

Study the following information carefully and answer the given questions.

Seven boxes viz. P, Q, R, S, T, U and V are kept one above another. It is assumed that no other boxes are kept other than the given boxes.

As many boxes are kept above box P as below box P. Only two boxes are kept between box P and box Q. Box R is kept immediately below box T. Neither box R nor box T is kept adjacent to box Q or box P. Only three boxes are kept between box T and box U. Box V is kept above box S but below box U.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात बॉक्स, अर्थात् P, Q, R, S, T, U और V, एक के ऊपर एक रखे गए हैं। यह माना जाता है कि दिए गए बॉक्स के अलावा कोई अन्य बॉक्स नहीं रखे गए हैं।

जितने बॉक्स बॉक्स P के ऊपर रखे गए हैं उतने ही बॉक्स P के नीचे रखे गए हैं। बॉक्स P और बॉक्स Q के बीच केवल दो बॉक्स रखे गए हैं। बॉक्स R, बॉक्स T के तत्काल नीचे रखा गया है। न तो बॉक्स R और ना ही बॉक्स T, बॉक्स Q या बॉक्स P के आसन्न रखा गया है। बॉक्स T और बॉक्स U के बीच केवल तीन बॉक्स रखे गए हैं। बॉक्स V, बॉक्स S के ऊपर लेकिन बॉक्स U के नीचे रखा गया है।

Which of the following boxes is kept at the second position from the bottom?

निम्नलिखित में से कौन सा बॉक्स नीचे से दूसरे स्थान पर रखा गया है?

A) Box S बॉक्स S

B) Box T बॉक्स T

C) Box U बॉक्स U

D) Box Q बॉक्स Q

E) Box R बॉक्स R

Explanation:**Final arrangement:**

Box
Q
U
V
P
S

Study the following information carefully and answer the given questions.

Seven boxes viz. P, Q, R, S, T, U and V are kept one above another. It is assumed that no other boxes are kept other than the given boxes.

As many boxes are kept above box P as below box P. Only two boxes are kept between box P and box Q. Box R is kept immediately below box T. Neither box R nor box T is kept adjacent to box Q or box P. Only three boxes are kept between box T and box U. Box V is kept above box S but below box U.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात बॉक्स, अर्थात् P, Q, R, S, T, U और V, एक के ऊपर एक रखे गए हैं। यह माना जाता है कि दिए गए बॉक्स के अलावा कोई अन्य बॉक्स नहीं रखे गए हैं।

जितने बॉक्स बॉक्स P के ऊपर रखे गए हैं उतने ही बॉक्स P के नीचे रखे गए हैं। बॉक्स P और बॉक्स Q के बीच केवल दो बॉक्स रखे गए हैं। बॉक्स R, बॉक्स T के तत्काल नीचे रखा गया है। न तो बॉक्स R और ना ही बॉक्स T, बॉक्स Q या बॉक्स P के आसन्न रखा गया है। बॉक्स T और बॉक्स U के बीच केवल तीन बॉक्स रखे गए हैं। बॉक्स V, बॉक्स S के ऊपर लेकिन बॉक्स U के नीचे रखा गया है।

How many boxes are kept between Box S and Box U?

बॉक्स S और बॉक्स U के बीच कितने बॉक्स रखे गए हैं?

- A) Three तीन 
- B) One एक 
- C) More than three तीन से अधिक 
- D) Two दो 
- E) None कोई नहीं 

Explanation:**Final arrangement:**

Box
Q
U
V
P
S
T
R

We have,

- As many boxes are kept above box P as below box P.
- Only two boxes are kept between box P and box Q.

From the above conditions, there are two possibilities.

Case- 1	Case-2
Box	Box
Q	
P	P
	Q

Again we have,

- Box R is kept immediately below box T.
- Neither box R nor box T is kept adjacent to box Q or box P.
- Only three boxes are kept between box T and box U.

Case-1	Case-2
Box	Box
Q	T
U	R
P	P
	U
T	
R	Q

Again, we have

- Box V is kept above box S but below box U.

From the above condition, Case-2 gets eliminated because Box V is kept above box S but below box U is not satisfied. Hence, Case-1 shows the final arrangement.

Case-1	Case-2

Q. 80

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

दिए गए प्रश्नों में, विभिन्न तत्वों के बीच संबंध कथनों में दर्शाया गया है, जिसके बाद दो निष्कर्ष दिए गए हैं। वह निष्कर्ष ज्ञात कीजिए जो निश्चित रूप से सत्य है।

Statement:

$A > B > C > D < E$

Conclusions

I. $A > D$

II. $B < E$

कथन:

$A > B > C > D < E$

निष्कर्ष

I. $A > D$

II. $B < E$

A) Only conclusion I is true केवल निष्कर्ष I सत्य है ✓

B) Either conclusion I or II is true या तो निष्कर्ष I या II सत्य है ✗

C) Both conclusions I and II are true दोनों निष्कर्ष I और II सत्य हैं ✗

D) Only conclusion II is true केवल निष्कर्ष II सत्य है ✗

E) Neither conclusion I nor II is true न तो निष्कर्ष I और ना ही II सत्य है ✗

Answer: A

I. $A > D$ ($A > B > C > D$) --> True

II. $B < E$ ($B > C > D < E$) --> False

Explanation:

