

RBE SSC CGL Tier-1 Live Mock 23, June 29, 2026

Q. 1	What should come in place of the question mark (?) in the given series? 2606292344 520, 523, 513, 517, 508, 513, 505, ? a) 509  b) 510  c) 511  d) 512 
Explanation:	Explanation: 👉 Pattern: +3, -10, +4, -9, +5, -8, +6... 520 → 523 (+3) 523 → 513 (-10) 513 → 517 (+4) 517 → 508 (-9) 508 → 513 (+5) 513 → 505 (-8) 👉 Next: 505 + 6 = 511
Q. 2	Refer to the following letter series and answer the question that follows. 2606292344 (Left) M P D K A Z Q H T R B C F (Right) How many letters are there in the English alphabetical series between the letter which is second from the right end and second from the left end of the series? a) 11  b) 10  c) 12  d) 9 
Explanation:	Explanation: 👉 Second from left = P 👉 Second from right = C 👉 Alphabet between P and C: D, E, F, G, H, I, J, K, L, M, N, O, = 12 letters

Q. 3	What will come in place of the question mark (?) in the following equation if '+' and '-' are interchanged and 'x' and '÷' are interchanged? $144 \div 6 + 35 \times 5 - 20 = ?$ a) 880  b) 867  c) 877  d) 900 
Explanation:	Explanation: 👉 Replace signs: $144 \times 6 - 35 \div 5 + 20$ 👉 Calculate: $144 \times 6 = 864$ $35 \div 5 = 7$ 👉 $864 - 7 + 20 = 877$
Q. 4	Based on the English alphabetical order, three of the following four letter-clusters are alike in a certain way and thus form a group. Which letter-cluster DOES NOT belong to that group? (Note: The odd one out is not based on the number of consonants/vowels or their position in the letter-cluster.) a) ADG  b) BEH  c) CFI  d) DGL 
Explanation:	Explanation: 👉 Check pattern: ADG → +3, +3 BEH → +3, +3 CFI → +3, +3 👉 DGL → +3, +5  (pattern breaks)

Q. 5

If 1 is added to each odd digit and 2 is subtracted from each even digit in the number 8642753, what will be the difference between the highest and lowest digits in the number thus formed?

a) 8

b) 6

c) 7

d) 5

**Explanation:**

👉 Number: 8 6 4 2 7 5 3

👉 Apply rule:

8 is even $\rightarrow 8 - 2 = 6$ 6 is even $\rightarrow 6 - 2 = 4$ 4 is even $\rightarrow 4 - 2 = 2$ 2 is even $\rightarrow 2 - 2 = 0$ 7 is odd $\rightarrow 7 + 1 = 8$ 5 is odd $\rightarrow 5 + 1 = 6$ 3 is odd $\rightarrow 3 + 1 = 4$

👉 New number: 6 4 2 0 8 6 4

👉 Highest digit = 8

👉 Lowest digit = 0

👉 Difference = $8 - 0 = 8$ **Explanation:**

Q. 6	Replace the question mark (?) in the series given below with suitable options. 13, 31, 57, 91, ? a) 133  b) 129  c) 131  d) 127 
Explanation:	Explanation: 👉 Pattern: +18, +26, +34, +42 (increase by +8) 13 → 31 (+18) 31 → 57 (+26) 57 → 91 (+34) 👉 Next: 91 + 42 = 133
Q. 7	Find the odd one out from the group: a) RED  b) INDIGO  c) VIOLET  d) PINK 
Explanation:	Explanation: 👉 RED, INDIGO, VIOLET → These are VIBGYOR colours (rainbow colours) 👉 PINK → Not included in VIBGYOR

Q. 8

A woman introduced a boy by saying, "He is the son of the only brother of my husband's only sister." How is the boy related to the woman?

a) Son b) Brother c) Nephew d) Cousin 

Explanation:

Explanation:

- 👉 Husband's only sister → Husband has **only one sister**
- 👉 Her **only brother** → That is the **husband himself**
- 👉 Son of husband → **Woman's son**

Q. 9	There are two terms on the left side of the symbol (::) and one term and a question mark on the right side. Choose the alternative that has the same relation with the term on the right side as both the terms on the left side have. Chef : Kitchen :: Judge : ? a) Office  b) Court  c) School  d) Laboratory 
Explanation:	Explanation: 👉 Chef works in a Kitchen 👉 Similarly, Judge works in a Court
Q. 10	Which of the following shows the correct order of the given continents according to their area (largest to smallest)? 1. Asia 2. Australia 3. North America 4. South America 5. Antarctica 6. Europe 7. Africa a) 1, 7, 3, 4, 5, 6, 2  b) 1, 3, 7, 4, 5, 6, 2  c) 7, 1, 3, 4, 5, 6, 2  d) 1, 7, 4, 3, 5, 6, 2 
Explanation:	Explanation: 👉 Correct order (largest → smallest): Asia > Africa > North America > South America > Antarctica > Europe > Australia

Q. 11

Six friends E, F, G, R, S and T are sitting around a circular table facing the centre (but not necessarily in the same order). S sits second to the right of F. F sits second to the right of G. Only F sits between R and E. E is an immediate neighbour of S. How many people sit between T and R when counted from the right of R?

- a) Four ☐
- b) One ☐
- c) Three ☒
- d) Two ☐

Explanation:

3 people sit between T and R when counted from the right of R.

Q. 12

Find out total number of triangles in the given diagram?

- a) 96 ✗
 b) 87 ✗
 c) 97 ✓
 d) 100 ✗

**Explanation:**

For one vertical cutting line:

Number of triangles = $6 + 5 + 4 + 3 + 2 + 1 = 21$

So, for 4 vertical lines:

 $21 \times 4 = 84$ triangles

Now count the remaining triangles outside the fan:

Left-side triangles = 5

Upper-right and lower-right triangles = 2

Large triangles formed by the extended diagonals across the centre = 6

Total triangles:

 $84 + 5 + 2 + 6 = 97$

Q. 13	In a coded language, CAT is coded as C. Then find the code of LAYOUT? a) D  b) F  c) E  d) I 
Explanation:	Explanation: 👉 CAT → 3 letters → code = C 👉 LAYOUT → 6 letters → code = F
Q. 14	Choose the correct order of the groups of words that are in correct dictionary order? - MARBLE, MARKET, MARKER, MARVEL - MARKET, MARBLE, MARVEL, MARKER - MARBLE, MARKER, MARKET, MARVEL - MARBLE, MARKET, MARVEL, MARKER a) 1  b) 2  c) 3  d) 4 
Explanation:	Order alphabetically: MARBLE < MARKER < MARKET < MARVEL 👉 Correct sequence: MARBLE, MARKER, MARKET, MARVEL ✓ Answer: 3

Q. 15

Which of the following shows the correct order of the given words arranged in their logical order from start to end?

1. Enter pin
2. Enter amount
3. Insert card
4. Receive cash

- a) 1234 
- b) 3241 
- c) 3124 
- d) 3142 

Explanation:**Explanation:** ATM process:

Insert card → Enter Pin → Enter Amount → Receive cash

 **Order: 3 → 1 → 2 → 4**

Q. 16

Select the option figure in which the given figure (X) is embedded as its part (rotation is NOT allowed).

a)

b)

c)

d)

Explanation:

Q. 17

Replace the question mark (?) in the series given below with suitable options.

4, 9, 20, 43, ?

a) 86 ☒

b) 88 ☒

c) 90 ☒

d) 92 ☒

Explanation:

👉 Pattern: $\times 2 + 1$, $\times 2 + 2$, $\times 2 + 3$, $\times 2 + 4$

$4 \rightarrow 9 (\times 2 + 1)$

$9 \rightarrow 20 (\times 2 + 2)$

$20 \rightarrow 43 (\times 2 + 3)$

👉 Next:

$43 \times 2 + 4 = 90$

Explanation:

Q. 18

A paper is folded and punched as shown below. How will it appear when unfolded?

a)

✗

b)

✗

c)

✓

d)

✗

Explanation:

Q. 19	In a row of students, R is 14th from the left end and 26th from the right end. If S is standing exactly in the middle of the row, what is his position? (Assume all students are facing the same direction.) a) 20th  b) 19th  c) 21st  d) 18th 
Explanation:	Explanation: 👉 Formula: Total students = Left position + Right position – 1 👉 Total = 14 + 26 – 1 = 39 👉 Middle position formula: $(Middle) = \frac{Total + 1}{2} = \frac{39 + 1}{2} = 20th$
Q. 20	A clock is rotated 180° clockwise. If the hour hand points at 3, where will it point after rotation? a) 6  b) 9  c) 8  d) 12 
Explanation:	Explanation: 👉 180° rotation = opposite direction 👉 Opposite of 3 on clock = 9 ✓ Answer: 9

Q. 21

In the word HOSPITAL, what is the second letter to the right of the 3rd letter from the left?

- a) P 
b) I 
c) T 
d) A 

Explanation:

Explanation:
HOSPITAL

- 👉 3rd from left = S
👉 2nd to the right of S = P → I
✓ **Answer: I**

Q. 22

Find the missing term in the series:
105, 100, 90, 75, ?, 30

- a) 40 
b) 55 
c) 60 
d) 45 

Explanation:

Explanation:
👉 Pattern: decreasing differences
 $105 \rightarrow 100 = -5$
 $100 \rightarrow 90 = -10$
 $90 \rightarrow 75 = -15$
 $75 \rightarrow ? = -20 \rightarrow 55$
 $55 \rightarrow 30 = -25$
✓ **Answer: 55**

Q. 23

In each of the following questions, a word is represented by only one set of numbers. The set of numbers given in the alternatives represents alphabets as per the given matrix. The row and column are numbered from 0 to 4. Which one of the following sets represents the word LEARN?

MATRIX – I

	0	1	2	3	4
0	B	A	L	L	O
1	O	N	E	R	S
2	L	E	A	R	N
3	A	R	E	A	L
4	N	O	B	L	E

- a) 20, 11, 32, 43, 14 
- b) 20, 21, 22, 23, 24 
- c) 10, 34, 01, 42, 33 
- d) 31, 40, 12, 23, 04 

Explanation:

Explanation:

👉 First we take (Row, Column)

👉 L → (2,0)

👉 E → (2,1)

👉 A → (2,2)

👉 R → (2,3)

👉 N → (2,4)

👉 Code = 20, 21, 22, 23, 24

✓ Answer: B

Q. 24	In each of the following, three groups follow the same pattern while one is different. Find the odd one out. a) 3, 5, 7  b) 11, 13, 17  c) 19, 21, 23  d) 29, 31, 37 
Explanation:	Explanation: • (1) → 3, 5, 7 → All are prime numbers • (2) → 11, 13, 17 → All are prime numbers • (4) → 29, 31, 37 → All are prime numbers • (3) → 19, 21, 23 → 21 is not a prime number ($21 = 3 \times 7$)
Q. 25	If the word SCHOOL is coded as LOOHCS, then the code word for NATION is _____. a) NOITAN  b) NOAITN  c) NAITON  d) NOITNA 
Explanation:	Explanation: • SCHOOL → LOOHCS → Reverse of the word • Same pattern apply; NATION → reverse → NOITAN

Q. 26

Which Mughal Emperor discontinued the practice of 'Jharokha Darshan' and 'Tuladan'?

- a) Akbar 
- b) Jahangir 
- c) Shah Jahan 
- d) Aurangzeb 

 **Correct Answer: Option: Aurangzeb**

Explanation:

- **Jharokha Darshan:** A daily ritual started by **Akbar**, where the emperor appeared at a balcony window to be seen by the public.
- **Tuladan:** A ceremonial practice where the emperor was weighed against gold or other valuables, which were then distributed in charity.
- Both practices symbolized the emperor's divine aura and benevolence.
- **Aurangzeb**, however, considered these practices **un-Islamic** and discontinued them. His reign marked a shift toward stricter religious orthodoxy, unlike his predecessors who embraced syncretic traditions.

 **Why Other Options Are Wrong**

- **Akbar:** Introduced and popularized Jharokha Darshan and Tuladan.
- **Jahangir:** Continued these traditions.
- **Shah Jahan:** Also practiced them, especially Jharokha Darshan.

Q. 27	Which of the following is the CORRECT Statement regarding Kharif crops. 1. Kharif crops are sown with the arrival of the monsoon in June–July and harvested during September–October. 2. These crops depend mainly on rainfall and require warm and humid climatic conditions. 3. Rice, maize, cotton, mustard, and peanuts are common examples of Kharif crops. a) Only 1 and 3  b) Only 2 and 3  c) Only 1 and 2  d) All of these 
Explanation:	The correct statements are 1 and 2. • Statement 1 is correct: Kharif crops are sown at the beginning of the monsoon season (June–July) and harvested in September–October. • Statement 2 is correct: They are rain-fed crops that thrive in warm and humid climates. • Statement 3 is incorrect: While rice, maize, cotton, and peanuts are Kharif crops, mustard is a Rabi (winter) crop, not a Kharif crop.

Q. 28	'Hoagiri' is a traditional folk dance performed in which of the following states? a) Mizoram  b) Tripura  c) Manipur  d) Nagaland 
Explanation:	 Correct Answer: Tripura Explanation: • Hoagiri is a famous folk dance of Tripura, performed by the Reang (Bru) community, one of the tribal groups of the state. • It is performed by women dancers, who balance earthen pitchers, bottles, or other objects on their heads and hands while dancing on a small circular wooden plank. • The dance is accompanied by traditional songs and instruments like the dhol, flute, and cymbals. • It showcases extraordinary balance, skill, and grace, making it one of the most unique tribal dances of India.  Why Other Options Are Wrong • Mizoram: Known for Cheraw (bamboo dance). • Manipur: Famous for Manipuri classical dance and Lai Haraoba. • Nagaland: Known for warrior dances and tribal festivals.

Q. 29	'Mission Utkarsh', is an initiative primarily targeting: a) Eliminating Anaemia  b) EV manufacturing  c) Cyber Security  d) River Rejuvenation 
Explanation:	Mission Utkarsh is an initiative primarily targeting the elimination of anaemia in India, with a focus on improving maternal and child health outcomes. Explanation: • Mission Utkarsh is a health-focused program launched by the Government of India. • Its core objective is to eliminate anaemia, particularly among women, children, and adolescents, who are most vulnerable to iron deficiency. • The program emphasizes: ◦ Nutritional interventions (iron and folic acid supplementation). ◦ Awareness campaigns about balanced diets. ◦ Strengthening healthcare delivery for early detection and treatment. ◦ Community participation to ensure widespread adoption.
Q. 30	Under the Indian Constitution, the 'Residual Powers' of legislation are vested with: a) State Legislatures  b) Union Parliament  c) President of India  d) Supreme Court 
Explanation:	 Correct Answer: Union Parliament Explanation: • Under the Indian Constitution, legislative powers are divided between the Union List, State List, and Concurrent List (Seventh Schedule). • However, there may be subjects not covered in any of these lists. These are called residual subjects. • According to Article 248, the Union Parliament has exclusive power to make laws on such residual matters. • This provision ensures that the Union can legislate on new and unforeseen subjects (e.g., cyber laws, space exploration).

Q. 31

Which Indian state shares a boundary with the maximum number of other states?

a) Madhya Pradesh

b) Chhattisgarh

c) Uttar Pradesh

d) Jharkhand

✓ Correct Answer: Uttar Pradesh

Explanation:

- **Uttar Pradesh** shares its boundary with the **maximum number of Indian states**.
- It borders **9 states**:
 1. Uttarakhand
 2. Himachal Pradesh
 3. Haryana
 4. Delhi
 5. Rajasthan
 6. Madhya Pradesh
 7. Chhattisgarh
 8. Bihar
 9. Jharkhand
- This makes Uttar Pradesh the state with the **highest number of neighboring states** in India.

Explanation:

Q. 32	The 'Bhu-Aadhar' (ULPIN) project aims to provide a unique ID for: a) Electric Vehicle  b) Tenant Farmer  c) Retired Person  d) Land Parcel 
Explanation:	 Correct Answer: Land Parcel Explanation: • The Bhu-Aadhaar project, also known as Unique Land Parcel Identification Number (ULPIN), aims to assign a 14-digit unique ID to every land parcel in India. • It is similar to Aadhaar for individuals, but here it is for land records. • The initiative is part of the Digital India Land Records Modernization Programme (DILRMP). • Benefits include: ◦ Standardized identification of land parcels across the country. ◦ Integration of land records with Aadhaar, banking, and revenue systems. ◦ Reduction of disputes and fraud in land ownership. ◦ Facilitation of transparent land transactions.

Q. 33

Which Committee recommended the 'Three-Tier' Panchayati Raj system in India?

- a) L.M. Singhvi ✗
- b) Ashok Mehta ✗
- c) Balwant Rai Mehta ✓
- d) G.V.K. Rao ✗

✓ **Correct Answer:** Balwant Rai Mehta

Explanation:

- The **Balwant Rai Mehta Committee (1957)** was appointed to examine the working of the Community Development Programme and the National Extension Service.
- It recommended the establishment of a **three-tier Panchayati Raj system**:
 1. **Gram Panchayat** at the village level
 2. **Panchayat Samiti** at the block level
 3. **Zila Parishad** at the district level
- The committee emphasized **democratic decentralization** and suggested that genuine power should be given to local bodies for effective governance.
- Based on its recommendations, **Rajasthan** became the first state to implement Panchayati Raj in 1959, followed by Andhra Pradesh.