उत्तर: A

I. $A > D$ ($A > B > C > D$) --> सत्य

II. $B < E$ ($B > C > D < E$) --> असत्य

Q. 81

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

दिए गए प्रश्नों में, विभिन्न तत्वों के बीच संबंध कथनों में दर्शाया गया है, जिसके बाद दो निष्कर्ष दिए गए हैं। वह निष्कर्ष ज्ञात कीजिए जो निश्चित रूप से सत्य है।

Statement:

$$Q < L < A > M = K > E$$

Conclusions

I. $K < L$

II. $Q < E$

कथन:

$$Q < L < A > M = K > E$$

निष्कर्ष

I. $K < L$

II. $Q < E$

A) Only conclusion II is true केवल निष्कर्ष II सत्य है ✗

B) Either conclusion I or II is true या तो निष्कर्ष I या II सत्य है ✗

C) Both conclusions I and II are true दोनों निष्कर्ष I और II सत्य हैं ✗

D) Only conclusion I is true केवल निष्कर्ष I सत्य है ✗

E) Neither conclusion I nor II is true न तो निष्कर्ष I और ना ही II सत्य है ✓

Answer: E

I. $K < L$ ($K = M < A > L$) --> False

II. $Q < E$ ($Q < L < A > M = K > E$) --> False

Explanation:

उत्तर: E

I. $K < L$ ($K = M < A > L$) --> असत्य

II. $Q < E$ ($Q < L < A > M = K > E$) --> असत्य

Q. 82

In the given questions, the relationship between different elements is shown in the statements followed by two conclusions. Find the conclusion which is definitely true.

दिए गए प्रश्नों में, विभिन्न तत्वों के बीच संबंध कथनों में दर्शाया गया है, जिसके बाद दो निष्कर्ष दिए गए हैं। वह निष्कर्ष ज्ञात कीजिए जो निश्चित रूप से सत्य है।

Statement:

$X < M < D > T = R < W < Z$

Conclusions

I. $D > X$

II. $T < Z$

कथन:

$X < M < D > T = R < W < Z$

निष्कर्ष

I. $D > X$

II. $T < Z$

A) Both conclusions I and II are true निष्कर्ष I और II दोनों सत्य हैं ✓

B) Either conclusion I or II is true या तो निष्कर्ष I या II सत्य है ✗

C) Only conclusion II is true केवल निष्कर्ष II सत्य है ✗

D) Only conclusion I is true केवल निष्कर्ष I सत्य है ✗

E) Neither conclusion I nor II is true न तो निष्कर्ष I और ना ही II सत्य है ✗

Explanation:

Answer: A

I. $D > X$ ($D > M > X$) --> True

II. $T < Z$ ($T = R < W < Z$) --> True

उत्तर: A

I. $D > X$ ($D > M > X$) --> सत्य

II. $T < Z$ ($T = R < W < Z$) --> सत्य

Q. 83

Study the following information carefully and answer the given questions.

Seven persons A, B, C, D, E, F and G went on a family trip in different months viz., January, March, April, May, June, July and August of the same year.

A went in the month which has an even number of days. Only three persons went

between A and B. D went immediately after A. As many persons went before B as after

E. G went immediately after F, who went in a month which has 31 days.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात व्यक्ति A, B, C, D, E, F और G एक ही वर्ष के अलग-अलग महीनों, अर्थात् जनवरी, मार्च, अप्रैल, मई, जून, जुलाई और अगस्त में पारिवारिक यात्रा पर जाते हैं।

A उस महीने में जाता है जिसमें दिनों की संख्या सम थी। A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं। D, A के तत्काल बाद जाता है। जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं। G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

Who among the following persons went on a trip in the month of August?

निम्नलिखित में से कौन अगस्त महीने में यात्रा पर जाता है?

A) E E 

B) B B 

C) C C 

D) D D 

E) A A 

Explanation:**Final arrangement:**

Month	Person
January	B
March	F
April	G
May	C
June	A
July	D
August	E

We have,

- A went in the month which has an even number of days.
- Only three persons went between A and B.

From the above conditions, there are two possibilities.

Month	Case 1	Case 2
	Person	Person
January		B
March		
April	A	
May		
June		A
July		
August	B	

Again, we have

- D went immediately after A.
- As many persons went before B as went after E.

Month	Case 1	Case 2
	Person	Person
January	E	B
March		
April	A	
May	D	
June		A
July		D
August	B	E

Again we have,

- G went immediately after F who went in a month which has 31 days.

From the above conditions Case-1 **gets eliminated** because G went immediately after F, who went in a month which has 31 days is not satisfied. Hence, Case-2 shows the final arrangement.

Month	Case 1	Case 2
	Person	Person
January	E	B
March	C	F
April	A	G
May	D	C
June	F	A
July	G	D
August	B	E

Answer: A

अंतिम व्यवस्था:

महीना	व्यक्ति
जनवरी	B
मार्च	F
अप्रैल	G
मई	C
जून	A
जुलाई	D
अगस्त	E

हमारे पास है,

- A उस महीने में जाता है जिसमें दिनों की संख्या सम थी ।
- A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी		B
मार्च		
अप्रैल	A	
मई		
जून		A
जुलाई		
अगस्त	B	

फिर से, हमारे पास है

- D, A के तत्काल बाद जाता है ।
- जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी	E	B
मार्च		
अप्रैल	A	
मई	D	
जून		A
जुलाई		D
अगस्त	B	E

फिर से हमारे पास है,

- G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

उपरोक्त शर्तों से केस-1 समाप्त हो जाता है क्योंकि G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है, जो संतुष्ट नहीं है।

इसलिए, केस-2 अंतिम व्यवस्था को दर्शाता है।

महीना	केस 1	केस 2

उत्तर: D

Q. 85

Study the following information carefully and answer the given questions.