✗ **Why Other Options Are Wrong**

- **L.M. Singhvi Committee (1986)**: Recommended constitutional recognition of Panchayati Raj institutions, leading to the 73rd Amendment.
- **Ashok Mehta Committee (1977)**: Recommended a **two-tier system** (district and mandal levels), not three-tier.
- **G.V.K. Rao Committee (1985)**: Focused on strengthening district-level planning and administration, not the original three-tier structure.

Q. 34	The 'Bharatanatyam' dance traditionally starts with which item? a) Tillana  b) Alarippu  c) Jatiswaram  d) Varnam 
Explanation:	Bharatanatyam traditionally starts with Alarippu. Margam Structure: A full Bharatanatyam performance follows the <i>margam</i> sequence, beginning with Alarippu—a pure rhythmic invocation featuring intricate footwork (nritta) without words or expressions. This "flowering" item warms up the dancer and establishes the tala rhythm. Item Details Alarippu precedes Jatiswaram (pure dance), Shabdam (simple narrative), Varnam (central piece), Padam (expressive), and Tillana (rhythmic finale). While some modern shows open with Pushpanjali (offering), traditional margam prioritizes Alarippu.

Q. 35

The 'Losoong' festival is a major New Year celebration in which state?

a) Arunachal Pradesh

b) Nagaland

c) Sikkim

d) Himachal Pradesh

 **Correct Answer:** Sikkim**Explanation:**

- **Losoong Festival** is the **New Year celebration of Sikkim**, observed by the Bhutia community.
- It marks the end of the harvest season and the beginning of the new year according to the **Tibetan lunar calendar**.
- Celebrated in **December**, it involves:
 - Traditional dances like **Chaam (masked dances)** performed in monasteries.
 - Community feasts and social gatherings.
 - Prayers for prosperity and good harvest in the coming year.

Explanation: **Why Other Options Are Wrong**

- **Arunachal Pradesh:** Celebrates festivals like Losar, Solung, and Nyokum, not Losoong.
- **Nagaland:** Known for Hornbill Festival, not Losoong.
- **Himachal Pradesh:** Celebrates festivals like Kullu Dussehra, Minjar, and Losar (Tibetan New Year), but not Losoong.

Q. 36	'Mission Shakti' is an umbrella scheme for which of the following? a) Defense Research  b) Tribal Education  c) Financial Inclusion  d) Women Safety 
Explanation:	 Correct Answer: Women Safety Explanation: • Mission Shakti is an umbrella scheme of the Ministry of Women and Child Development (MWCD) launched in 2021. • It focuses on women safety, security, and empowerment. • The scheme has two sub-schemes: 1. Sambal → For women's safety and security (includes One Stop Centres, Women Helplines, etc.). 2. Samarthya → For women's empowerment (includes schemes like Ujjwala, Swadhar Greh, Working Women Hostels, etc.). • The aim is to provide integrated support and assistance to women in distress and promote their socio-economic empowerment.

Q. 37	Which of the following statements is/are CORRECT? 1. In a closed economy, aggregate demand is always equal to aggregate supply at equilibrium level of income. 2. The marginal propensity to consume (MPC) can be greater than 1 in a rational consumption function. 3. A decrease in statutory liquidity ratio (SLR) increases the lending capacity of commercial banks. a) 1 and 2 Only  b) 1 and 3 only  c) 2 and 3 only  d) All of these 
Explanation:	The correct statements are 1 and 3. • Statement 1 is correct: In the standard macroeconomic model of a closed economy, the equilibrium level of income is defined where Aggregate Demand (AD) = Aggregate Supply (AS). • Statement 2 is incorrect: In a rational consumption function, the Marginal Propensity to Consume (MPC) must lie between 0 and 1. This is because individuals typically spend only a fraction of their additional income on consumption, rather than the entire amount or more. • Statement 3 is correct: The Statutory Liquidity Ratio (SLR) is the portion of deposits banks must keep in liquid assets. A decrease in SLR releases more funds for banks to lend, thereby increasing their lending capacity.

Q. 38

Which of the following is used as a 'Coolant' in Nuclear Reactors?

a) Heavy Water b) Liquid Hydrogen c) Graphite Rods d) Cadmium Rods  **Correct Answer:** Heavy Water**Explanation:**

- In **nuclear reactors**, different materials are used for different purposes:
 - **Coolant:** Transfers heat away from the reactor core.
 - **Moderator:** Slows down neutrons to sustain the chain reaction.
 - **Control Rods:** Absorb excess neutrons to regulate the reaction.
- **Heavy Water (D₂O)** is commonly used both as a **coolant and moderator** in certain types of reactors, especially **Pressurized Heavy Water Reactors (PHWRs)** in India.
- It is effective because it absorbs fewer neutrons compared to ordinary water, allowing the reactor to use **natural uranium** as fuel.

 **Why Other Options Are Wrong**

- **Liquid Hydrogen:** Not used as a coolant in nuclear reactors.
- **Graphite Rods:** Used as a **moderator**, not a coolant.
- **Cadmium Rods:** Used as **control rods** to absorb neutrons, not for cooling.

Q. 39	'V. Satyanarayana Sarma' is a renowned exponent of which dance form? a) Kathakali  b) Kuchipudi  c) Sattriya  d) Odissi 
Explanation:	V. Satyanarayana Sarma was a renowned exponent of Kuchipudi dance. Background: Vedantam Satyanarayana Sarma (1935–2012), known as "Satyam," hailed from Kuchipudi village in Andhra Pradesh and belonged to the famed Vedantam family of dancers. He excelled in portraying female roles like Satyabhama in <i>Bhama Kalapam</i> and Usha in <i>Usha Parinayam</i>, elevating Kuchipudi globally. Achievements: Sarma received the Sangeet Natak Akademi Award (1961, first for Kuchipudi), Akademi Ratna (1967), Padma Shri (1970), and Kalidas Samman (1988). He trained under his brother and performed internationally.
Q. 40	Which channel separates the Andaman Islands from the Nicobar Islands? a) 8 Degree Channel  b) 9 Degree Channel  c) 10 Degree Channel  d) 11 Degree Channel 
Explanation:	 Correct Answer: 10 Degree Channel Explanation: - The Andaman Islands and Nicobar Islands are separated by the 10° Channel (Ten Degree Channel). - This channel lies between Little Andaman (southernmost of Andamans) and Car Nicobar (northernmost of Nicobars). - It is about 150 km wide and serves as a significant maritime passage in the Bay of Bengal. - The Andaman group lies to the north, while the Nicobar group lies to the south of this channel.

Q. 41	Which of the following is the main component of 'Natural Gas' (CNG)? a) Methane  b) Ethane  c) Propane  d) Butane 
Explanation:	 Correct Answer: Methane Explanation: • The main component of Natural Gas (CNG – Compressed Natural Gas) is Methane (CH₄), usually making up 70–90% of its composition. • Methane is a clean-burning fuel, producing fewer pollutants compared to coal or petroleum. • Other hydrocarbons like ethane, propane, and butane may be present in small amounts, but methane dominates. • CNG is widely used as an eco-friendly alternative fuel in vehicles, reducing carbon emissions and improving air quality.

Q. 42	Which of the following is an example of a 'Direct Tax' in India? a) Goods and Services Tax  b) Excise Duty  c) Corporation Tax  d) Customs Duty 
Explanation:	 Correct Answer: Corporation Tax Explanation: • A Direct Tax is one that is levied directly on individuals or organizations and cannot be shifted to others. • Corporation Tax is a direct tax because it is imposed directly on the income/profits of companies in India. • The burden of this tax falls on the company itself, and it cannot be passed on to consumers.  Why Other Options Are Wrong • Goods and Services Tax (GST): An indirect tax, levied on consumption and passed on to consumers. • Excise Duty: An indirect tax, charged on the manufacture of goods. • Customs Duty: An indirect tax, imposed on imports and exports.

Q. 43

The 'Work-Energy Theorem' states that the work done on an object is equal to:

- a) Power 
- b) Kinetic Energy 
- c) Momentum 
- d) Potential Energy 

 **Correct Answer:** Kinetic Energy

Explanation

- The **Work-Energy Theorem** states that:

$$W = \Delta KE$$

- That is, the **work done (W)** on an object is equal to the **change in its kinetic energy (ΔKE)**.
- If a force is applied to an object and it moves, the work done by that force results in either an **increase or decrease in kinetic energy** depending on the direction of force relative to motion.

Q. 44

The 'Dara Shikoh' translated the Upanishads into Persian under the title of:

- a) Kitab-ul-Hind ✗
- b) Safinat-ul-Auliya ✗
- c) Muntakhab-ul-Lubab ✗
- d) Sirr-i-Akbar ✓

✓ Correct Answer: Sirr-i-Akbar

Explanation:

- **Dara Shikoh**, the eldest son of Mughal Emperor Shah Jahan, was deeply interested in **comparative religion and mysticism**.
- He translated the **Upanishads** (ancient Hindu philosophical texts) into **Persian** under the title "**Sirr-i-Akbar**" (**The Greatest Mystery**).
- His aim was to highlight the **common spiritual essence** between Hinduism and Islam, particularly Sufism.
- This work later became significant in Europe as it was translated into Latin and helped introduce Indian philosophy to the West.

✗ Why Other Options Are Wrong

- **Kitab-ul-Hind**: Written by Al-Biruni, not Dara Shikoh.
- **Safinat-ul-Auliya**: A biographical work on Sufi saints, authored by Dara Shikoh, but not related to the Upanishads.
- **Muntakhab-ul-Lubab**: A historical chronicle written by Khafi Khan, not Dara Shikoh.

Q. 45	Disguised Unemployment' is a phenomenon primarily observed in: a) Service Sector  b) Industrial Sector  c) Agriculture Sector  d) Banking Sector 
Explanation:	 Correct Answer: Agriculture Sector Explanation: • Disguised Unemployment refers to a situation where more people are employed than actually required, and their marginal productivity is zero. • It is most commonly observed in the Agriculture Sector in India, especially in rural areas. • Example: If a piece of land requires 5 workers but 8 are working, the extra 3 workers are disguisedly unemployed—their removal would not affect output. • This phenomenon is linked to underemployment and low productivity in subsistence farming.
Q. 46	Which part of the flower becomes the 'Fruit' after the fertilization process? a) Stigma  b) Ovule  c) Style  d) Ovary 
Explanation:	 Correct Answer: Ovary Explanation: • In flowering plants, after fertilization, the ovary develops into the fruit. • The ovules inside the ovary become the seeds. • This transformation ensures protection and dispersal of seeds, which is essential for reproduction.  Why Other Options Are Wrong • Stigma: Receives pollen, does not develop into fruit. • Style: Connects stigma to ovary, remains as a supporting structure. • Ovule: Becomes the seed, not the fruit.

Q. 47	The 'Sun Temple' of Konark was built by which king of the Eastern Ganga Dynasty? a) Anantavarman  b) Narasimhadeva I  c) Rajaraja Deva  d) Bhanudeva III 
Explanation:	 Correct Answer: Narasimhadeva I Explanation: • The Sun Temple of Konark (Odisha), also known as the Black Pagoda, was built in the 13th century. • It was commissioned by King Narasimhadeva I of the Eastern Ganga Dynasty around 1250 CE. • The temple is designed in the shape of a colossal chariot of the Sun God (Surya), with 12 pairs of stone-carved wheels and seven horses. • It is one of the most celebrated examples of Kalinga architecture and is a UNESCO World Heritage Site.

Q. 48	Which of the following can be amended by a simple majority of the Parliament? a) Fundamental Rights  b) Directive Principles  c) Election of the President  d) Admission of new States 
Explanation:	Admission of new States can be amended by a simple majority of Parliament. Amendment Categories India's Constitution has three amendment types: simple majority (over 50% of members present and voting), special majority (Article 368 requiring 2/3rds), and special plus state ratification. Simple majority applies to non-core provisions outside Article 368, like formation or admission of states under Article 2 and 3. Option Analysis • Fundamental Rights: Require special majority under Article 368. • Directive Principles: Also need special majority. • Election of the President: Covered by special majority provisions. • Admission of new States: Uses simple majority, as with creating Telangana.

Q. 49	The 'Aravalli Range' is an example of which type of mountain system? a) Volcanic Mountains  b) Block Mountains  c) Residual Mountains  d) Young Fold Mountains 
Explanation:	 Correct Answer: Residual Mountains Explanation: - The Aravalli Range, stretching across Rajasthan, Haryana, and parts of Delhi, is one of the oldest mountain ranges in the world. - It is classified as a Residual (or Relict) Mountain system, meaning it was once a fold mountain system formed during the Precambrian era, but has since been worn down by erosion and weathering over millions of years. - Today, only the remnants of those ancient mountains remain, hence the term residual mountains.  Why Other Options Are Wrong Volcanic Mountains: Formed by volcanic activity (e.g., Mt. Kilimanjaro), not applicable to Aravallis. Block Mountains: Formed due to faulting and displacement of earth's crust (e.g., Vindhya, Satpura in India). Young Fold Mountains: Young fold mountains include Himalayas; Aravallis are much older and eroded.

Q. 50	The 'Digital Bharat Nidhi' replaces which of the following? a) Universal Service Obligation Fund  b) Telecom Development Fund  c) National Infrastructure Pipeline Fund  d) Digital India Mission Fund 
Explanation:	 Correct Answer: Universal Service Obligation Fund Explanation: - The Digital Bharat Nidhi (DBN) has been introduced to replace the Universal Service Obligation Fund (USOF). USOF was originally created to provide financial support for extending telecom services to rural and remote areas. - With the evolution of digital needs, the government restructured it into Digital Bharat Nidhi, which now has a broader mandate: - Supporting digital infrastructure development. - Promoting universal access to broadband and digital services. - Enabling innovation and emerging technologies in the digital ecosystem.
Q. 51	What is the value of $2005^2 - 2006 \times 2004 + 2007 \times 2003 - 2008 \times 2002$? a) 5  b) 6  c) 7  d) 8 
Explanation:	Use pattern: $2006 \times 2004 = 2005^2 - 1$ $2007 \times 2003 = 2005^2 - 4$ $2008 \times 2002 = 2005^2 - 9$ Now substitute: $= 2005^2 - (2005^2 - 1) + (2005^2 - 4) - (2005^2 - 9)$ Cancel terms: $= 1 - 4 + 9$ $= 6$

Q. 52

The average score of a group of 12 students on a test is 70. When a second group of 18 students is combined with the first group, the new overall average score becomes 76. What is the average score of the second group of students?

- a) 80 
- b) 82 
- c) 76 
- d) 78 

Explanation:

Let average of second group = x

$$12 \times 70 + 18 \times x = 30 \times 76$$

$$840 + 18x = 2280$$

$$18x = 1440$$

$$x = 80$$

Q. 53

The number of seats for Mathematics, Physics, and Biology in a university are in the proportion 8 : 5 : 9. There is a proposal to increase these seats by 25%, 40%, and 33⅓% respectively. What will be the new proportion of the number of seats for Mathematics, Physics, and Biology?

- a) 10 : 7 : 12 
- b) 12 : 7 : 10 
- c) 10 : 12 : 7 
- d) 7 : 10 : 12 

Explanation:

Start:

8 : 5 : 9

Apply direct factors:

$$8 \times = 10$$

$$5 \times = 7$$

$$9 \times = 12$$

Final Answer: 10 : 7 : 12

Q. 54

After giving two successive discounts each of $x\%$, on the marked price of an article, the total discount is ₹234. If the marked price of the article is ₹650, then the value of x is:

- a) 21% 
- b) 18% 
- c) 15% 
- d) 20% 

MP = 650, total discount = 234

Discount fraction = $\frac{234}{650} = 0.36$

So, $1 - \left(1 - \frac{x}{100}\right)^2 = 0.36$

Explanation:

$$\left(1 - \frac{x}{100}\right)^2 = 0.64$$

$$1 - \frac{x}{100} = 0.8$$

$$\frac{x}{100} = 0.2$$

$$x = 20\%$$

Q. 55

If the median, mode, and range of the data set: 12, 5, 8, 4, 15, 8, 19, 7, 8, 11, 14, 5, 16 are a, b, and c respectively, then find the value of $(2a + 3b - c)$.

a) 25 b) 15 c) 18 d) 28 **Explanation:**

Arrange data:

4, 5, 5, 7, 8, 8, 8, 11, 12, 14, 15, 16, 19

Median (a) = 7th term = 8

Mode (b) = 8 (most frequent)

Range (c) = $19 - 4 = 15$

Now:

$$2a + 3b - c$$

$$= 2 \times 8 + 3 \times 8 - 15$$

$$= 16 + 24 - 15$$

$$= 25$$

Q. 56

The ratio of the present ages of P and Q is 7 : 8. After 6 years, this ratio will become 17 : 19. R is 4 years younger than Q. What is the present age of R?

a) 28

b) 24

c) 32

d) 36

Explanation:

$$P:Q = (7:8) \times 2 = 14:16$$

$$17:19 \quad) 3$$

$$3 \times 2 = 6$$

$$\text{Present age of Q} = 16 \times 2 = 32 \text{ years}$$

$$\text{Present age of R} = 32 - 4 = 28 \text{ years}$$

Q. 57

A boat takes 14 hours to travel downstream from point P to point Q and return to a midpoint R situated between P and Q. The speed of the stream is 4 km/h and the speed of the boat in still water is 12 km/h. Find the distance between P and Q (in km).