Seven persons A, B, C, D, E, F and G went on a family trip in different months viz., January, March, April, May, June, July and August of the same year.

A went in the month which has an even number of days. Only three persons went

between A and B. D went immediately after A. As many persons went before B as after

E. G went immediately after F, who went in a month which has 31 days.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात व्यक्ति A, B, C, D, E, F और G एक ही वर्ष के अलग-अलग महीनों, अर्थात् जनवरी, मार्च, अप्रैल, मई, जून, जुलाई और अगस्त में पारिवारिक यात्रा पर जाते हैं।

A उस महीने में जाता है जिसमें दिनों की संख्या सम थी। A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं। D, A के तत्काल बाद जाता है। जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं। G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

If a new person H went on a trip in the month exactly between F and B, then which of the following months did H go on a trip?

यदि कोई नया व्यक्ति H, F और B के ठीक बीच के महीने में यात्रा पर जाता है, तो H निम्नलिखित में से किस महीने में यात्रा पर जाता है?

A) May मई

B) October अक्टूबर

C) February फरवरी

D) August अगस्त

E) March मार्च

Explanation:**Final arrangement:**

Month	Person
January	B
March	F
April	G
May	C
June	A
July	D
August	E

We have,

- A went in the month which has an even number of days.
- Only three persons went between A and B.

From the above conditions, there are two possibilities.

Month	Case 1	Case 2
	Person	Person
January		B
March		
April	A	
May		
June		A
July		
August	B	

Again, we have

- D went immediately after A.
- As many persons went before B as went after E.

Month	Case 1	Case 2
	Person	Person
January	E	B
March		
April	A	
May	D	
June		A
July		D
August	B	E

Again we have,

- G went immediately after F who went in a month which has 31 days.

From the above conditions Case-1 **gets eliminated** because G went immediately after F, who went in a month which has 31 days is not satisfied. Hence, Case-2 shows the final arrangement.

Month	Case 1	Case 2
	Person	Person
January	E	B
March	C	F
April	A	G
May	D	C
June	F	A
July	G	D
August	B	E

Answer: C

अंतिम व्यवस्था:

महीना	व्यक्ति
जनवरी	B
मार्च	F
अप्रैल	G
मई	C
जून	A
जुलाई	D
अगस्त	E

हमारे पास है,

- A उस महीने में जाता है जिसमें दिनों की संख्या सम थी ।
- A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी		B
मार्च		
अप्रैल	A	
मई		
जून		A
जुलाई		
अगस्त	B	

फिर से, हमारे पास है

- D, A के तत्काल बाद जाता है ।
- जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी	E	B
मार्च		
अप्रैल	A	
मई	D	
जून		A
जुलाई		D
अगस्त	B	E

फिर से हमारे पास है,

- G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

उपरोक्त शर्तों से केस-1 समाप्त हो जाता है क्योंकि G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है, जो संतुष्ट नहीं है।

इसलिए, केस-2 अंतिम व्यवस्था को दर्शाता है।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी	E	B
मार्च	C	F
अप्रैल	A	G
मई	D	C
जून	F	A
जुलाई	G	D
अगस्त	B	E

उत्तर: C

Q. 86

Study the following information carefully and answer the given questions.

Seven persons A, B, C, D, E, F and G went on a family trip in different months viz., January, March, April, May, June, July and August of the same year.

A went in the month which has an even number of days. Only three persons went

between A and B. D went immediately after A. As many persons went before B as after

E. G went immediately after F, who went in a month which has 31 days.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात व्यक्ति A, B, C, D, E, F और G एक ही वर्ष के अलग-अलग महीनों, अर्थात् जनवरी, मार्च, अप्रैल, मई, जून, जुलाई और अगस्त में पारिवारिक यात्रा पर जाते हैं।

A उस महीने में जाता है जिसमें दिनों की संख्या सम थी। A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं। D, A के तत्काल बाद जाता है। जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं। G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

अंतिम व्यवस्था के आधार पर निम्नलिखित पाँच में से चार एक निश्चित तरीके से समान हैं और इस प्रकार एक समूह बनाते हैं। निम्नलिखित में से कौन सा समूह से संबंधित नहीं है?

A) F F 

B) G G 

C) C C 

D) D D 

E) E E 

Explanation:**Final arrangement:**

Month	Person
January	B
March	F
April	G
May	C
June	A
July	D
August	E

We have,

- A went in the month which has an even number of days.
- Only three persons went between A and B.

From the above conditions, there are two possibilities.

Month	Case 1	Case 2
	Person	Person
January		B
March		
April	A	
May		
June		A
July		
August	B	

Again, we have

- D went immediately after A.
- As many persons went before B as went after E.

Month	Case 1	Case 2
	Person	Person
January	E	B
March		
April	A	
May	D	
June		A
July		D
August	B	E

Again we have,

- G went immediately after F who went in a month which has 31 days.

From the above conditions Case-1 **gets eliminated** because G went immediately after F, who went in a month which has 31 days is not satisfied. Hence, Case-2 shows the final arrangement.

Month	Case 1	Case 2
	Person	Person
January	E	B
March	C	F
April	A	G
May	D	C
June	F	A
July	G	D
August	B	E

Answer: B (In all other options, person went on a trip in a month having 31 days, except option b)

अंतिम व्यवस्था:

महीना	व्यक्ति
जनवरी	B
मार्च	F
अप्रैल	G
मई	C
जून	A
जुलाई	D
अगस्त	E

हमारे पास है,

- A उस महीने में जाता है जिसमें दिनों की संख्या सम थी ।
- A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी		B
मार्च		
अप्रैल	A	
मई		
जून		A
जुलाई		
अगस्त	B	

फिर से, हमारे पास है

- D, A के तत्काल बाद जाता है ।
- जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी	E	B
मार्च		
अप्रैल	A	
मई	D	
जून		A
जुलाई		D
अगस्त	B	E

फिर से हमारे पास है,

- G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

उपरोक्त शर्तों से केस-1 समाप्त हो जाता है क्योंकि G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है, जो संतुष्ट नहीं है।

इसलिए, केस-2 अंतिम व्यवस्था को दर्शाता है।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी	E	B
मार्च	C	F
अप्रैल	A	G
मई	D	C
जून	F	A
जुलाई	G	D
अगस्त	B	E

उत्तर: B (विकल्प b को छोड़कर, अन्य सभी विकल्पों में, व्यक्ति 31 दिनों वाले महीने में यात्रा पर जाते हैं।)

Q. 87

Study the following information carefully and answer the given questions.

Seven persons A, B, C, D, E, F and G went on a family trip in different months viz., January, March, April, May, June, July and August of the same year.

A went in the month which has an even number of days. Only three persons went between A and B. D went immediately after A. As many persons went before B as after E. G went immediately after F, who went in a month which has 31 days.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

सात व्यक्ति A, B, C, D, E, F और G एक ही वर्ष के अलग-अलग महीनों, अर्थात् जनवरी, मार्च, अप्रैल, मई, जून, जुलाई और अगस्त में पारिवारिक यात्रा पर जाते हैं।

A उस महीने में जाता है जिसमें दिनों की संख्या सम थी। A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं। D, A के तत्काल बाद जाता है। जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं। G, F के तत्काल बाद जाता है, जो 31 दिनों वाले महीने में यात्रा पर जाता है।

Which of the following statement(s) is/are TRUE regarding F as per the final arrangement?

अंतिम व्यवस्था के अनुसार F के संबंध में निम्नलिखित में से कौन सा/से कथन सत्य है/हैं?

- | | | |
|---|---|---|
| A) F went on a trip in the month having even number of days | F सम दिनों वाले महीने में यात्रा पर जाता है। |  |
| B) Only two persons went on a trip between F and C | F और C के बीच केवल दो व्यक्ति यात्रा पर जाते हैं। |  |
| C) F went on a trip two months before C | F, C से दो महीने पहले यात्रा पर जाता है। |  |
| D) F went on a trip immediately after D | F, D के तत्काल बाद यात्रा पर जाता है। |  |
| E) None of the statements are true | कोई भी कथन सत्य नहीं है। |  |

Explanation:**Final arrangement:**

Month	Person
January	B
March	F
April	G
May	C
June	A
July	D
August	E

We have,

- A went in the month which has an even number of days.
- Only three persons went between A and B.

From the above conditions, there are two possibilities.

Month	Case 1	Case 2
	Person	Person
January		B
March		
April	A	
May		
June		A
July		
August	B	

Again, we have

- D went immediately after A.
- As many persons went before B as went after E.

Month	Case 1	Case 2
	Person	Person
January	E	B
March		
April	A	
May	D	
June		A
July		D
August	B	E

Again we have,

- G went immediately after F who went in a month which has 31 days.

From the above conditions Case-1 **gets eliminated** because G went immediately after F, who went in a month which has 31 days is not satisfied. Hence, Case-2 shows the final arrangement.

Month	Case 1	Case 2
	Person	Person
January	E	B
March	C	F
April	A	G
May	D	C
June	F	A
July	G	D
August	B	E

Answer: C

अंतिम व्यवस्था:

महीना	व्यक्ति
जनवरी	B
मार्च	F
अप्रैल	G
मई	C
जून	A
जुलाई	D
अगस्त	E

हमारे पास है,

- A उस महीने में जाता है जिसमें दिनों की संख्या सम थी ।
- A और B के बीच केवल तीन व्यक्ति यात्रा पर जाते हैं ।

उपरोक्त शर्तों से, दो संभावनाएं हैं ।

महीना	केस 1	केस 2
	व्यक्ति	व्यक्ति
जनवरी		B
मार्च		
अप्रैल	A	
मई		
जून		A
जुलाई		
अगस्त	B	

फिर से, हमारे पास है

- D, A के तत्काल बाद जाता है ।
- जितने व्यक्ति B से पहले जाते हैं उतने ही व्यक्ति E के बाद जाते हैं ।

अगस्त	B	E

उत्तर: C

Q. 88

Study the following information carefully and answer the given questions.