- a) 110 km 
b) 112 km 
c) 114 km 
d) 115 km 

Explanation:

Downstream speed = 16 km/h

Upstream speed = 8 km/h

Let PQ = x $\Rightarrow$ PR =

Time P $\rightarrow$ Q = $\frac{x}{16}$

Time Q $\rightarrow$ R = $\frac{\frac{x}{2}}{8} = \frac{x}{16}$

Total time = 14

$$\begin{aligned}\frac{x}{16} + \frac{x}{16} &= 14 \\ &= 14 \\ x &= 112 \text{ km}\end{aligned}$$

Q. 58

P alone can complete a job in 15 days and Q alone in 20 days. P and Q agree to do the work for ₹9000. With R's help, they finish the entire job in 6 days. How much should R be paid?

- a) ₹2400 
- b) ₹1800 
- c) ₹3600 
- d) ₹2700 

Explanation:

$$P = \frac{1}{15}, Q = \frac{1}{20}$$

$$\text{LCM} = 60 \Rightarrow P = 4, Q = 3$$

$$P + Q = 7 \text{ units/day}$$

$$\text{Total work in 6 days} = 60 \text{ units} \Rightarrow 1 \text{ day} = 10 \text{ units}$$

$$R = 10 - 7 = 3 \text{ units}$$

$$\text{Ratio } P : Q : R = 4 : 3 : 3$$

$$\text{Total} = 10$$

$$R \text{ share} = \left(\frac{3}{10}\right) \times 9000 = 2700$$

$$\text{Final Answer: ₹2700}$$

Q. 59

In an election, 75% of the eligible voters cast their votes. Of these votes, 4% were declared invalid. If a winning candidate received 18,720 votes, which accounted for 65% of the total valid votes, what was the total number of eligible voters enrolled in that election?

- a) 36,000 
- b) 40,000 
- c) 42,000 
- d) 45,000 

Explanation:

$$\text{Winning votes} = 18720 = 65\% \text{ of valid votes}$$

$$\text{Valid votes} = 18720 \times \frac{100}{65} = 28800$$

$$\text{Cast votes} = 28800 \times \frac{100}{96} = 30000$$

$$\text{Eligible voters} = 30000 \times \frac{100}{75} = 40000$$

Q. 60	A toy manufacturer produced 4,000 board games at a total cost of Rs. 1,80,000. They gave away 400 board games to schools and NGOs as part of a community outreach program. For the remaining board games, they offered a 10% discount on the market price of Rs. 60 per game. Additionally, they ran a bundle offer where they gave one board game free with every 5 games purchased. If all 4,000 board games were distributed, what is their overall gain or loss percentage? a) 8% Loss  b) 10% Loss  c) 10% Gain  d) 8% Gain 
Explanation:	CP per game = $\frac{180000}{4000} = 45$ Discounted SP = $60 \times 90\% = 54$ Bundle: 5 paid, 1 free $\Rightarrow$ effective factor = Effective SP per game = $54 \times \frac{5}{6} = 45$ So SP = CP $\Rightarrow$ No profit no loss on sold items 400 free games = total cost effect loss Loss = $400 \times 45 = 18000$ Loss % = $\frac{18000}{180000} \times 100 = 10\%$

Q. 61

David lent ₹18,000 to Amit on 15 February 2025 at a simple interest rate of 8% per annum. Amit plans to pay back the entire amount on 15 August 2025. What is the total amount Amit needs to return?

- a) ₹18,600 
- b) ₹18,720 
- c) ₹19,200 
- d) ₹19,440 

Explanation:

Time = Feb 15 to Aug 15 = 6 months = $\frac{1}{2}$ year

$$SI = \frac{P \times R \times T}{100}$$

$$= \frac{18000 \times 8 \times \left(\frac{1}{2}\right)}{100}$$

$$= \frac{18000 \times 4}{100}$$

$$= 720$$

Total amount = Principal + Interest

$$= 18000 + 720$$

$$= 18720$$

Q. 62

A shopkeeper marked a leather boots pair 40% above its cost price. During a holiday sale, he offered a flat discount of ₹1,200 and still managed to make a profit of 15%. What was the cost price of the boots?

- a) ₹4,200 
- b) ₹4,500 
- c) ₹4,800 
- d) ₹5,200 

Explanation:

$$CP = x$$

$$MP = 1.4x$$

$$SP \text{ after discount} = 1.4x - 1200$$

$$\text{Profit } 15\% \Rightarrow SP = 1.15x$$

So:

$$1.4x - 1200 = 1.15x$$

$$0.25x = 1200$$

$$x = 4800$$

Q. 63

If the amount at the end of the 3rd year and 4th year on a certain principal at compound interest is ₹25,000 and ₹28,000 respectively, find the rate of interest per annum.

- a) 15% 
- b) 10% 
- c) 12% 
- d) 18% 

Explanation:

$$\frac{A_4}{A_3} = \frac{28000}{25000} = \frac{28}{25}$$

In compound interest:

$$\frac{A_4}{A_3} = 1 + \frac{r}{100}$$

So:

$$1 + \frac{r}{100} = \frac{28}{25}$$

$$\frac{r}{100} = \frac{3}{25}$$

$$r = 12\%$$

Q. 64

X invests ₹50,000 while Y invests ₹75,000, with X's investment lasting for 12 months and Y's for 6 months. The total profit amounts to ₹42,000. What is X's share?

- a) ₹22,000 
- b) ₹24,000 
- c) ₹26,000 
- d) ₹28,000 

Explanation:

$$\text{X's capital-time} = 50000 \times 12 = 600000$$

$$\text{Y's capital-time} = 75000 \times 6 = 450000$$

$$\text{Ratio X : Y} = 600000 : 450000 = 4 : 3$$

$$\text{Total profit} = 42000$$

$$\begin{aligned} \text{X share} &= \left(\frac{4}{7}\right) \times 42000 \\ &= 24000 \end{aligned}$$

Q. 65

A merchant bought 20 kg of premium coffee at ₹400 per kg and 30 kg of regular coffee at ₹300 per kg. He mixed them together. Due to a sudden shift in market demand, he had to sell the entire mixture at ₹350 per kg. Calculate his total profit or loss.

a) ₹300 Profit

b) ₹400 Profit

c) ₹500 Profit

d) ₹600 Profit

**Explanation:**

Total cost:

$$20 \times 400 = 8000$$

$$30 \times 300 = 9000$$

$$\text{Total CP} = 17000$$

$$\text{Total quantity} = 50 \text{ kg}$$

$$\text{SP} = 50 \times 350 = 17500$$

$$\text{Profit} = 17500 - 17000 = 500$$

Q. 66

Train P can cross a pole in 9 seconds, while train Q takes 15 seconds to cross train P when they travel in opposite directions on parallel tracks. If the ratio of the length of train P to that of train Q is 2 : 3 and the speed of train P is 72 km/h, find the speed (in km/h) of train Q.

a) 36 km/h

b) 32 km/h

c) 27 km/h

d) 45 km/h

**Explanation:**

$$\text{P speed} = 72 \text{ km/h} = 20 \text{ m/s}$$

$$\text{Length ratio P : Q} = 2 : 3$$

$$\text{Let P} = 2x \Rightarrow 2x = 180 \Rightarrow x = 90$$

$$\text{So Q} = 270 \text{ m}$$

$$\text{Relative speed} = \frac{180 + 270}{15} = 30 \text{ m/s}$$

$$\text{So Q speed} = 30 - 20 = 10 \text{ m/s}$$

$$\text{Convert: } 10 \times \frac{18}{5} = 36 \text{ km/h}$$

Q. 67

A number when divided by 56 leaves a remainder of 39, and when divided by 32 leaves a remainder of 15. Find the smallest such number.

- a) 196 
b) 207 
c) 224 
d) 239 

Explanation:

Given:

$$56 - 39 = 17$$

$$32 - 15 = 17$$

Common remainder gap = 17

$$\text{LCM}(56, 32) = 224$$

$$\begin{aligned}\text{So number} &= \text{LCM} - \text{common gap} \\ &= 224 - 17 \\ &= 207\end{aligned}$$

Q. 68

What is the result of $(0.4^3 + 0.3^3 - 0.7^3) \div (3 \times 0.4 \times 0.3 \times 0.7)$?