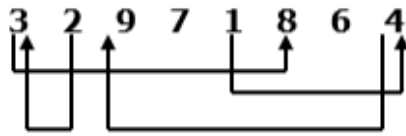

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

How many such pairs of digits are there in the number "32971864", each of which has as many digits between them as there are in the number series (in both forward and backward directions)?

संख्या "32971864" में अंकों के ऐसे कितने जोड़े हैं, जिनमें से प्रत्येक के बीच उतने ही अंक हैं जितने कि संख्या श्रृंखला में (आगे और पीछे दोनों दिशाओं में) उनके बीच हैं?

- A) Three तीन ✗
- B) One एक ✗
- C) More than three तीन से अधिक ✓
- D) Two दो ✗
- E) None कोई नहीं ✗

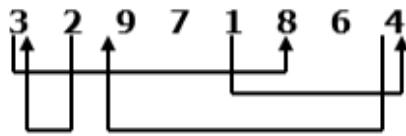

Answer: C

Four pairs of numbers formed (3-8, 1-4, 4-9, 2-3)

Explanation:

उत्तर: C

संख्याओं के चार जोड़े बनते हैं (3-8, 1-4, 4-9, 2-3)

Q. 89

Study the following information carefully and answer the given questions.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

If all the letters of the given word "WONDERLAND" are arranged in the alphabetical order from the left end, then how many letters remain unchanged in their positions?

यदि दिए गए शब्द "WONDERLAND" के सभी अक्षरों को बाएं छोर से वर्णमाला क्रम में व्यवस्थित किया जाए, तो कितने अक्षर अपनी स्थिति में अपरिवर्तित रहते हैं?

- A) Three तीन ✗
- B) One एक ✗
- C) More than three तीन से अधिक ✗
- D) Two दो ✗
- E) None कोई नहीं ✓

Answer: E

Given Word: WONDERLAND

If all the letters of the given word "WONDERLAND" are arranged in the alphabetical order from the left end, then

Required Word: ADDELNNORW

By comparing the required word with the given word no letter is unchanged.

Explanation:

उत्तर: E

दिया गया शब्द: WONDERLAND

यदि दिए गए शब्द "WONDERLAND" के सभी अक्षरों को बाएं छोर से वर्णानुक्रम में व्यवस्थित किया जाए, तो

आवश्यक शब्द: ADDELNNORW

दिए गए शब्द से आवश्यक शब्द की तुलना करने पर कोई भी अक्षर अपरिवर्तित नहीं रहता है।

Q. 90

Study the following information carefully and answer the given questions.

A certain number of people are sitting in a linear row, and all of them are facing north. C sits third from the right end of the row. Only one person sits between C and G, who sits fifth to the right of D. As many persons sit between D and G as between D and F who sits at an extreme end. H sits exactly between F and C and sits to the right of D.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

एक निश्चित संख्या में कुछ व्यक्ति एक रैखिक पंक्ति में बैठे हैं और सभी उत्तर की ओर मुख करते हैं।

C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है। C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है। जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है। H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

How many people are sitting in the row as per the final arrangement?

अंतिम व्यवस्था के अनुसार पंक्ति में कितने व्यक्ति बैठे हैं?

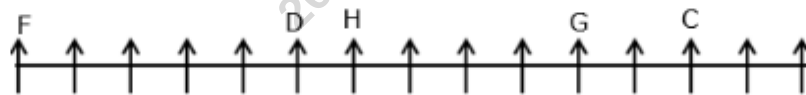

A) 17 17 ✗

B) 15 15 ✓

C) 16 16 ✗

D) 11 11 ✗

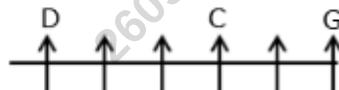

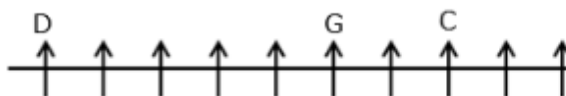

E) 13 13 ✗

Explanation:**Final arrangement:**

We have,

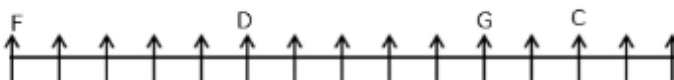

- C sits third from the right end of the row.
- Only one person sits between C and G who sits fifth to the right of D.

From the above conditions, there are two possibilities.

Case 1**Case 2**

Again, we have

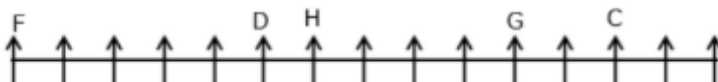

- As many persons sit between D and G as between D and F, who sits at an extreme end.

Case 1**Case 2**

Again, we have

- H sits exactly between F and C and sits to the right of D.

From the above conditions, Case-1 gets eliminated because H sits exactly between F and C and sits to the right of D is not satisfied. Hence, Case-2 shows the final arrangement.