- a) 1 
b) 3 
c) - 3 
d) - 1 

Explanation:

$$0.4 + 0.3 - 0.7 = 0$$

$$\text{Let } a = 0.4, b = 0.3, c = -0.7$$

$$a + b + c = 0$$

$$\text{So } a^3 + b^3 + c^3 = 3abc$$

$$0.4^3 + 0.3^3 - 0.7^3 = 3 \times 0.4 \times 0.3 \times (-0.7)$$

$$= -(3 \times 0.4 \times 0.3 \times 0.7)$$

$$\text{Divide by } (3 \times 0.4 \times 0.3 \times 0.7)$$

$$= -1$$

Q. 69

If $\frac{\sin \theta}{a} = \frac{\cos \theta}{b}$, then find the value of $\sin \theta + \cos \theta$.

a) $\frac{a - b}{\sqrt{a^2 + b^2}}$ 

b) $\frac{a + b}{\sqrt{a^2 + b^2}}$ 

c) $\frac{\sqrt{a^2 + b^2}}{a + b}$ 

d) $\frac{a^2 + b^2}{a + b}$ 

Explanation:

$$\sin \theta / a = \cos \theta / b$$

$$\Rightarrow b \sin \theta = a \cos \theta$$

Divide:

$$\tan \theta =$$

Assume:

$$\sin \theta = \frac{a}{\sqrt{a^2 + b^2}}, \cos \theta = \frac{b}{\sqrt{a^2 + b^2}}$$

Now:

$$\sin \theta + \cos \theta = \frac{a + b}{\sqrt{a^2 + b^2}}$$

Final Answer:

$$\frac{a + b}{\sqrt{a^2 + b^2}}$$

Q. 70

If $x = 3 + 2\sqrt{2}$, find the value of $x - \frac{1}{x}$.

a) 6 

b) $8\sqrt{2}$ 

c) $2\sqrt{2}$ 

d) $4\sqrt{2}$ 

Explanation:

$$x = 3 + 2\sqrt{2}$$

$$= \frac{1}{3 + 2\sqrt{2}}$$

Rationalize:

$$= \frac{3 - 2\sqrt{2}}{3^2 - (2\sqrt{2})^2}$$

$$= \frac{3 - 2\sqrt{2}}{9 - 8}$$

$$= 3 - 2\sqrt{2}$$

Now:

$$x - \frac{1}{x} = (3 + 2\sqrt{2}) - (3 - 2\sqrt{2})$$
$$= 4\sqrt{2}$$

Q. 71

If the equation of a line is $4x - 3y = 12$, what is the equation of the line perpendicular to it that passes through the point $(4, 1)$?

a) $3x + 4y = 16$

b) $3x + 4y = 4$

c) $4x + 3y = 20$

d) $3x - 4y = 8$

**Explanation:**

$$4x - 3y = 12$$

Slope =

Perpendicular slope = $-\frac{3}{4}$

Using point $(4, 1)$:

$$y - 1 = \left(-\frac{3}{4}\right)(x - 4)$$

$$y = \left(-\frac{3}{4}\right)x + 4$$

$$3x + 4y = 16$$

Q. 72

A chocolatier wants to cast chocolate bars in the shape of right triangular prisms. Each prism has a triangular base with sides measuring 7 cm, 15 cm, and 20 cm, and the height (length of the prism) is 12 cm. If she plans to make 15 such chocolate bars, what is the total volume of chocolate required?

- a) 7020 cm³ 
- b) 7200 cm³ 
- c) 7560 cm³ 
- d) 7840 cm³ 

Explanation:

Base triangle sides 7, 15, 20
Use Heron:

$$s = \frac{7+15+20}{2} = 21$$

$$\text{Area} = \sqrt{[21 \times 14 \times 6 \times 1]} = \sqrt{1764} = 42$$

$$\text{Volume of 1 prism} = 42 \times 12 = 504$$

$$\begin{aligned} \text{For 15 prisms:} \\ &= 504 \times 15 = 7560 \text{ cm}^3 \end{aligned}$$

Q. 73

A cubic storage container with a side length of 40 cm needs to be completely covered with protective square stickers, each having a side length of 8 cm. What is the minimum number of such square stickers required to cover the entire outer surface of the container?

- a) 148 
- b) 150 
- c) 149 
- d) 151 

Explanation:

$$\begin{aligned} \text{Surface area of cube} &= 6a^2 \\ &= 6 \times 40^2 \\ &= 6 \times 1600 \\ &= 9600 \text{ cm}^2 \end{aligned}$$

$$\text{Area of 1 sticker} = 8^2 = 64 \text{ cm}^2$$

$$\begin{aligned} \text{Number of stickers} &= 9600 \div 64 \\ &= 150 \end{aligned}$$

Q. 74	In triangle PQR, medians PM, QN, and RK intersect at the centroid G. If the area of triangle PQR is 108 cm^2, what is the area of quadrilateral GMRN? a) 24 cm^2  b) 30 cm^2  c) 36 cm^2  d) 42 cm^2 
Explanation:	Centroid divides triangle into 6 equal small triangles Each small triangle area = $108 \div 6 = 18 \text{ cm}^2$ Quadrilateral GMRN = 2 such small triangles $= 2 \times 18$ $= 36 \text{ cm}^2$

Q. 75

The given bar graph shows the marks obtained by five students in Exam I and Exam II. Study the bar graph carefully to answer the question that follows. If the marks obtained by Suresh in Exam-I were increased by 14% of the original marks, what would be his new approximate percentage in Exam-I if the maximum marks in Exam-I were 140?

- a) 38% ☒
- b) 47% ☒
- c) 41% ☒
- d) 57% ☒

Explanation:

Suresh (Exam-I) $\approx$ 50 marks
Maximum marks = 140

Increase by 14% of original:
 $= 50 + 14\% \text{ of } 50$
 $= 50 + 7$
 $= 57 \text{ marks}$

Now percentage:

$$= \left(\frac{57}{140} \right) \times 100$$

$$= 40.7\% \approx 41\%$$

Q. 76	Select the most appropriate Synonym of the highlighted word: The ancient ruins were colossal, standing as a testament to the architectural brilliance of the era. a) minute ✗ b) fragile ✗ c) gigantic ✓ d) average ✗
Explanation:	Answer: (c) gigantic Explanation: The word "colossal" means extremely large or huge (बहुत विशाल). The most appropriate synonym is "gigantic", which also means very large or enormous (विशाल). Hence, both words convey the same idea of great size. Meaning of other options: • minute – means very small (बहुत छोटा) → opposite of colossal • fragile – means easily broken or delicate (नाजुक) → refers to strength, not size • average – means normal or ordinary (सामान्य) → does not express largeness

Q. 77	Read the following passage carefully and answer the given questions: The Sumerians of Mesopotamia are often credited with the invention of the earliest known system of writing, called cuneiform. This ancient civilization flourished between the Tigris and Euphrates rivers, developing complex societal structures including city-states governed by kings. They made significant strides in mathematics and astronomy, which were essential for their agricultural calendars and trade activities. In the Indus Valley, another great civilization thrived with unparalleled urban planning. The cities of Mohenjo-Daro and Harappa featured grid-like street patterns and sophisticated sewage systems that were far superior to many later cultures. While much of their script remains undeciphered, their mastery of metallurgy and bead-making suggests a highly specialized workforce and an extensive network of maritime trade. Q- According to the passage, what was the Sumerian system of writing called? a) Hieroglyphics ✗ b) Cuneiforms ✓ c) Calligraphy ✗ d) Inscriptions ✗
Explanation:	Answer: (b) Cuneiforms Explanation: The passage clearly states that the Sumerians developed the earliest known system of writing called "cuneiform" (कीलाक्षर लिपि). Hence, the correct answer is Cuneiforms, as it directly matches the information given. Explanation of other options: • Hieroglyphics – Egyptian writing system (मिस्र की चित्रलिपि), not Sumerian • Calligraphy – art of beautiful writing (सुलेख कला), not a specific script • Inscriptions – writings engraved on surfaces (शिलालेख), not a writing system

Q. 78	Read the following passage carefully and answer the given questions: The Sumerians of Mesopotamia are often credited with the invention of the earliest known system of writing, called cuneiform. This ancient civilization flourished between the Tigris and Euphrates rivers, developing complex societal structures including city-states governed by kings. They made significant strides in mathematics and astronomy, which were essential for their agricultural calendars and trade activities. In the Indus Valley, another great civilization thrived with unparalleled urban planning. The cities of Mohenjo-Daro and Harappa featured grid-like street patterns and sophisticated sewage systems that were far superior to many later cultures. While much of their script remains undeciphered, their mastery of metallurgy and bead-making suggests a highly specialized workforce and an extensive network of maritime trade. Q- Where was the Sumerian civilization geographically located? a) Near the Nile River  b) Near the Indus River  c) Near Tigris-Euphrates  d) Near the Yellow River 
Explanation:	Answer: (c) Near Tigris-Euphrates Explanation: The passage clearly mentions that the Sumerian civilization flourished between the Tigris and Euphrates rivers (टिगरिस और यूफ्रेट्स नदियों के बीच). Hence, the correct answer is Near Tigris-Euphrates, which corresponds to Mesopotamia (मेसोपोटामिया). Explanation of other options: • Near the Nile River – refers to Egyptian civilization (मिस्र सभ्यता) • Near the Indus River – refers to Indus Valley Civilization (सिंधु घाटी सभ्यता) • Near the Yellow River – refers to Chinese civilization (चीनी सभ्यता)