~~**Case 1**~~**Case 2**

Answer: B

अंतिम व्यवस्था:

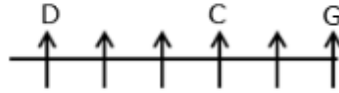

हमारे पास है,

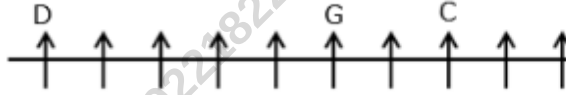

- C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है।
- C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है।

उपरोक्त शर्तों से, दो संभावनाएँ हैं।

Case 1

Case 2

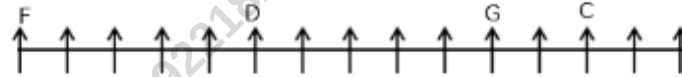

फिर से, हमारे पास है

- जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है।

Case 1

Case 2

फिर से, हमारे पास है

- H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

उपरोक्त शर्तों से, केस-1 समाप्त हो जाती है क्योंकि H, F और C के ठीक बीच में और D के दाईं ओर बैठा है, जो संतुष्ट नहीं है।

अतः, केस-2 अंतिम व्यवस्था को दर्शाती है।

~~Case 1~~

Case 2

उत्तर: B

Q. 91

Study the following information carefully and answer the given questions.

A certain number of people are sitting in a linear row, and all of them are facing north. C sits third from the right end of the row. Only one person sits between C and G, who sits fifth to the right of D. As many persons sit between D and G as between D and F who sits at an extreme end. H sits exactly between F and C and sits to the right of D.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

एक निश्चित संख्या में कुछ व्यक्ति एक रैखिक पंक्ति में बैठे हैं और सभी उत्तर की ओर मुख करते हैं।

C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है। C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है। जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है। H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

If K is made to sit exactly between H and F, then what is the position of K with respect to G?

यदि K को H और F के ठीक बीच में बैठाया जाए, तो G के संबंध में K की स्थिति क्या होगी?

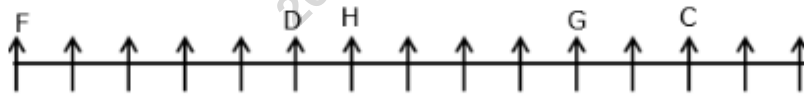

A) Seventh to the left बाएं से सातवाँ

B) Fifth to the right दाएं से पाँचवाँ

C) Immediate right तत्काल दाईं ओर

D) Fifth to the left बाएं से पाँचवाँ

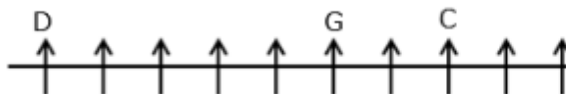

E) Third to the left बाएं से तीसरा

Explanation:**Final arrangement:**

We have,

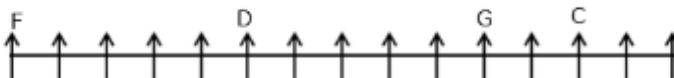

- C sits third from the right end of the row.
- Only one person sits between C and G who sits fifth to the right of D.

From the above conditions, there are two possibilities.

Case 1**Case 2**

Again, we have

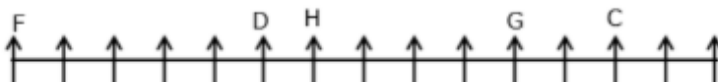

- As many persons sit between D and G as between D and F, who sits at an extreme end.

Case 1**Case 2**

Again, we have

- H sits exactly between F and C and sits to the right of D.

From the above conditions, Case-1 gets eliminated because H sits exactly between F and C and sits to the right of D is not satisfied. Hence, Case-2 shows the final arrangement.

~~**Case 1**~~**Case 2**

Answer: A

अंतिम व्यवस्था:

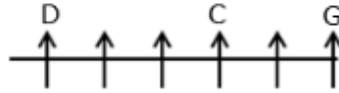

हमारे पास है,

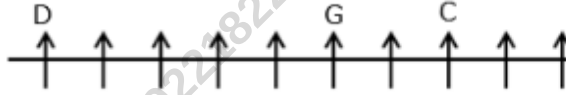

- C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है।
- C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है।

उपरोक्त शर्तों से, दो संभावनाएँ हैं।

Case 1

Case 2

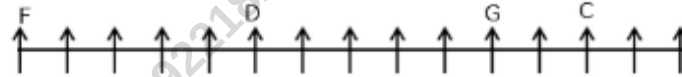

फिर से, हमारे पास है

- जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है।

Case 1

Case 2

फिर से, हमारे पास है

- H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

उपरोक्त शर्तों से, केस-1 समाप्त हो जाती है क्योंकि H, F और C के ठीक बीच में और D के दाईं ओर बैठा है, जो संतुष्ट नहीं है।

अतः, केस-2 अंतिम व्यवस्था को दर्शाती है।

~~Case 1~~

Case 2

उत्तर: A

Q. 92

Study the following information carefully and answer the given questions.

A certain number of people are sitting in a linear row, and all of them are facing north. C sits third from the right end of the row. Only one person sits between C and G, who sits fifth to the right of D. As many persons sit between D and G as between D and F who sits at an extreme end. H sits exactly between F and C and sits to the right of D.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

एक निश्चित संख्या में कुछ व्यक्ति एक रैखिक पंक्ति में बैठे हैं और सभी उत्तर की ओर मुख करते हैं।

C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है। C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है। जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है। H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

Four of the following five are alike in a certain way based on the final arrangement and thus form a group. Which one of the following does not belong to the group?

निम्नलिखित पाँच में से चार अंतिम व्यवस्था के आधार पर एक निश्चित तरीके से समान हैं और इस प्रकार एक समूह बनाते हैं। निम्नलिखित में से कौन सा समूह से संबंधित नहीं है?

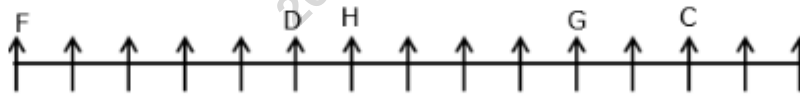

A) D D 

B) H H 

C) G G 

D) F F 

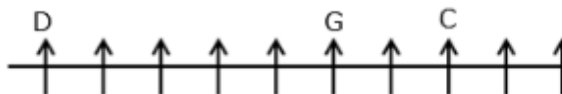

E) C C 

Explanation:**Final arrangement:**

We have,

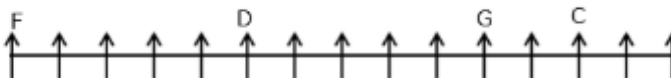

- C sits third from the right end of the row.
- Only one person sits between C and G who sits fifth to the right of D.

From the above conditions, there are two possibilities.

Case 1**Case 2**

Again, we have

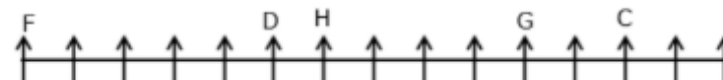

- As many persons sit between D and G as between D and F, who sits at an extreme end.

Case 1**Case 2**

Again, we have

- H sits exactly between F and C and sits to the right of D.

From the above conditions, Case-1 gets eliminated because H sits exactly between F and C and sits to the right of D is not satisfied. Hence, Case-2 shows the final arrangement.

~~**Case 1**~~**Case 2**

Answer: D (In all other options, all are sitting in the middle of the row, except in option d)

अंतिम व्यवस्था:

हमारे पास है,

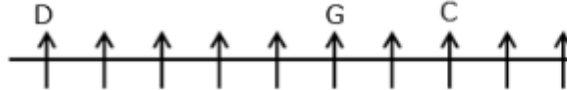

- C पंक्ति के दाएं छोर से तीसरे स्थान पर बैठा है।
- C और G के बीच केवल एक व्यक्ति बैठा है, जो D के दाएं से पाँचवें स्थान पर बैठा है।

उपरोक्त शर्तों से, दो संभावनाएँ हैं।

Case 1

Case 2

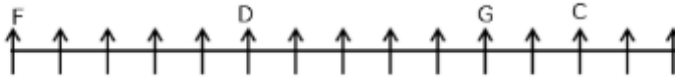

फिर से, हमारे पास है

- जितने व्यक्ति D और G के बीच बैठे हैं उतने ही व्यक्ति D और F के बीच बैठे हैं, जो एक अंतिम छोर पर बैठा है।

Case 1

Case 2

फिर से, हमारे पास है

- H, F और C के ठीक बीच में और D के दाईं ओर बैठा है।

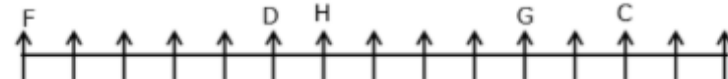

उपरोक्त शर्तों से, केस-1 समाप्त हो जाती है क्योंकि H, F और C के ठीक बीच में और D के दाईं ओर बैठा है, जो संतुष्ट नहीं है।

अतः, केस-2 अंतिम व्यवस्था को दर्शाती है।

~~Case 1~~

Case 2

उत्तर: D (विकल्प d को छोड़कर, अन्य सभी विकल्पों में सभी पंक्ति के मध्य में बैठे हैं)

Q. 93

Study the following information carefully and answer the given questions.

A is the son of D and E is the daughter of A. B is the child of C, who is the mother of E. F is the paternal grandmother of B.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

A, D का बेटा है और E, A की बेटी है। B, C की संतान है, जो E की माँ है। F, B की दादी है।

How is D related to B?

D का B से क्या संबंध है?

A) Cousin चचेरा भाई/बहन

B) Sister बहन

C) Father पिता

D) Uncle चाचा/मामा

E) Grandfather दादा/नाना

Final Arrangement:

$D^+ = F^-$

$A^+ = C^-$

$E^- - B$

Answer: E

Explanation:

अंतिम व्यवस्था:

$D^+ = F^-$

$A^+ = C^-$

$E^- - B$

उत्तर: E

Q. 94

Study the following information carefully and answer the given questions.

A is the son of D and E is the daughter of A. B is the child of C, who is the mother of E. F is the paternal grandmother of B.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

A, D का बेटा है और E, A की बेटी है। B, C की संतान है, जो E की माँ है। F, B की दादी है।

How is C related to F?

C का F से क्या संबंध है?