Q. 79	Read the following passage carefully and answer the given questions: The Sumerians of Mesopotamia are often credited with the invention of the earliest known system of writing, called cuneiform. This ancient civilization flourished between the Tigris and Euphrates rivers, developing complex societal structures including city-states governed by kings. They made significant strides in mathematics and astronomy, which were essential for their agricultural calendars and trade activities. In the Indus Valley, another great civilization thrived with unparalleled urban planning. The cities of Mohenjo-Daro and Harappa featured grid-like street patterns and sophisticated sewage systems that were far superior to many later cultures. While much of their script remains undeciphered, their mastery of metallurgy and bead-making suggests a highly specialized workforce and an extensive network of maritime trade. Q- What feature distinguished the cities of the Indus Valley Civilization? a) Advanced urban plans ✓ b) Large stone pyramids ✗ c) Massive royal tombs ✗ d) Written trade laws ✗
Explanation:	Answer: (a) Advanced urban plans Explanation: The passage highlights that the cities of Mohenjo-Daro and Harappa had grid-like street patterns and advanced drainage systems (उन्नत नगरीय योजना और जल निकासी व्यवस्था). This clearly shows that advanced urban planning was the distinguishing feature of the Indus Valley Civilization. Explanation of other options: • Large stone pyramids – associated with Egyptian civilization (मिस्र सभ्यता) • Massive royal tombs – also linked to Egypt (राजाओं के मकबरे) • Written trade laws – not mentioned in the passage and not a known key feature

Q. 80	Read the following passage carefully and answer the given questions: The Sumerians of Mesopotamia are often credited with the invention of the earliest known system of writing, called cuneiform. This ancient civilization flourished between the Tigris and Euphrates rivers, developing complex societal structures including city-states governed by kings. They made significant strides in mathematics and astronomy, which were essential for their agricultural calendars and trade activities. In the Indus Valley, another great civilization thrived with unparalleled urban planning. The cities of Mohenjo-Daro and Harappa featured grid-like street patterns and sophisticated sewage systems that were far superior to many later cultures. While much of their script remains undeciphered, their mastery of metallurgy and bead-making suggests a highly specialized workforce and an extensive network of maritime trade. Q- Why were mathematics and astronomy important to the Sumerians? a) For building temples ✗ b) For military tactics ✗ c) For trade and calendars ✓ d) For religious myths ✗
Explanation:	Answer: (c) For trade and calendars Explanation: The passage clearly states that the Sumerians used mathematics and astronomy for agricultural calendars and trade activities (कृषि कैलेंडर और व्यापार गतिविधियों के लिए). These helped them track seasons, plan farming, and manage trade efficiently. Explanation of other options: • For building temples – not mentioned in the passage • For military tactics – no reference to warfare use • For religious myths – not stated; focus is on practical uses

Q. 81	Read the following passage carefully and answer the given questions: The Sumerians of Mesopotamia are often credited with the invention of the earliest known system of writing, called cuneiform. This ancient civilization flourished between the Tigris and Euphrates rivers, developing complex societal structures including city-states governed by kings. They made significant strides in mathematics and astronomy, which were essential for their agricultural calendars and trade activities. In the Indus Valley, another great civilization thrived with unparalleled urban planning. The cities of Mohenjo-Daro and Harappa featured grid-like street patterns and sophisticated sewage systems that were far superior to many later cultures. While much of their script remains undeciphered, their mastery of metallurgy and bead-making suggests a highly specialized workforce and an extensive network of maritime trade. Q- What does the Indus Valley's sewage system suggest about their culture? a) They loved jewelry ✗ b) They were nomadic ✗ c) They lacked water ✗ d) They were advanced ✓
Explanation:	Answer: (d) They were advanced Solution: The passage mentions that the Indus Valley cities had sophisticated sewage systems (उन्नत जल निकासी व्यवस्था) which were superior to many later cultures. This clearly indicates that their society was highly developed and technologically advanced (उन्नत और विकसित). Explanation of other options: • They loved jewelry – related to bead-making, not sewage systems • They were nomadic – incorrect; they had well-planned cities (स्थायी नगर) • They lacked water – opposite idea; advanced sewage shows proper water management

Q. 82	Select the correct Direct form of the given sentence: The teacher asked the student why he was late. a) The teacher said to the Student, "Why are you late?"  b) The teacher said to the Student, "Why were you late?"  c) The teacher said to the Student, "Why he is late?"  d) The teacher said to the Student, "Why you are late?" 
Explanation:	When converting an indirect interrogative sentence back into direct speech, several rules apply: • Reporting Verb: The reporting verb "asked" is changed back to "said to" when it is followed by an object ("the student"). • Punctuation: The comma and quotation marks (, " . . . ?") are reintroduced, and the conjunction "why" is removed from its connecting role. • Tense Shift: The simple past tense ("was") in indirect speech reverts to the simple present tense ("are") in direct speech. • Pronoun Shift: The third-person pronoun "he" (which referred to the student) changes to the second-person pronoun "you" to match the direct address. • Sentence Structure: The assertive word order of the indirect clause (<i>subject + verb</i>: "he was late") changes back to the interrogative word order required for a direct question (<i>verb + subject</i>: "are you late?").

Q. 83	Select the most appropriate meaning of the idiom: To turn a deaf ear a) To listen carefully  b) To be very hungry  c) To ignore a request  d) To speak very loudly 
Explanation:	Answer: (c) To ignore a request Explanation: The idiom "to turn a deaf ear" means to deliberately ignore something or refuse to listen (जानबूझकर अनदेखा करना/न सुनना). It is used when someone chooses not to pay attention to advice, requests, or complaints. Explanation of other options: - To listen carefully – opposite meaning (ध्यान से सुनना) - To be very hungry – unrelated meaning (बहुत भूखा होना) - To speak very loudly – not related to the idiom (बहुत जोर से बोलना)

Q. 84	Find the part of the sentence that contains a grammatical error: The students / were waiting / for the principal / since two hours. a) The students  b) were waiting  c) for the principal  d) since two hours. 
Explanation:	Answer: (d) since two hours. Explanation: The error is in "since two hours". • "Since" (से) is used with a point of time (e.g., since morning, since 5 pm). • "For" (के लिए) is used with a duration of time (e.g., for two hours). Correct sentence: The students were waiting for the principal for two hours. Explanation of other options: • The students – correct subject • were waiting – correct past continuous tense • for the principal – correct prepositional phrase

Q. 85	Select the most appropriate Idiom for the highlighted phrase: The manager told him to stop talking about unimportant things and get to the point. a) Beat about the bush ✓ b) Bark up wrong trees ✗ c) Burn the midnight oil ✗ d) Bite the bullet now ✗
Explanation:	Answer: (a) Beat about the bush Explanation: The phrase "stop talking about unimportant things and get to the point" means avoiding unnecessary details. The idiom "beat about the bush" means to avoid the main topic and talk indirectly (इधर-उधर की बातें करना), which perfectly matches the context. Explanation of other options: • Bark up the wrong tree – make a wrong assumption (गलत दिशा में प्रयास करना) • Burn the midnight oil – work late at night (रात देर तक काम करना) • Bite the bullet – face a difficult situation bravely (कठिन परिस्थिति का सामना करना)

Q. 86	Identify the TYPE OF SENTENCE given below. "Though he was tired, he continued to work until the sun finally went down." a) Simple Sentence  b) Compound Sentence  c) Complex Sentence  d) Compound-Complex Sentence 
Explanation:	Answer: (c) Complex Sentence Explanation: The sentence contains one main clause (he continued to work) and subordinate clauses (Though he was tired, until the sun finally went down). The presence of dependent clauses (subordinate clauses) joined with conjunctions like "though" and "until" makes it a complex sentence. Explanation of other options: • Simple Sentence – has only one clause → not applicable • Compound Sentence – has two independent clauses joined by conjunctions → not here • Compound-Complex Sentence – has multiple independent + dependent clauses → not the case

Q. 87

Select the correct INDIRECT form of the given sentence.

The teacher said to the students, "Have you completed the assignment on time?"

- a) The teacher asked the students did they complete the assignment on time. 
- b) The teacher asked the students whether they completed the assignment on time. 
- c) The teacher asked the students if they have completed the assignment on time. 
- d) The teacher asked the students if they had completed the assignment on time. 

Answer: (d) The teacher asked the students if they had completed the assignment on time.

Explanation:

The given sentence is an **interrogative sentence (question)**, so "said to" → "asked" and we use **if/whether (क्या)**.

Also, the tense changes from **present perfect (have completed)** to **past perfect (had completed)** due to backshifting.

Explanation:

Thus, the correct indirect form is: The teacher asked the students if they had completed the assignment on time.

Explanation of other options:

- (a) – incorrect structure; question form not converted properly
- (b) – tense not changed correctly (should be past perfect)
- (c) – tense remains present perfect, incorrect

Q. 88

Arrange the following sentences to form a coherent paragraph:

P: This makes it difficult for traditional retailers to compete on price alone.

Q: E-commerce has fundamentally changed how consumers approach holiday shopping.

R: Many shoppers now prefer the convenience of browsing deals from their homes.