A) Mother-in-law सास ❌

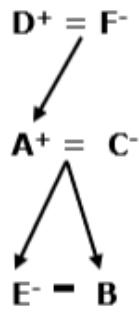

B) Daughter-in-law बहू ✔️

C) Son बेटा ❌

D) Daughter बेटी ❌

E) Granddaughter पोती/नातिन ❌

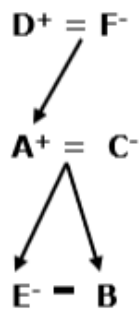

Final Arrangement:

Answer: B

Explanation:

अंतिम व्यवस्था:

उत्तर: B

Q. 95

Study the following information carefully and answer the given questions.

A is the son of D and E is the daughter of A. B is the child of C, who is the mother of E. F is the paternal grandmother of B.

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

A, D का बेटा है और E, A की बेटी है। B, C की संतान है, जो E की माँ है। F, B की दादी है।

How many male members are there in the family?

परिवार में कितने पुरुष सदस्य हैं?

A) One एक

B) Three तीन

C) Two दो

D) More than three तीन से अधिक

E) Cannot be determined निर्धारित नहीं किया जा सकता

Final Arrangement:

$D^+ = F^-$

$A^+ = C^-$

$E^- - B$

Answer: E

Explanation:

अंतिम व्यवस्था:

$D^+ = F^-$

$A^+ = C^-$

$E^- - B$

उत्तर: E

Q. 96

Study the following information carefully and answer the given questions.

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

How many such symbols are there in the given series, each of which is immediately preceded by a number and immediately followed by a letter?

दी गई श्रृंखला में ऐसे कितने प्रतीक हैं, जिनमें से प्रत्येक के तत्काल पहले एक संख्या और तत्काल बाद एक अक्षर है?

A) One एक B) Three तीन C) Two दो D) Four चार E) None कोई नहीं **Answer: C**

Given series : B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

Two such symbols in the series which are immediately preceded by a number and immediately followed by a letter.

Explanation:

उत्तर: C

दी गई श्रृंखला:

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

श्रृंखला में ऐसे दो प्रतीक जिनके तत्काल पहले एक संख्या और तत्काल बाद एक अक्षर है।

Q. 97

Study the following information carefully and answer the given questions.

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

Which of the following elements is the seventh to the left of the twenty-first element from the left end of the given series ?

निम्नलिखित में से कौन सा तत्व दी गई श्रृंखला के बाएं छोर से इक्कीसवें तत्व के बाएं ओर सातवां तत्व है?

A) 4 4 B) = = C) \$ \$ D) S S E) Q Q **Answer: C**

Given series : B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

\$ is the element that is seventh to the left of the twenty-first element from the left end.

Explanation:**उत्तर: C**

दी गई श्रृंखला: B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

\$ वह तत्व है जो बाएं छोर से इक्कीसवें तत्व के बाएं से सातवां है।

Q. 98

Study the following information carefully and answer the given questions.

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

Four of the following five are alike in a certain way based on the given arrangement and thus form a group. Which one of the following does not belong to the group?

निम्नलिखित पांच में से चार दिए गए विन्यास के आधार पर एक निश्चित तरीके से समान हैं और इस प्रकार एक समूह बनाते हैं। निम्नलिखित में से कौन सा समूह से संबंधित नहीं है?

A) M94 M94 ✗

B) SY2 SY2 ✗

C) K*N K*N ✗

D) I%P I%P ✓

E) V@F V@F ✗

Explanation:

Answer: D (In all other options, the order of elements is first-element, second-element and fourth-element except option d)

उत्तर: D (विकल्प d को छोड़कर, अन्य सभी विकल्पों में तत्वों का क्रम पहला-तत्व, दूसरा-तत्व और चौथा-तत्व है)

Q. 99

Study the following information carefully and answer the given questions.

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

If the order of the first 10 elements are reversed, then which of the following will be eighth to the left of the twelfth element from the left end?

यदि पहले 10 तत्वों का क्रम उलट दिया जाए, तो निम्नलिखित में से कौन सा तत्व बाएं छोर से बारहवें तत्व के बाईं ओर आठवाँ होगा?

A) 1 1 B) T T C) E E D) 9 9 E) M M **Answer: E**

Given series : B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

If the first 10 elements are reversed, then

Required series : 4 T 9 M E # 1 H 3 B = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

M is the element that is eighth to the left of the twelfth element from the left end.

Explanation:**उत्तर: E**

दी गई श्रृंखला: B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

यदि पहले 10 तत्वों को उलट दिया जाए, तो

आवश्यक श्रृंखला: 4 T 9 M E # 1 H 3 B = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

M वह तत्व है जो बाएं छोर से बारहवें तत्व के बाएं से आठवाँ है।

Q. 100

Study the following information carefully and answer the given questions.

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

निम्नलिखित जानकारी का ध्यानपूर्वक अध्ययन करें और दिए गए प्रश्नों के उत्तर दें।

B 3 H 1 # E M 9 T 4 = S Y \$ 2 K * C N V @ 7 F O I % P 8 G L A

What is the position of K with respect to the element which is third to the right of E in the given series?

दी गई श्रृंखला में E के दाएं से तीसरे तत्व के संबंध में K की स्थिति क्या है?

- A) Seventh to the left बाएं से सातवाँ ✗
- B) Seventh to the right दाएं से सातवाँ ✓
- C) Eighth to the left बाएं से आठवाँ ✗
- D) Ninth to the right दाएं से नौवाँ ✗
- E) Sixth to the left बाएं से छठा ✗

Answer: B

Explanation:

उत्तर: B