S: Furthermore, online platforms often offer significant discounts during these periods.

a) RSPQ 

b) QRSP 

c) RPSQ 

d) QSPR 

Explanation:

Q-R-S-P forms the coherent paragraph.

E-commerce has fundamentally changed how consumers approach holiday shopping (Q). Many shoppers now prefer the convenience of browsing deals from their homes (R). Furthermore, online platforms often offer significant discounts during these periods (S). This makes it difficult for traditional retailers to compete on price alone (P).

Logical Flow

- Q introduces the main topic (e-commerce's impact).
- R explains consumer behavior shift (convenience preference).
- S adds supporting detail ("furthermore" links discounts).
- P concludes with the consequence for retailers.

Q. 89

Select the most appropriate One Word Substitution for the given group of words.

A person who is indifferent to pleasure or pain.

a) Stoic 

b) Cynic 

c) Epicure 

d) Skeptic 

Explanation:

Answer: (a) Stoic

Explanation:

The word "**Stoic**" refers to a person who **remains unaffected by pleasure or pain** (दुःख-सुख में समान रहने वाला) and shows **self-control and emotional resilience**.

Hence, it correctly matches the given description.

Explanation of other options:

- **Cynic** – a person who distrusts others' motives (निंदक/अविश्वासी)
- **Epicure** – a person who enjoys luxury and fine food (भोग-विलासी)
- **Skeptic** – a person who doubts things (संदेहवादी)

Q. 90	Identify the error: Scarcely had I / finished my dinner / when the phone rang. a) Scarcely had I ✗ b) finished my dinner ✗ c) when the phone rang. ✗ d) No Error ✓
Explanation:	Option D is the correct answer. There is no error in the sentence: "Scarcely had I finished my dinner when the phone rang." Why No Error This follows standard inversion rules for "scarcely...when" constructions: • "Scarcely had I finished" uses correct subject-auxiliary inversion (had + subject). • "When the phone rang" properly connects the two clauses. Structure Explained • Scarcely triggers inversion: auxiliary "had" moves before subject "I." • Simple past "rang" matches tense after "when." No article/preposition issues in any part.

Q. 91	Improve the highlighted part of the sentence: He denied to go there. a) refused to go ✓ b) denied go ✗ c) refused for going ✗ d) No Improvement ✗
Explanation:	Answer: (a) refused to go Explanation: The verb "deny" is followed by a gerund (V-ing), so "denied to go" is incorrect. Option (b) "denied go" is also incorrect because it lacks the -ing form. Therefore, the best correct replacement is "refused to go" (जाने से मना किया), which fits grammatically and contextually. Explanation of other options: • denied go – incorrect structure (should be "denied going") • refused for going – incorrect preposition usage • No Improvement – wrong because the original sentence is incorrect

Q. 92

Arrange the following sentences to form a coherent paragraph:

- A. But in the industrial era, destroying an enemy's productive capacity means destroying the capacity to generate wealth.
- B. In the mercantile era, it was easy to define the goal of a nation's strategy as the accumulation of gold.
- C. Strategy is essentially the art of creating power.
- D. Therefore, the definition of strategy has shifted alongside the nature of the economy.

- a) BADC ✗
- b) CBAD ✓
- c) BCAD ✗
- d) CADB ✗

Explanation:

C-B-A-D forms the coherent paragraph.

Strategy is essentially the art of creating power (C). In the mercantile era, it was easy to define the goal of a nation's strategy as the accumulation of gold (B). But in the industrial era, destroying an enemy's productive capacity means destroying the capacity to generate wealth (A). Therefore, the definition of strategy has shifted alongside the nature of the economy (D).

Logical Flow

- C introduces the main concept (strategy).
- B gives the first historical example (mercantile era).
- A contrasts with "but" (industrial era shift).
- D concludes with "therefore" (modern evolution).

Q. 93	Select the most appropriate One Word Substitution for the given group of words. A collection of poems or other pieces of writing. a) Directory  b) Biography  c) Catalogue  d) Anthology 
Explanation:	Answer: (d) Anthology Explanation: The word "Anthology" means a collection of poems, stories, or literary works (साहित्यिक रचनाओं का संग्रह). Hence, it perfectly matches the given phrase. Explanation of other options: • Directory – a list of names/addresses (नामों/पते की सूची) • Biography – life story of a person (जीवनी) • Catalogue – list of items (सूची/कैटलॉग), not specifically literary works

Q. 94	Select the correct PASSIVE form of the given sentence. The manager will evaluate the performance of every employee next week. a) The performance of every employee will be evaluated by the manager next week.  b) The performance of every employee is being evaluated by the manager next week.  c) The performance of every employee shall be evaluated by the manager next week.  d) The performance of every employee would be evaluated by the manager next week. 
Explanation:	Answer: (a) The performance of every employee will be evaluated by the manager next week. Explanation: The given sentence is in simple future tense (will evaluate). Passive voice structure for future tense is: will be + past participle (V3). Hence, the correct form is: The performance of every employee will be evaluated by the manager next week. Explanation of other options: • (b) is being evaluated – present continuous tense, incorrect • (c) shall be evaluated – “shall” is not appropriate here for normal future usage • (d) would be evaluated – conditional tense, incorrect

Q. 95	Identify the highlighted CLAUSE in the following sentence: "The boy who won the gold medal is my younger brother." a) Noun Clause  b) Adverb Clause  c) Adjective Clause  d) Independent Clause 
Explanation:	Answer: (c) Adjective Clause Explanation: The clause "who won the gold medal" describes the noun "the boy". A clause that modifies or gives more information about a noun is called an Adjective Clause. Explanation of other options: • Noun Clause – acts as a noun, not here • Adverb Clause – modifies a verb/adjective, not applicable • Independent Clause – can stand alone as a complete sentence, but this clause cannot
Q. 96	Select the correct Passive form of the given sentence: The master was punishing the servant for his negligence. a) The servant has been punished by master.  b) The servant was been punished by master.  c) The servant is being punished by master.  d) The servant was being punished by master. 
	Answer: (d) The servant was being punished by master. Explanation: The given sentence is in past continuous tense (was punishing). Passive voice of past continuous is: was/were + being + past participle (V3). So, the correct form is: The servant was being punished by the master for his negligence. Explanation of other options: • (a) has been punished – present perfect tense, incorrect • (b) was been punished – grammatically incorrect structure • (c) is being punished – present continuous tense, incorrect

Q. 97	Select the most appropriate Synonym of the given word. LOQUACIOUS a) Talkative ✓ b) Reticent ✗ c) Hesitant ✗ d) Reserved ✗
Explanation:	Answer: (a) Talkative Explanation: The word "Loquacious" means very talkative or fond of speaking (बहुत बोलने वाला). The correct synonym is "Talkative", which has the same meaning (बातूनी). Explanation of other options: • Reticent – quiet, not willing to speak (कम बोलने वाला) → opposite • Hesitant – unsure or lacking confidence (संकोची/झिझकने वाला) • Reserved – quiet and keeps feelings to oneself (संयमी/कम बोलने वाला) → opposite
Q. 98	Choose the word with the "Incorrect Spelling". a) Believe ✗ b) Recieve ✓ c) Deceive ✗ d) Relieve ✗
Explanation:	Answer: (b) Recieve Explanation: The incorrect spelling is "Recieve". The correct spelling is "Receive" (प्राप्त करना). This follows the rule: "i before e except after c" → after "c", we write "ei" (receive, deceive). Explanation of other options: • Believe – correct spelling (विश्वास करना) • Deceive – correct spelling (धोखा देना), follows "ei" after "c" • Relieve – correct spelling (राहत देना)

Q. 99	Select the most appropriate Antonym of the given word. VIGILANT a) Watchful  b) Cautious  c) Attentive  d) Careless 
Explanation:	Answer: (d) Careless Explanation: The word "Vigilant" means alert, watchful, and careful (सतर्क). Its opposite (antonym) is "Careless", which means not careful or negligent (लापरवाह). Explanation of other options: • Watchful – alert and observant (सतर्क) → synonym • Cautious – careful to avoid danger (सावधान) → synonym • Attentive – paying close attention (ध्यान देने वाला) → similar meaning

Q. 100

Select the most appropriate option to fill in the blank.

He is the man _____ I met in the market yesterday.

- a) whose 
- b) which 
- c) whom 
- d) what 

Answer: (c) whom**Explanation:**

The blank requires a **relative pronoun** referring to a person and acting as the **object** of the verb "met".

- "I met ____" → object form is needed → **whom** is correct.
So, the correct sentence is: He is the man **whom** I met in the market yesterday.

Explanation of other options:

- **whose** – shows possession (जिसका) → e.g., the man whose car...
- **which** – used for things/animals (जो – वस्तु के लिए) → not for a person here
- **what** – means "the thing which" (जो चीज़) → not used as a relative pronoun after a noun

Key Point:

- **Who** → subject (कौन)
- **Whom** → object (किसे/जिसे)
- **Whose** → possession (जिसका)

Explanation:
